

Crash The Immortal Chronicles Book 2

In a spellbinding new Argeneau novel from New York Times bestselling author Lynsay Sands, a dangerous rescue is just the beginning of red-hot adventure... Ever since Domitian Argenis recognized Sarita as his life mate, he's been waiting for the perfect moment to claim her. Those fantasies did not include him being chained to a table in a secret lab or both of them being held hostage by a mad scientist. Somehow, they have to escape... Sarita has seen some crazy things as a cop, but nothing to rival Domitian. A vampire? Seriously? But his healing ability, incredible powers, and their mind-blowing physical connection—none of it should be possible, yet her body knows differently. Now, not only do they have to save each other, but other innocent lives are at stake. Failure is not an option, for Sarita intends that Domitian show her exactly what an eternity of pleasure feels like...

FATE GAVE HER FANGS ... Ever since an accident turned her into a knockout vamp, Elvi Black's been catching her z's in a coffin, staying out of the sun, and giving up garlic. She knows there's more to being undead than what she saw in Dracula, but she can't very well ask her mortal friends about proper biting etiquette. But when her neighbors placed a personal ad for her in the local paper, she never imagined she'd meet Victor Argeneau, a vampire who could have his pick of women - dead or alive. HE'LL SHOW HER HOW TO USE THEM ... Rich, powerful, and drop-dead gorgeous, Victor's the perfect man for a novice neck-biter like Elvi. He's willing to teach her everything he knows, but he'll have to do it fast. Someone's out to put a stake through her new vamp life, and only Victor can keep her safe - and satisfied - for all eternity.

Addie In that one moment everything changed. Everything I thought I knew shattered with just a few words. Who knew the truth could be so devastating. I need to decide which side to take. But can I even trust myself? Xander She's gone, but I'll scorch the earth to find her if that's what it takes. I'll call upon friend and foe for the battle that is to come. The fires of hell couldn't keep me from her and whoever thinks they can take what is mine, is going to regret it for all time. One thing is for sure. The Crash could ruin us all.

Dragons are trained to fight to the death, and two determined teens help free them in this spellbinding saga. Training a dragon to be a fighting champion is the only way to freedom for fifteen-year-old Jakkin.

Scattered among poor, desolate farms, the clans of the Uplands possess gifts. Wondrous gifts: the ability—with a glance, a gesture, a word—to summon animals, bring forth fire, move the land. Fearsome gifts: They can twist a limb, chain a mind, inflict a wasting illness. The Uplanders live in constant fear that one family might unleash its gift against another. Two young people, friends since childhood, decide not to use their gifts. One, a girl, refuses to bring animals to their death in the hunt. The other, a boy, wears a blindfold lest his eyes and his anger kill. In this beautifully crafted story, Ursula K. Le Guin writes of the proud cruelty of power, of how hard it is to grow up, and of how much harder still it is to find, in the world's darkness, gifts of light.

She was a poor Southern tobacco farmer who worked the same land as her slave ancestors, yet her cells—taken without her knowledge—became one of the most important tools in medicine: The first “immortal” human cells grown in culture, which are still alive today, though she has been dead for more than sixty years. HeLa cells were vital for developing the polio vaccine; uncovered secrets of cancer, viruses, and the atom bomb’s effects; helped lead to important advances like in vitro fertilization, cloning, and gene mapping; and have been bought and sold by the billions. Yet Henrietta Lacks remains virtually unknown, buried in an unmarked grave. Henrietta’s family did not learn of her “immortality” until more than twenty years after her death, when scientists investigating HeLa began using her husband and children in research without informed consent. And though the cells had launched a multimillion-dollar industry that sells human biological materials, her family never saw any of the profits. As Rebecca Skloot so brilliantly shows, the story of the Lacks family—past and present—is inextricably connected to the dark history of experimentation on African Americans, the birth of bioethics, and the legal battles over whether we control the stuff we are made of. Over the decade it took to uncover this story, Rebecca became enmeshed in the lives of the Lacks family—especially Henrietta’s daughter Deborah. Deborah was consumed with questions: Had scientists cloned her mother? Had they killed her to harvest her cells? And if her mother was so important to medicine, why couldn’t her children afford health insurance? Intimate in feeling, astonishing in scope, and impossible to put down, *The Immortal Life of Henrietta Lacks* captures the beauty and drama of scientific discovery, as well as its human consequences.
