This problem-solving book is an introduction to the study of Diophantine equations, a class of equations in which only integer solutions are allowed. The presentation features some classical Diophantine equations, including linear, Pythagorean, and some higher degree equations, as well as exponential Diophantine equations. Many of the selected exercises and problems are original or are presented with original solutions. An Introduction to Diophantine Equations: A Problem-Based Approach is intended for undergraduates, advanced high school students and teachers, mathematical contest participants — including Olympiad and Putnam competitors — as well as readers interested in essential mathematics. The work uniquely presents unconventional and non-routine examples, ideas, and techniques.

Examines a letter written by Blaise Pascal to Pierre de Fermat in 1654 that speaks of probability and numerical values that have had an impact on the modern world with regard to calculating insurance rates, the housing markets, and car safety.

On Christmas Eve, Jack and Annie's tree house transports them to King Arthur's castle at Camelot, where they undertake a quest to the castle of the Otherworld.

Retiring to a seaside cabin near San Francisco, Jack Dulooz looks for tranquility, but finds only horror and despair.

This book provides an overview of recent trends in the management of trauma and post-traumatic stress disorders that may ensue from distressing experiences associated with the process of migration. Although the symptoms induced by trauma are common to all cultures, their specific meaning and the strategies used to deal with them may be culture-specific. Consequently, cultural factors can play an important role in the diagnosis and treatment of individuals with psychological reactions to extreme stress. This role is examined in detail, with an emphasis on the need for therapists to bear in mind that different cultures often have different concepts of health and disease and that cross-cultural communication is therefore essential in ensuring effective care of the immigrant patient. The therapist's own intercultural skills are highlighted as being an important factor in the success of any treatment and specific care contexts and the global perspective are also discussed.

A must-read for fans of Rachel Joyce's *The Unlikely Pilgrimage of Harold Fry* and Maria Semple's *Where'd You Go, Bernadette* 'A touching, sometimes funny, often wise portrait of grief.' Kirkus Heartbreaking and hilarious in equal measure, by the author of the New York Times bestselling phenomenon *A Man Called Ove* will charm and delight anyone who has ever had a grandmother. Everyone remembers the smell of their grandmother's house. Everyone remembers the stories their grandmother told them. But does everyone remember their grandmother flirting with policemen? Driving illegally? Breaking into a zoo in the middle of the night? Firing a paintball gun from a balcony in her dressing gown? Seven-year-old Elsa does. Some might call Elsa's granny 'eccentric', or even 'crazy'. Elsa calls her a superhero. And granny's stories, of knights and princesses and dragons and castles, are her superpower. Because, as Elsa is starting to learn, heroes and villains don't always exist in imaginary kingdoms; they could live just down the hallway. As Christmas draws near, even the best superhero grandmothers may have one or two things they'd like to apologise for. And, in the process, Elsa can have some breath-taking adventures of her own . . .
