

Cy Fair Volunteer Fire Department Board Of Directors 2014

A must have for every combination fire department leader! Leading a combination fire department is one of the greatest challenges a fire chief can face. To successfully lead this type of organization, fire chiefs must recognize the unique difficulties inherent in combination systems, and overcome them by applying lessons learned from other chiefs who have faced similar challenges. Authored by a team of seasoned fire service leaders, and modeled after the Chief Fire Officer's Desk Reference, A Leadership Guide for Combination Fire Departments is a compilation of the best practices and lessons learned through experience. It is designed to provide chief- and officer-level personnel with the tools necessary to lead today's combination service department.

A leader in the fields of animal ethics and neurology, Dr. Aysha Akhtar examines the rich human-animal connection and how interspecies empathy enriches our well-being. Deftly combining medicine, social history and personal experience, Our Symphony with Animals is the first book by a physician to show that humans and animals have a shared destiny—our well-being is deeply entwined. Dr. Akhtar reveals how empathy for animals is the next step in our species' moral evolution and a vital component of human health. When we include animals in our circle of empathy, we not only liberate animals, we also liberate ourselves. Drawing on the accounts of a varied cast of characters—a former mobster, a pediatrician, an industrial chicken farmer, a serial killer, and a deer hunter—to reveal what happens when we both break and forge bonds with animals. Interwoven is Dr. Akhtar's own story, an immigrant who was bullied in school and abused by her uncle. Feeling abandoned by humanity, it was only when she met Sylvester, a dog who had also been abused, that she find the strength to sound the alarm for them both. Humans are neurologically designed to empathize with animals. Violence against animals goes against our nature. In equal measure, the love we give to animals biologically reverberates back to us. Our Symphony with Animals is the definitive account for why our relationships with animals matter.

Develop an entrepreneurial culture with the best practices discussed inside this resource. Declining public resources, coupled with the demand that we do more with less, make it more of an imperative that entrepreneurship, flexibility, and adaptability thrive in the community college environment. Seeing how other community colleges have brought entrepreneurship and creativity to life in their programs and services will inspire your own ideas for increasing revenue and reducing costs.
