The texts from Aphrodisias in Caria at the core of this book provide remarkable documentation for Roman history during the Mithridatic War, the Second Triumvirate and the second-third centuries A.D. They include a Greek translation of the longest senatus consultum so far known and a number of imperial letters. They throw light on provincial attitudes to Rome, on Roman policies in the provinces, on the relation of Octavian with Antony, and on many fascinating details of Roman administrative practice.

Miki struck out again! He lost the girl and the race. However, while running the mountain is no problem for Tak and his Trueno, there's more to a relationship than just shifting gears. Natalie is getting serious and wants a definite answer from Tak. At the same time, it seems like everyone who owns a car wants a piece of the Eight-Six! Will the Eight-Six remain victorious?

Can drinking coffee help people live longer? What makes a stock's price go up? Why did you get the flu? Causal questions like these arise on a regular basis, but most people likely have not thought deeply about how to answer them. This book helps you think about causality in a structured way: What is a cause, what are causes good for, and what is compelling evidence of causality? Author Samantha Kleinberg shows you how to develop a set of tools for thinking more critically about causes. You'll learn how to question claims, identify causes, make decisions based on causal information, and verify causes through further tests. Whether it's figuring out what data you need, or understanding that the way you collect and prepare data affects the conclusions you can draw from it, *Why* will help you sharpen your causal inference skills.

Ann Sophia Stephens (1813-1886), who also wrote under the pseudonym Jonathan Slick, was an American novelist. Born in Derby, Connecticut, she was an author of dime novels and is credited as the progenitor of that genre. Her work was also serialized in Godey's Lady's Book, The Ladies' Companion, and Graham's Magazine. The term "dime novel" originated with Stephens's Malaeska: The Indian Wife of the White Hunter, printed in the first book in Beadle & Adams Beadle's Dime Novels series, dated June 9, 1860. The novel was a reprint of Stephens's earlier serial that appeared in The Ladies' Companion magazine in February, March, and April of 1839. Later, the Grolier Club listed Malaeska as the most influential book of 1860. Her other works include: High Life in New York (1843), Alice Copley: A Tale of Queen Mary's Time (1844), The Diamond Necklace and Other Tales (1846), Fashion and Famine (1854), The Old Homestead (1855), The Rejected Wife (1863) and A Noble Woman (1871).

Dreamed up by drivers trying to outdo each other on the mountain passes of Japan, the art of the sideways descent of a switchback-what Wired described as "the fishtailing ballet of burning rubber called drifting"-has made it to the United States in a big way. What began as a new kind of daredevil driving among teens has, over two decades, become a sanctioned sport, making its way across the Pacific through video games and magazines, anime and the Internet, to take root in California's fertile underground racing culture. Drifting tells the story of drifting from its arrival on the West Coast to its emergence as the hottest form of motorsport in the United States. A dramatic visual record of the sport in America that includes over 400 photos, the book also profiles the people, teams, techniques, web sites, publications, videos, and trends that have made drifting the phenomenon that it is today. For the curious newcomer, author Antonio Alvendia's introduction succinctly explains what drifting is, setting the stage for the thrilling automotive drama that then unfolds. For the veteran drifting fan, this book is the first illustrated book on the latest motorsport to conquer the world.
