

Counterstrike Black Fleet Trilogy Book 3

A relentless enemy... An old wolf's last hunt... The future of two species hanging in the balance... The Darshik war machine is flagging, but the war is far from over. Even as an exhausted Federation military tenses up for a counterattack after repelling the last Darshik invasion, reports are coming in of a new, more powerful class of ship that's striking deep into Terran space. Captain Jackson Wolfe has been given the fleet's newest, most advanced destroyer and tasked with eliminating this new threat before it can claim any more human lives. What he finds, however, is immeasurably more dangerous than just some new class of starship ... it's a horror that could lead to the destruction of both their species if it isn't stopped. Destroyer is the third book in the Expansion Wars Trilogy and part of the #1 bestselling Black Fleet Saga.

With the invasion of Dara complete, and the Wall of Storms breached, the world has opened to new possibilities for the gods and peoples of both empires as the sweeping saga of the award-winning Dandelion Dynasty continues in this third book of the "magnificent fantasy epic" (NPR). Princess Théra, once known as Empress Üna of Dara, entrusted the throne to her younger brother in order to journey to Ukyu-Gondé to war with the Lyucu. She has crossed the fabled Wall of Storms with a fleet of advanced warships and ten thousand people. Beset by adversity, Théra and her most trusted companions attempt to overcome every challenge by doing the most interesting thing. But is not letting the past dictate the present always possible or even desirable? In Dara, the Lyucu leadership as well as the surviving Dandelion Court bristle with rivalries as currents of power surge and ebb and perspectives spin and shift. Here, parents and children, teachers and students, Empress and Pékyu, all nurture the seeds of plans that will take years to bloom. Will tradition yield to new justifications for power? Everywhere, the spirit of innovation dances like dandelion seeds on the wind, and the commoners, the forgotten, the ignored begin to engineer new solutions for a new age. Ken Liu returns to the series that draws from a tradition of the great epics of our history from the Aeneid to the Romance on the Three Kingdoms and builds a new tale unsurpassed in its scope and ambition.

75 years ago, an alien fleet attacked Earth. Without warning. Without mercy. We were not prepared. Then the aliens abruptly left. We rebuilt. We armed ourselves. We swore: never again. The aliens never came back ... until now ... It's the year 2650. With overwhelming force the aliens have returned, striking deep into our territory, sending Earth into a panic. Our new ships burn like straw. All our careful preparations are wasted. Only one man, one crew, and the oldest starship in the fleet stand between the Earth and certain destruction: ISS Constitution.

The devastation of Pearl Harbor and the American victory at Midway were prelude to a greater challenge: rolling back the vast Japanese Pacific empire, island by island.

Explore the "Wars" in Star Wars as never before! Enter a galaxy ravaged by conflict and discover the complete story of the epic struggles that define the Star Wars movies. Two authorities on future warfare join forces to create a taut, convincing novel—set in 2026—about a besieged America battling for its very existence.

Captain Jackson Wolfe never thought he'd see the end of the Phage War in his lifetime. The enemy was too powerful, too numerous, and utterly determined to exterminate humanity. But the appearance of a new ally in the fight has changed all of that. For the first time since the original incursion Wolfe thinks that maybe there's a chance to stop their implacable enemy before they have the chance to wipe out any more human planets. That opportunity comes at great cost, however, and even as he makes plans for their first offensive move on the Phage, Jackson is all too aware that most of them will not survive. "Counterstrike" is book three of the bestselling Black Fleet Trilogy.

"Captain Nolan destroyed the Void Wraith factory and the fleet guarding it, but every victory comes with a price. The destruction of the Helios Gate in the Ghantan system stranded Nolan and his crew months from the closest Gate. Dryker and Khar have been imprisoned by the Primo, forced to remain idle."--Amazon.com.

Just when you thought things couldn't get any deadlier, a massive fleet arrives from the future! Thanks to Jim and his allies' efforts, there's finally peace in the galaxy ... but all good things must come to an end. The Black Fleet, hellbent on revenge, will indiscriminately ravage every planet on their way to Earth. This is the very definition of an extinction-level event, and nobody seems to be able to stop the enemy ships in their tracks. To make matters worse, the Akakies are willing to sacrifice Earth to save their own species. Having defied the odds a few times already, it again falls onto Jim and his friends to save the day, but can he counter such a universe-ending threat? And if he does, at what cost? Don't miss The Black Fleet, the third book in The Crimson Deathbringer trilogy. If you like Star Wars/Star Trek style epic space battles, time-travel, and larger-than-life characters, then you'll love this third installment. Pick it up today and find out for yourself!

Adrift in an unknown sector of space, Slater and the crew of the Franklin are cut off from friendly support and surrounded by enemies on all sides. The mysterious council means to destroy him, but a derelict core is a deadly opponent, and Captain Slater will stop at nothing to get his crew home safely. It's time for Slater to go on the offensive. It's time to take the fight to the enemy. It's time to counterattack!

The Zardalu were the greatest menace ever known to the worlds of the spiral arm, enslaving entire races and exterminating others, guided by an unswerving belief in their own supremacy. Then their slaves rose up against them, and for eleven thousand years the Zardalu had been extinct and the spiral arm had known a kind of peace. But now the Zardalu are back . . . The search for the Builders, the legendary alien race whose unfathomable constructs continued to perplex scholars and explorers alike, had led Builder expert Darya Lang, adventurer Hans Rebka, and treasure hunters Louis Nenda and Atvar H'sial to an unknown Builder artifact far outside the spiral arm. There they found the Zardalu - just a few who had been trapped in stasis all those millennia, held there for purposes known only to the Builders. And in the struggle that ensued the Zardalu had been set loose, transported by Builder technology to galactic parts unknown - free to ravage any world and any race within their grasp. The only chance to eliminate the Zardalu threat was to find them and wipe them out before they had time to breed back up to strength and once again threaten civilized beings everywhere. The problem was that no one believed the story. Only Darya Land and her companions had actually seen the aliens - and no evidence existed to support their claims. And so the course seemed clear: get a ship themselves and search out the Zardalu. But the way would not be easy. Even once they managed to locate the Zardalu, they still had the Builders to deal with. For the closer they got to their quarry, the more clear it became that the Zardalu and their world were closely entwined with the fate - and the plans - of the Builders themselves.

From Joshua Dalzelle, author of the bestselling "Omega Force" series, comes an all new vision of humanity's future. In the 25th century humans have conquered space. The advent of faster-than-light travel

has opened up hundreds of habitable planets for colonization, and humans have exploited the virtually limitless space and resources for hundreds of years with impunity. So complacent have they become with the overabundance that armed conflict is a thing of the past, and their machines of war are obsolete and decrepit. What would happen if they were suddenly threatened by a terrifying new enemy? Would humanity fold and surrender, or would they return to their evolutionary roots and meet force with force? One ship-and one captain-will soon be faced with this very choice. Against incredible odds, Jackson Wolfe is determined to save humanity-and in the process, might end up saving himself.

The Phage War had been a devastating conflict for the Terran Confederacy. Even with the destruction of their terrifying, implacable foe, humanity is still reeling. Political alliances are crumbling and their mighty fleet is in tatters. There is nothing to celebrate, even after such a complete victory. They soon learn that there are other stellar neighbors ... and they've been watching the conflict with great interest. One species comes with an offer of friendship and alliance, but humanity is weary and distrustful, their only interactions with aliens having resulted in the near-eradication of their kind. Before the ashes of war have been fully swept away Captain Celesta Wright is dispatched to the Frontier with a small taskforce to investigate a mysterious signal while the Confederacy struggles to hold itself together. A partnership with this new species could help accelerate the recovery effort, but is the offer too good to be true? Can humanity risk another fight with an advanced alien species right on the heels of the bloodiest war that had ever been waged? *New Frontiers* is the first book of the Expansion Wars Trilogy, an all adventure in the Black Fleet universe.

From the author of the Jack Ryan series comes an electrifying #1 New York Times bestseller—a standalone military thriller that envisions World War 3... A chillingly authentic vision of modern war, *Red Storm Rising* is as powerful as it is ambitious. Using the latest advancements in military technology, the world's superpowers battle on land, sea, and air for ultimate global control. It is a story you will never forget. Hard-hitting. Suspenseful. And frighteningly real. “Harrowing...tense...a chilling ring of truth.”—TIME

From the Publisher: This latest edition of an official U.S. Government military history classic provides an authoritative historical survey of the organization and accomplishments of the United States Army. This scholarly yet readable book is designed to inculcate an awareness of our nation's military past and to demonstrate that the study of military history is an essential ingredient in leadership development. It is also an essential addition to any personal military history library.

When a meteorite lands in Surrey, the locals don't know what to make of it. But as Martians emerge and begin killing bystanders, it quickly becomes clear—England is under attack. Armed soldiers converge on the scene to ward off the invaders, but meanwhile, more Martian cylinders land on Earth, bringing reinforcements. As war breaks out across England, the locals must fight for their lives, but life on Earth will never be the same. This is an unabridged version of one of the first fictional accounts of extraterrestrial invasion. H. G. Wells's military science fiction novel was first published in book form in 1898, and is considered a classic of English literature.

If you could be the first to lay eyes upon a planet orbiting a distant star, would you go? If it meant that when you returned home-if you returned home-everyone you knew would have been dead for centuries, would you still go? The members of the Polaris Project knew what they were giving up when they volunteered to fly to the star named Angel-21, but the allure of being the first explorers to leave the Solar System far outweighed the risks. As it turned out, the most dangerous thing they faced wasn't the mission ... it was the homecoming. Eight hundred years have passed and Earth is nothing like they thought it would be. As Commander Markus Brentwood scrambles to uncover the mystery of what's happened to Earth in their absence, he also must contend with an increasingly dysfunctional crew and a damaged ship that's flying on borrowed time. What should have been a joyous return home after a long, hard mission has turned into a race to see which nightmare would kill them first. *Blueshift* is an all new sci-fi adventure from Joshua Dalzelle, author of the bestselling Omega Force Series and Black Fleet Saga.

From USA Today bestselling author Joshua Dalzelle..... Captain Jason Burke is a man apart, and not just because he's the only of his kind for thousands of lightyears in any direction. The changes to his body and to his genetic code have made him faster, stronger, more able to survive in his dangerous occupation ... but they've also ensured that he'll never truly fit in with others of his species. He always assumed he would live and die with his crew and never lay eyes on another human again, so he was completely unprepared for the crisis that is brought to his doorstep. The mercenary captain learns through back channel information that Earth may be in danger and, worse, that he may have been a contributing factor. He now faces the choice of ignoring the problem and allowing his own species to fight their own battles, or returning to help and risk making the situation worse. Can he just sit idly by while his species faces such a dire threat?

The Saga Continues as the Ca'cadasan menace prepares to assault the New Terran Empire. A menace humankind fled across the Galaxy two thousand years before. Humankind has grown complacent, confident in the victories their fleet has won for them through the last thousand years over numerous alien races. But the Ca'cadasan Empire has continued to grow, and now the massive Imperialistic power has found the hated humans. The Emperor knew this was going to happen, but most of Parliament ignored his strident call. And the Prince Sean Lee Ogden Romanov, third in line for the throne, finds himself placed into a position he had never thought would come his way. The fate of the Empire may rest on the abilities of one young man, and his skills at navigating the maze of Imperial politics amidst a war of extermination. Book two of the popular Exodus Series. In the tradition of Poul Anderson and David Weber.

Earth's last Assault Troopers target the oldest being in existence. In the fourth book of the Extinction Wars series, Abaddon commands a Karg-Jelk Super Fleet bent on annihilating humanity. Years of intense terraforming has healed the Earth from the ravages of alien hell-burners and a deadly bio-terminator. The homeworld thrives, reseeded and repopulated, with heavy layers of defensive systems to make sure the Earth is never harmed again. But Abaddon has incredibly advanced technology, including a vast moon-sized ship able to teleport to any place in the galaxy. If Creed hopes to save humanity, he'll need more than fierce determination and savage fighting skills. He has to go the galactic core to find out the truth about Abaddon, the Jelk and the terrible secret of the human race. The knowledge will help to strengthen Fortress Earth, but will it be enough to win?

Aliens exist... and, as it turns out, most of them aren't that friendly. Jacob Brown wasn't even born yet the first time they attacked Earth. He was only fourteen the second time it happened. When Earth finally came together and fielded its first spaceborne military, Jacob didn't hesitate to volunteer. Serving aboard a mighty starship, he'd be able to defend his planet-and his family-when, inevitably, they came again. Just as he's about to graduate training, however, Jacob is approached by an officer from Naval Special Operation Command and given a choice: volunteer for a risky mission to a dangerous, lawless world, or give up his dream of serving in the military and go home. He has no idea why he's being singled out in such an unusual manner, but now it's either agree to their demands or give up his dream of being on a starship. Soon, getting his career back on the right track will be the least of his concerns when it seems like everyone-and everything-he meets is trying to kill him. When he stumbles upon a secret most people on Earth are blissfully unaware of he realizes it's not just the aliens he needs to be worried about.

"Marine" is the first book in the Terran Scout Fleet Series by the bestselling author of the Omega Force Series and Black Fleet Trilogy.

You Should Never Speak Truth To Power... The Galactic Empire is dying and chaos and anarchy are breaking out everywhere. After a disastrous mission against terrorists on Earth itself, Captain Edward Stalker of the Terran Marine Corps makes the mistake of speaking truth to power, telling one of the most powerful men in the Empire a few home truths. As a result, Captain Stalker and his men are unceremoniously exiled to Avalon, a world right on the Rim of the Empire. It should have been an easy posting... Well, apart from the bandits infesting the countryside, an insurgency that threatens to topple the Empire's loose control over Avalon, and a corrupt civil government more interested in what it can extort from the population than fighting a war. The Marines rapidly find themselves caught up in a whirlwind of political and economic chaos, fighting to preserve Avalon before the competing factions tear the world apart. They're Marines; if anyone can do it, they can. The battle to save the Empire starts here.

Omega Force is back!After the daring rescue of a political dissident, Omega Force is contracted to investigate a rash of violent attacks on civilian shipping lanes within a group of star systems known as the Concordian Cluster. It seems a simple enough job with a huge payday at the end and it's exactly what the ragtag group of mercenaries needs in order to keep their ship flying and to stay one step ahead of those hunting them.However, the further they delve into the seedy underworld of the Cluster the more they realize they may be in over their heads. With innocent lives hanging in the balance, Captain Burke and his crew begin a desperate race to uncover who is responsible for these attacks, and why, before their ultimate goal can be realized.-----"Omega Force: Soldiers of Fortune" is the follow up to the popular novel "Omega Rising". It continues the adventures of Jason Burke, a lone human in space who has linked up with five other aliens to try their luck as hired guns. Their mandate: to help those who don't have the means to help themselves and never accept a job that would compromise the honor code they live by.Omega Force Novels: Omega Rising Omega Force: Soldiers of Fortune

From Joshua Dalzelle comes the follow up to the #1 Bestseller "Warship." Captain Jackson Wolfe survived the initial incursion of a vicious alien species into human space ... barely. He had assumed the juggernaut that had devastated three Terran systems was the herald for a full invasion, but for the last few years it has been eerily quiet along the Frontier. Jackson now struggles to convince the Confederate leadership the threat is still imminent and needs to be taken seriously. While powerful factions make backroom

deals he is desperate to find irrefutable proof that the invaders are coming and if humanity expects to survive they must marshal their forces and make a stand before it's too late. The greatly anticipated final book in the New York Times bestselling Hunger Games trilogy by Suzanne Collins.

Marine First Lieutenant Jacob Brown is bored. For months he's been sitting around on an alien planet, waiting for command to recall his scout team so they could rest and be re-outfitted. The team went through hell during their previous mission, losing both their commanding officer and their ship. For now, Jacob was acting CO of Scout Team Obsidian and their ship was a broken down old surplus combat shuttle they'd stolen from narco-smugglers on a planet called Niceen-3. When command finally does reach out, however, it isn't to order Obsidian home for some much needed R&R. Instead, they are being reactivated and sent out into the contested space of the recently conquered Eshquarian Empire to track down a single Terran cruiser called the Eagle's Talon. The Talon's captain has gone rogue and is operating within a fleet of ships bent on open rebellion against the quadrant's only remaining superpower. If that ship is discovered within the rebel fleet, Earth will bear the brunt of the ConFed's reprisal. Jacob's team is in a race against time to locate the missing ship and her rogue captain so that a Navy strike force can swoop in and reclaim her... or destroy her.

The Black Fleet Saga continues... A human planet has been invaded. The enigmatic Darshik have landed troops on a frontier world and have begun subduing major cities even as their blockade repels all attempts by the fledgling United Terran Federation to mount a counteroffensive. The Federation's military command is desperate and with their fleet still in tatters they make a last ditch effort to free the planet: They pull Captain Jackson Wolfe out of retirement and put him in command of a ship they hope can get past the defending armada and provide support to the beleaguered Marines and civilians fighting on the surface of the contested world. There is no reasoning with this enemy. If the Terran Federation wants their planet back, they will have to pay the price. Iron & Blood is the second book of The Expansion Wars Trilogy and the fifth book of the Black Fleet Saga.

NEW YORK TIMES BESTSELLER • Set between the events of Return of the Jedi and The Force Awakens, the never-before-told story that began with Star Wars: Aftermath continues in this thrilling novel, the second book of Chuck Wendig's bestselling trilogy. It is a dark time for the Empire. . . . The Emperor is dead, and the remnants of his former Empire are in retreat. As the New Republic fights to restore a lasting peace to the galaxy, some dare to imagine new beginnings and new destinies. For Han Solo, that means settling his last outstanding debt, by helping Chewbacca liberate the Wookiee's homeworld of Kashyyyk. Meanwhile, Norra Wexley and her band of Imperial hunters pursue Grand Admiral Rae Sloane and the Empire's remaining leadership across the galaxy. Even as more and more officers are brought to justice, Sloane continues to elude the New Republic, and Norra fears Sloane may be searching for a means to save the crumbling Empire from oblivion. But the hunt for Sloane is cut short when Norra receives an urgent request from Princess Leia Organa. The attempt to liberate Kashyyyk has carried Han Solo, Chewbacca, and a band of smugglers into an ambush—resulting in Chewie's capture and Han's disappearance. Breaking away from their official mission and racing toward the Millennium Falcon's last known location, Norra and her crew prepare for any challenge that stands between them and their missing comrades. But they can't anticipate the true depth of the danger that awaits them—or the ruthlessness of the enemy drawing them into his crosshairs.
