Our world is changing dramatically, yet many Christians still rely on cookie-cutter approaches to evangelism and apologetics. In his magnum opus, Os Guinness presents the art and power of creative persuasion—the ability to talk to people who are closed to what we are saying.

As a technology pioneer at MIT and as the leader of three successful start-ups, Kevin Ashton experienced firsthand the all-consuming challenge of creating something new. Now, in a tour-de-force narrative twenty years in the making, Ashton leads us on a journey through humanity's greatest creations to uncover the surprising truth behind who creates and how they do it. From the crystallographer's laboratory where the secrets of DNA were first revealed by a long forgotten woman, to the electromagnetic chamber where the stealth bomber was born on a twenty-five-cent bet, to the Ohio bicycle shop where the Wright brothers set out to "fly a horse," Ashton showcases the seemingly unremarkable individuals, gradual steps, multiple failures, and countless ordinary and usually uncredited acts that lead to our most astounding breakthroughs. Creators, he shows, apply in particular ways the everyday, ordinary thinking of which we are all capable, taking thousands of small steps and working in an endless loop of problem and solution. He examines why innovators meet resistance and how they overcome it, why most organizations stifle creative people, and how the most creative organizations work. Drawing on examples from art, science, business, and invention, from Mozart to the Muppets, Archimedes to Apple, Kandinsky to a can of Coke, *How to Fly a Horse* is a passionate and immensely rewarding exploration of how "new" comes to be.

Like a succession of failed diet regimens, the much-touted techniques that are supposed to bring us closer to God "in our hearts" can instead make us feel anxious, frustrated, and overwhelmed. How can we meet and know God with ongoing joy rather than experiencing the Christian life as a series of guilt-inducing disappointments? Phillip Cary explains that knowing God is a gradual, long-term process that comes through the Bible experienced in Christian community, not a to-do list designed to help us live the Christian life "right." This clearly written book covers ten things Christians don't have to do to be close to God, such as hear God's voice in their hearts, find God's will for their lives, and believe their intuitions are the Holy Spirit. Cary skillfully unpacks the riches of traditional Christian spirituality, bringing the real good news to Christians of all ages.

Argues that United States' creative class is fighting for survival and explains why this should matter to all Americans.

The gospel of Jesus Christ is always situated within a particular cultural context: but how should Christians approach the complex relationship between their faith and the surrounding culture? Should we simply retreat from culture? Should we embrace our cultural practices and mindset? How important is it for us to be engaged with our culture and mindset? How might we do that with discernment and faithfulness? William Edgar offers a biblical theology in the light of our contemporary culture that contends that Christians should -- and indeed, must -- engage with the surrounding culture. By exploring what Scripture has to say about the role of culture and gleaning insights from a variety of theologians -- including Abraham Kuyper, T. S. Eliot, H. Richard Niebuhr and C. S. Lewis -- Edgar contends that cultural engagement is a fundamental aspect of human existence. He does not shy away from those passages that emphasize the distinction between Christians and the world. Yet he finds, shining through the biblical witness, evidence that supports a robust defence of the cultural mandate to 'be fruitful and multiply, and fill the earth and subdue it' (Genesis 1:28). With clarity and wisdom, Edgar argues that we are

most faithful to our calling as God's creatures when we participate in creating culture.

For many of us, the word "religious" evokes thoughts of brainwashing, violence and eye-rubbingly tiresome conversations. Why not be done with it? Combining wit and candor with sharp cultural observations, David Dark flips the script on religiosity, arguing that "If what we believe is what we see is what we do is who we are, there's no getting away from religion." The only way to change culture is to create culture. Andy Crouch unleashes a stirring manifesto calling Christians to be culture makers. He unpacks the complexities of how culture works and gives us tools for cultivating and creating culture in partnership with God's own making and transforming of culture.

It is not enough to condemn culture. Nor is it sufficient merely to critique culture, copy culture or consume culture. The only way to change culture is to create culture. Andy Crouch unleashes a stirring manifesto calling Christians to be culture makers. Culture is what we make of the world, both in creating cultural artifacts as well as in making sense of the world around us. By making chairs and omelets, languages and laws, we participate in God's own making and transforming of culture.

Keller explores a life of justice empowered by an experience of grace.

While most of her peers were obsessed with their iPhones, Instagramming and Snapchatting their lives, and glued to streaming TV, 19-year-old Amy Crouch was growing up with minimal technology. In *My Tech-Wise Life*, she and her father, Andy Crouch, share how intentional and controlled use of modern devices, apps, and services has helped her avoid many of the negative experiences of her peers and cultivate positive experiences interacting with the real world. With writing that connects on a teen-to-teen level, Amy and Andy unpack tech temptations--such as the temptation to distract ourselves from any potentially boring or awkward situation, or to stay up-to-date with every notification and trend--and then offer antidotes that lead to more patience, wisdom, honesty, and wonder in life. If you're in high school or college and devices and social media are affecting your friendships and family life, your sense of self-worth, or even how well you think you know yourself, this book will help you reevaluate your relationship with technology--and renew your relationship with the world around you.

Everyday theology is the reflective and practical task of living each day as faithful disciples of Jesus Christ. In other words, theology is not just for Sundays, and it's not just for professional theologians. *Everyday Theology* teaches all Christians how to get the theological lay of the

land. It enables them to become more conscious of the culture they inhabit every day so that they can understand how it affects them and how they can affect it. If theology is the ministry of the Word to the world, everyday theologians need to know something about that world, and *Everyday Theology* shows them how to understand their culture make an impact on it. Engaging and full of fresh young voices, this book is the first in the new Cultural Exegesis series.

Explores the dynamics of power, discussing how it either can make human flourishing possible or can destroy the image of God in people.

Is capitalism Christian? Is there a Christian perspective on business? How should a Christian use power in the workplace? In addressing such difficult questions as these, *Business Through the Eyes of Faith* demonstrates how God can dwell at the center of one's life even in the secular marketplace. Here is pragmatic affirmation of the role that committed Christians can play in the business world. The authors stress the connections between Christian principles and good management and provide biblical passages that support their principles and relate them to the practical issues faced by Christian managers. Issues such as employee motivation, workplace communication, business leadership, the role of profit, and social responsibility are all addressed in concrete terms and reinforced by short vignettes, suggested biblical passages to explore, and commentaries from contemporary theorists and practitioners. *Business Through the Eyes of Faith* shows that business can and should be a reflection of God's kingdom. It is an invaluable resource for Christian business students, managers, and those who wish to understand the concerns and motives of Christians in the business world.

Culture affects how we make disciples. In this insightful roadmap, Charles Davis, former director of TEAM, provides a framework for missional discipling across diverse cultural contexts. With on-the-ground stories from a lifetime of mission experience, Davis navigates cultural tensions to help Christian workers minister more effectively at home or overseas.

This 50th-anniversary edition, with a new foreword by the distinguished historian Martin E. Marty, who regards this book as one of the most vital books of our time, as well as an introduction by the author never before included in the book, and a new preface by James Gustafson, the premier Christian ethicist who is considered Niebuhr's contemporary successor, poses the challenge of being true to Christ in a materialistic age to an entirely new generation of Christian readers.

Making conscientious choices about technology in our families is more than just using internet filters and determining screen time limits for our children. It's about developing wisdom, character, and courage in the way we use digital media rather than accepting technology's promises of ease, instant gratification, and the world's knowledge at our fingertips. And it's definitely not just about the kids. Drawing on in-depth original research from the Barna Group, Andy Crouch shows readers that the choices we make about technology have consequences we may never have considered. He takes readers beyond the typical questions of what,

where, and when and instead challenges them to answer provocative questions like, Who do we want to be as a family? and How does our use of a particular technology move us closer or farther away from that goal? Anyone who has felt their family relationships suffer or their time slip away amid technology's distractions will find in this book a path forward to reclaiming their real life in a world of devices.

Our world is broken and cries out for reconciliation. But mere conflict resolution and peacemaking are not enough. What makes real reconciliation possible? How is it that some people are able to forgive the most horrendous of evils? And what role does God play in these stories? Does reconciliation make any sense apart from the biblical story of redemption? Secular models of peacemaking are insufficient. And the church has not always fulfilled its call to be agents of reconciliation in the world. In *Reconciling All Things* Emmanuel Katongole and Chris Rice, codirectors of the Center for Reconciliation at Duke Divinity School, cast a comprehensive vision for reconciliation that is biblical, transformative, holistic and global. They draw on the resources of the Christian story, including their own individual experiences in Uganda and Mississippi, to bring solid, theological reflection to bear on the work of reconciling individuals, groups and societies. They recover distinctively Christian practices that will help the church be both a sign and an agent of God's reconciling love in the fragmented world of the twenty-first century. This powerful, concise book lays the philosophical foundations for the Resources for Reconciliation, a new series from InterVarsity Press and the Center for Reconciliation at Duke Divinity School which explores what it means to pursue hope in areas of brokenness in theory and practice. Zahnd issues a challenge to Christians to discover new vitality through re-envisioning, reimagining, and reforming the church according to the pattern of the cruciform. Using stories from the lives of St. Francis of Assisi and from his own life, he teaches believers to stay on the journey to discover the kingdom of God in a fuller, richer way.

Most Christian college students separate their academic life from church attendance, Bible study, and prayer. Too often discipleship of the mind is overlooked if not ignored altogether. In this lively and enlightening book, two authors who are experienced in college youth ministry show students how to be faithful in their studies, approaching education as their vocation. This revised edition of the well-received *The Outrageous Idea of Academic Faithfulness* includes updates throughout, two new substantive appendixes, personal stories from students, a new preface, and a fresh interior design. Chapters conclude with thought-provoking discussion questions.

Two common temptations lure us away from abundant living—withdrawing into safety or grasping for power. True flourishing, says Andy Crouch, travels down an unexpected path—being both strong and weak. Regardless of your stage or role in life, here is a way of love and risk so that we all, even the most vulnerable, can flourish.

Western civilization is becoming increasingly pluralistic, secularized, and biblically illiterate. Many people today have little sense of how their lives have benefited from Christianity's influence, often viewing the church with hostility or resentment. How

Christianity Changed the World is a topically arranged Christian history for Christians and non-Christians. Grounded in solid research and written in a popular style, this book is both a helpful apologetic tool in talking with unbelievers and a source of evidence for why Christianity deserves credit for many of the humane, social, scientific, and cultural advances in the Western world in the last two thousand years. Photographs, timelines, and charts enhance each chapter. This edition features questions for reflection and discussion for each chapter.

Crouch unleashes a stirring manifesto calling Christians to be culture makers. By making chairs and omelets, languages and laws, Christians participate in God's own making and transforming of culture.

Culture is a continuing, forward process -- the gradual unveiling of truth as life. But often we get ensnared. We can only imagine culture as a war, a gritty ideological and religious struggle where every arena is bloody with strife: art, philosophy, cuisine, music, literature, science. But at its foundation, culture is about building, not conflict. The time has come for us to beat our swords into plowshares. By realizing the Bible's vision for a cultivated earth, we can build a more comprehensive, radical, holistic culture, resistant to compromise and dedicated to a Trinitarian aesthetic. What does this culture look like? It is the development of the earth into a global fabric of gardens and cities in harmony with nature -- a glorious garden-city. Our "cultural mandate" finds its roots in God's command for us to rule the earth and till the ground, causing hidden potential to flourish. The New Testament boldly reverberates this calling. God has given central preeminence to our cultural "plowing," weaving it into the whole tapestry of mankind's history, from the very beginning to the consummation and beyond. *Plowing in Hope* provides a positive, clear, and colorful introduction to this transformational topic.

Called to live in the world, but not to be of it, Christians must maintain a balancing act that becomes more precarious the further our culture departs from its Judeo-Christian roots. How should members of the church interact with such a culture, especially as deeply enmeshed as most of us have become? In this award-winning book -- now in paperback and with a new preface -- D. A. Carson applies his masterful touch to that problem. After exploring the classic typology of H. Richard Niebuhr with its five Christ-culture options, Carson offers an even more comprehensive paradigm for informing the Christian worldview. More than just theoretical, *Christ and Culture Revisited* is a practical guide for helping Christians untangle current messy debates about living in the world.

How should Christians approach important contemporary issues like war, race, creation care, gender, and politics? Christians in every culture are confronted with social trends and moral questions that can be difficult to navigate. But, the Bible often doesn't speak directly to such issues. Even when it does, it can be confusing to know how best to apply the biblical teaching. In *Cultural Engagement: A Crash Course in Contemporary Issues* authors Joshua D. Chatraw and Karen Swallow Prior first offer a broadly accessible framework for cultural engagement and then explore specific hot topics in current Western culture including: Sexuality Gender Roles Human Life and Reproduction Technology Immigration and Race Creation and Creature Care Politics Work Arts War, Weapons, and Capital Punishment Featuring contributions from over forty top Christian thinkers, proponents of various Christian views on the specific topics

present their approaches in their own words, providing readers an opportunity to fairly consider options. Unique in how it addresses both big-picture questions about cultural engagement and pressing current issues, Cultural Engagement provides a thorough and broad introduction useful for students, professors, pastors, college ministers, and any believer wanting to more effectively exercise their faith in the public square. If you live for people's acceptance, you'll die from their rejection. Two-time Grammy winning rap artist, Lecrae, learned this lesson through more than his share of adversity—childhood abuse, drugs and alcoholism, a stint in rehab, an abortion, and an unsuccessful suicide attempt. Along the way, Lecrae attained an unwavering faith in Jesus and began looking to God for affirmation. Now as a chart-topping industry anomaly, he has learned to ignore the haters and make peace with his craft. The rap artist holds nothing back as he divulges the most sensitive details of his life, answers his critics, shares intimate handwritten journal entries, and powerfully models how to be a Christian in a secular age. This is the story of one man's journey to faith and freedom.

Is it singing? A church service? All of life? Helping Christians think more theologically about the nature of true worship, Rhythms of Grace shows how the gospel is all about worship and worship is all about the gospel. Mike Cospers ultimately answers the question: What is worship?

How can Christians live faithfully at the crossroads of the story of Scripture and postmodern culture? In *Living at the Crossroads*, authors Michael Goheen and Craig Bartholomew explore this question as they provide a general introduction to Christian worldview. Ideal for both students and lay readers, *Living at the Crossroads* lays out a brief summary of the biblical story and the most fundamental beliefs of Scripture. The book tells the story of Western culture from the classical period to postmodernity. The authors then provide an analysis of how Christians live in the tension that exists at the intersection of the biblical and cultural stories, exploring the important implications in key areas of life, such as education, scholarship, economics, politics, and church. The student edition of the popular *A Practical Guide to Culture* by John Stonestreet and Brett Kunkle delivers a hopeful message to readers ages 15–25 who live every day with increasing cultural pressure. These young people struggle to navigate contemporary challenges to their Christian faith and values, but will be encouraged to emerge as leaders. In *A Student's Guide to Culture*, Stonestreet and Kunkle write in a highly relational style, sharing insight and experience. Jumping off from the original version, this guide includes all-new discussion questions and stories that remind young readers that they can live differently and be a light in a culture that sometimes feels overwhelming.

When we hear the word *shalom* we think first of the common Jewish greeting. Then, perhaps, we consider the promise Jesus, the Prince of Peace, gave to his followers to grant them a peace the world cannot provide. In the Bible, the word *shalom* means much more than the absence of hostility—it means harmony and prosperity. *Shalom* refers to life as it was meant to be, as it should be, where sin is gone and love reigns. In this book, theologian Mark DeVine employs the well-known but little-studied Hebrew word to illuminate the three dimensions of relationship God the Creator designed human beings to enjoy: (1) the relationship between God and his people, (2) the relationship between God's people as his children, and (3) the relationship between

God and his people in the place, the home God made for them and made them for. DeVine gives special attention to the third dimension, the home God provides to his people. *Shalom Yesterday, Today, and Forever* offers a more fully evangelical and orthodox comprehension of redemption while avoiding the pitfalls that often jeopardize creation-friendly theologies.

*A Christian Perspective on the Joys of Reading* Reading has become a lost art. With smartphones offering us endless information with the tap of a finger, it's hard to view reading as anything less than a tedious and outdated endeavor. This is particularly problematic for Christians, as many find it difficult to read even the Bible consistently and attentively. Reading is in desperate need of recovery. *Recovering the Lost Art of Reading* addresses these issues by exploring the importance of reading in general as well as studying the Bible as literature, offering practical suggestions along the way. Leland Ryken and Glenda Faye Mathes inspire a new generation to overcome the notion that reading is a duty and instead discover it as a delight.

Is bigger always better? It's not often that we hear the virtues of the small. Our culture teaches that bigger is better--and that includes church ministry and preaching, too. But what if rather than swinging for the fences, preachers focused on improving their sermons through small habits, practices, and exercises? What if smaller is better? In a world where "small" isn't always celebrated, Jonathan T. Pennington provides *Small Preaching*, a short book of simple tips that can have revolutionary effects over time. Pennington offers preachers 25 words of wisdom that will help shape their preaching for the better.
