Leveled Books (K-8) Matching Texts to Readers for Effective Teaching Heinemann Educational Books

"Understanding Texts & Readers makes comprehension make sense. In it, Jennifer Serravallo narrows the distance between assessment and instruction. She maps the four fiction and four nonfiction comprehension goals she presented in *The Reading Strategies Book* to fourteen text levels and shares sample responses that show what to expect from readers at each. Jen begins by untangling the many threads of comprehension: Levels, engagement, stamina, the relevance of texts, and much more. Then level by level she: - calls out with precision how plot and setting, character, vocabulary and figurative language, and themes and ideas change as fiction across levels - specifies how the complexity of main idea, key details, vocabulary, and text features increases in nonfiction texts - points out what to expect from a reader as text characteristics change - provides samples of student responses to texts at each level - shares progressions across levels to support instructional planning"--

The author describes different types of conferences, some designed for individuals, others for small groups. Some are used during independent reading time, others during partnership or club time.
