THE TOP TEN SUNDAY TIMES BESTSELLER Could the courts really order the death of your innocent baby? Was there an illegal immigrant who couldn't be deported because he had a pet cat? Are unelected judges truly enemies of the people? Most of us think the law is only relevant to criminals, if we even think of it at all. But the law touches every area of our lives: from intimate family matters to the biggest issues in our society. Our unfamiliarity is dangerous because it makes us vulnerable to media spin, political lies and the kind of misinformation that frequently comes from loud-mouthed amateurs and those with vested interests. This 'fake law' allows the powerful and the ignorant to corrupt justice without our knowledge – worse, we risk letting them make us complicit. Thankfully, the Secret Barrister is back to reveal the stupidity, malice and incompetence behind many of the biggest legal stories of recent years. In Fake Law, the Secret Barrister debunks the lies and builds a defence against the abuse of our law, our rights and our democracy that is as entertaining as it is vital.

This report of the President's Commission on Law Enforcement and Administration of Justice -- established by President Lyndon Johnson on July 23, 1965 -- addresses the causes of crime and delinquency and recommends how to prevent crime and delinquency and improve law enforcement and the administration of criminal justice. In developing its findings and recommendations, the Commission held three national conferences, conducted five national surveys, held hundreds of meetings, and interviewed tens of thousands of individuals. Separate chapters of this report discuss crime in America, juvenile delinquency, the police, the courts, corrections, organized crime, narcotics and drug abuse, drunkenness offenses, gun control, science and technology, and research as an instrument for reform. Significant data were generated by the Commission's National Survey of Criminal Victims, the first of its kind conducted on such a scope. The survey found that not only do Americans experience far more crime than they report to the police, but they talk about crime and the reports of crime engender such fear among citizens that the basic quality of life of many Americans has eroded. The core conclusion of the Commission, however, is that a significant reduction in crime can be achieved if the Commission's recommendations (some 200) are implemented. The recommendations call for a cooperative attack on crime by the Federal Government, the States, the counties, the cities, civic organizations, religious institutions, business groups, and individual citizens. They propose basic changes in the operations of police, schools, prosecutors, employment agencies, defenders, social workers, prisons, housing authorities, and probation and parole officers.

The Teaching of Criminal Law provides the first considered discussion of the pedagogy that should inform the teaching of criminal law. It originates from a survey of criminal law courses in different parts of the English-speaking world which showed significant similarity across countries and over time. It also showed that many aspects of substantive law are neglected. This prompted the question of whether any real consideration had been given to criminal law course design. This book seeks to provide a critical mass of thought on how to secure an understanding of substantive criminal law, by examining the course content that best illustrates the thought process of a criminal lawyer, by presenting innovative approaches for securing active learning by students, and by demonstrating how criminal law can secure other worthwhile graduate attributes by introducing wider contexts. This edited collection brings together contributions from academic teachers of criminal law from Australia, New Zealand, the United Kingdom, and Ireland who have considered issues of course design and often implemented them. Together, they examine several innovative approaches to the teaching of criminal law that have been adopted in a number of law schools around the world, both in teaching methodology and substantive content. The authors offer numerous suggestions for the design of a criminal law course that will ensure students gain useful insights into criminal law and its role in society. This book helps fill the gap in research into criminal law pedagogy and demonstrates that there are alternative ways of delivering this core part of the law degree. As such, this book will be of key interest to researchers, academics and lecturers in the fields of criminal law, pedagogy and teaching methods.

Quiz Book Questions and Answers on the Subject of Criminal Law. For Students Attending College ... Quizmaster Point of Law Review: Criminal Law Eric Engle

The laws are not silent in war, but what should they say? What is the moral function of the law of armed conflict? Should the law protect civilians who do not fight but help those who do? Should the law protect soldiers who perform non-combat functions or who may be safely captured? How certain should a soldier be that an individual is a combatant rather than a civilian before using lethal force? What risks should soldiers take on themselves to avoid harming civilians? When do inaccurate weapons become unlawfully indiscriminate? When does 'collateral damage' to civilians become unlawfully disproportionate? Should civilians lose their legal rights by serving, voluntarily or involuntarily, as human shields? Finally, when should killing civilians constitute a war crime? These are the questions that Law and Morality at War answers, contributing to a cutting-edge international debate. Drawing on the concepts and methods of contemporary moral and legal philosophy, the book develops a normative framework within which the laws of war and international criminal law can be evaluated, criticized, and reformed. While several philosophical works critically examine the moral status of civilians and combatants, this book fills a gap, offering both an account of the laws of war and war crimes, and proposing how the law could be improved from a moral point of view. Finally, it explores when, if ever, the emotional pressures under which soldiers act should partially or wholly excuse their wrongful actions --Flap of book cover.
