This book examines the changing business and economic environment for postal services in Lithuania and the upcoming challenges for this industry. Postal services continue to play a central part in the development of national economies. However, the economic and social role of postal services has changed rapidly and fundamentally over the last two decades. In most industrialized countries, paper-based communications are in serious decline, while the demand for parcel delivery services is rising steadily with the continuing development of e-commerce, just-in-time production techniques, and global supply chains. For the postal sector as a whole, the centre of gravity has shifted dramatically from letters and documents to parcels. The authors explain how the organizational paradigm has inexorably shifted from that of a national, government-owned postal administration providing the basic delivery services required by society, to a system of interdependent local and regional undertakings that both compete and cooperate with one another. The book argues that there are no indications that the postal sector has stopped changing, and that it seems most probable that the European Union's postal sector will look quite different in 2035 than it does today. In closing, the book explains how the shareholders of postal services companies have recently confirmed that the time has come to rethink the strategy of creating and maintaining competitiveness in the postal services industry. Explains how to fly for a fraction of the normal cost by

acting as a courier, and lists courier companies

The initiative to establish the Association of Southeast Asian Nations (ASEAN) Community was adopted by the ten leaders at the 2003 Bali Summit in Indonesia. Since then, the concept of a community-building process in ASEAN has become an issue that attracts a great deal of attention from scholars and

experts around the world. ASEAN Matters! Reflecting on the Association of Southeast Asian Nations carries essays with different perspectives on critical issues relating to the three pillars in building the ASEAN Community, namely the ASEAN Political and Security Community; the ASEAN Economic Community; and the ASEAN Socio-Cultural Community. In a nutshell, this book provides broad and invaluable insights into the role ASEAN plays in enhancing peace, prosperity, and stability in the Southeast Asian region. Written in a highly accessible style, the contents include both a thorough review of current issues and a succinct overview of the past and future direction of ASEAN. The book reiterates the continued and strengthening relevance of ASEAN, 43 years after its founding. Unlike most other books on ASEAN, a majority of the essays are written by former professional staff at the ASEAN Secretariat, as well as from current office holders. This gives the volume a high degree of authenticity and unique insights. More interestingly, it also includes viewpoints from experts, scholars, diplomats and officials who either have extensive research knowledge or had been involved in ASEAN's external and economic relations with the dialogue partners, such as China, India, Japan, the Republic of Korea, Australia, New Zealand, and the European Union (EU), among others.

Emerging economies are expected to be in the driver's seat of the global economy in the medium and long term. Large multinational corporations will account for much of this activity. In this textbook, Andrei Panibratov explains how emerging market firms accumulate and exploit market knowledge to

develop competitive advantages whilst operating globally. Chapters dedicated to the key emerging economies - Brazil, Russia, India and China (BRIC) - are enhanced by detailed case studies of large firms' activities. The book is divided into four parts, focusing on the following: An outline of the relevant terminology and the context of the international strategy of emerging market firms, providing an introductory foundation for the whole book. A guide to the evolution of perspectives regarding international strategy, designed to illustrate the changes and trends in the recent academic research on internationalization. A country-by-country illustration of the internationalization of BRIC economies and firms, providing an overall picture of each country's global integration, outward investments, and strategies. The concepts and practices behind the strategies employed by different firms. Written by an established international business scholar, this book is essential reading for students of international strategy who wish to understand the importance of the emerging economies.
