"Renowned luthier John S. Bogdanovich crafted the project shown inside for his own personal use. The design he presents is simple but elegant and is a composite of ideas borrowed from several different guitars admired for their tonal qualities and aesthetic details. In close-up photographs Bogdanovich invites you to stand by his side and follow the entire process from start to finish. He offers guidance through every step, and explains every decision, from the arrangement of his workbench and the selection of the wood, to tuning and setting up the instrument. Bogdanovich also provides a choice of alternative methods and materials -- to help you find your own style of working, and to enable you to add your personal touches to your project. By the time your instrument is finished, you'll have acquired a world of knowledge, from the difference between quartersawn and flat-sawn wood to the pros and cons of lacquer versus French polish. You'll have mastered dozens of skills, including bending and laminating wood and cutting and seating wire frets. Un metodo innovativo nel panorama dei corsi pratici per chitarra: partendo dal presupposto della stretta connessione tra l'abilità tecnica e una buona conoscenza della teoria musicale, questo libro guida lo studente lungo un percorso formativo completo e stimolante. I vari argomenti correlati e necessari per orientarsi nel mondo della musica vengono esposti in una continua alternanza: teoria musicale necessaria per la lettura, la comprensione e l'interpretazione di spartiti e tablature e per la completa padronanza delle tecniche di costruzione degli accordi, delle scale e delle loro armonizzazioni; esercizi di carattere generale per il coordinamento e il rafforzamento delle dita; tecniche di fingerpicking, crosspicking, stumming, per chitarra acustica ed elettrica; esercizi specifici per praticare in modo immediato le tecniche presentate; porzioni di partiture di brani famosi per consentire una immediata soddisfazione dopo la fatica degli esercizi; spunti di psicologia della percezione musicale; curiosità e aneddoti legati alla musica; tecniche di set-up dello strumento (acustico ed elettrico). Le tecniche, gli accordi e le scale sono corredati di una spiegazione rigorosa, per evitare allo studente la mera memorizzazione di schemi fissi - problema comune alla maggior parte dei corsi di chitarra - e consentire la comprensione delle ragioni che si celano dietro a quelli che potrebbero altrimenti sembrare gli esiti di formule rigide e predefinite.

J'ai connu le Maître Paolo Salvati au début de 2000 et je fus attiré par la chevelure épaisse et longue et par la foi chrétienne qu'il montrait dans la conversation. Il me raconta qu'il avait quitté la profession d'arpenteur, tout en ayant la responsabilité d'une famille, pour se consacrer exclusivement à l'art, et il l'a fait en partant du bas, en fréquentant les espaces ouverts de Rome, Place Navona, Place d'Espagne, Rue Margutta, s'exerçant principalement comme un portraitiste. À cette occasion, il a rencontré beaucoup de personnages qui sont venus se faire représenter, beaucoup d'acteurs, y compris Brigitte Bardot et même prince Don Agostino Chigi Albani della Rovere, critique et historien de l'art, et mécène intéressé à acheter ses peintures et dessins. De cette façon il allait tracer une nouvelle route à parcourir. En tant que artiste totalement indépendant du formalisme de l'école académique, il n'a pas accepté de conditions d'aucune sorte et il ne s'est pas adapté aux besoins du marché. Quand j'ai demandé quelle était la définition que on devrait donner au terme artiste, Salvati a répondu: "Héros, parce que dans l'ère moderne l'artiste est celui qui accomplit un acte extraordinaire de courage qui implique la sacrifice conscient de soi-même. Vivre d'art est déjà un acte de

courage, on sacrifie sa propre vie, nous avons la tendance à protéger l'oeuvre qui exprime notre message spirituel. L'oeuvre achevée est le don que l'artiste rend à la communauté mondiale grâce à sa communication personnelle, accessible à tous pour le bien commun, qui trop souvent n'est jamais assez récompensée." Ce concept m'a fait penser précisément sur le rôle de l'artiste en général dans la société contemporaine. D'ailleurs le statut de l'artiste consacré par l'Unesco en 1997, aborde cette question grâce à une recommandation, qui est transmise à tous les Etats, que la tâche de l'art reste un besoin fondamental, nécessaire et essentiel, en particulier dans la société contemporaine, pour les valeurs que le message artistique contient. Pour ce message universel, Paolo Salvati, artiste indépendant, a mis dans le mille, et la peinture qu'il exprime à travers un expressionnisme poétique est fortement lié à la spiritualité intime que l'Unesco a souhaité promouvoir. The setup, maintenance, and restoration of the five-string banjo. An indispensable guide for the amateur as well as the professional repair person. Every procedure is clearly explained and illustrated with detailed photographs and diagrams. I was given my first guitar when I was in my mid teens but I didn't really start playing it properly until I was in my early thirties and that was when I first started to look at how guitars are made. I got accepted to study Stringed Instrument Making at Anniesland College in Glasgow (Scotland). During those 2 years I was given the opportunity to develop a greater understanding of the history, science, and practice of making musical instruments. These 3 project books (gathered together here in this one volume) were written in the evenings while I was at college to help me with remembering the various processes I was learning each day and also to take note of any mistakes I made along the way. Hope you enjoy reading them.
