The internationally bestselling book that inspired the Pay It Forward movement is now available in a middle grade edition. Pay It Forward is a moving, uplifting novel about Trevor McKinney, a twelve-year-old boy in a small California town who accepts his teacher's challenge to earn extra credit by coming up with a plan to change the world. Trevor's idea is simple: do a good deed for three people, and instead of asking them to return the favor, ask them to "pay it forward" to three others who need help. He envisions a vast movement of kindness and goodwill spreading across the world, and in this "quiet, steady masterpiece with an incandescent ending" (Kirkus Reviews), Trevor's actions change his community forever. This middle grade edition of Pay It Forward is extensively revised, making it an appropriate and invaluable complement to lesson plans and an ideal pick for book clubs, classroom use, and summer reading. Includes an author's note and curriculum guide.

America The Story of Us is a groundbreaking series that brings to life the epic story of our nation in a new way for a new generation. The companion book, America The Story of Us is a history that is at once penetrating and lively, elegant and authoritative; great for serious reading as it is for casual skimming. America The Story of Us brings to life the vast forces that shaped this remarkable country and the ways in which revolutions in technology and transportation altered the way Americans lived, made money, and fought one another. Explored in these pages is the struggle between settlers and Native Americans; the epic conflict of slavery, from cotton gin to Civil War; the creation of the transcontinental railroad alongside the thundering herds of buffalo across the West; and how American ingenuity and determination both carried us through the Great Depression and won the Second World War. Beginning with Jamestown and Plymouth Bay, the first successful British colonies on the mainland, the book highlights the landmark moments in political, social, economic, and military history, from the prototypical entrepreneur John Rolfe and his tobacco seeds to Barack Obama and the seeds of change, from the Model T to the moon landing. Written by novelist, historian, and journalist Kevin Baker (a key contributor to The American Century, by Harold Evans), the narrative shares the TV series- eye for the dramatic moment in U.S. history--there is danger, action, struggle--while adding new layers of detail and nuance. America The Story of Us is decisive and essential, the story of the country that every family will want to own. Foreword by President Obama A stunning companion piece for the most anticipated HISTORY broadcast of all time, includes 412 heavily illustrated pages featuring over 300 full color images and layers of information including "chapters," graphics, photographs, and text. The adventure that became a nation - the complete history of the US has not been told for 40 years. AMERICA the Story of Us is an exuberant, unprecedented look at the invention of America focusing on how events small and large are intrinsically linked to the exploration and innovation, leading us from the frontier to 21st century cities, from the Mississippi to the moon, from Jamestown to 9/11 up to present day. Moving through time and space linking key events, people and locations, capturing the vast sweep of American history-- bringing viewers on a journey through the forces that shaped the destiny of America.

Rose didn't count on becoming a mother to a brand new baby dragon egg. She's always wanted to be a paleontologist, and is now in college studying to become one. But a chance meeting at the American Museum of Natural History turns her world upside down. Because, millions of years after dragons have gone extinct, there's an egg that seems to be unexpectedly . . . alive. The egg knows what he wants. He wants Rose and a stranger, Henry, to be his new parents. But can three strangers of two different species become a family?

Pizzazz! is a graphic nonfiction self-help bio by Bob Pauley. It's a color-filled, adventure-packed motivational book that outlines tips for success from flipping houses to writing hit songs. Bob describes his journey from country bumpkin to becoming a prestigious member of the Albert Einstein Fellowship and computer scientist for the National Science Foundation. From the deepest coalmines of Appalachia to the wild blue yonder as a jet fighter pilot, Bob has led a rich and exciting life, and he's ready to share his expertise and the pizzazz that comes with it. His career began in the Hatfield-McCoy backwoods as a coalmining engineer, the inspiration for the rocket boys of October Sky with his red Corvette convertible. As an Aviation Cadet in the USAF, Bob learned aerobatics, formation, instrument, and twin-engine jet fighter skills. As an engineer, he became a rocket and jet engine research programmer with giant IBM computers at Pratt & Whitney Aircraft. Then he went on to oceanfront resort management in Palm Beach and Nashville, where he met business moguls, movie stars, and entertainers. He became a published songwriter! Bob Pauley once wrote a song for a wrongfully convicted death row inmate that saved the man's life. By 2001, he added a computer science degree to his resume, won many awards, and soon became a member of the Albert Einstein Fellowship. He moved to Washington, DC, to work for the National Science Foundation promoting STEM (Science, Technology, Engineering & Math) education. Following NSF, Bob obtained his affiliate brokers license to flip houses while making music in Nashville. Bob races cars, cruises the oceans, and barnstorms the skies. He has crashed and burned a red Corvette in Tallahassee and a Cherokee 6 just north of Kingston, Jamaica. He spelunks, mountain climbs, and scuba dives, living life on the edge. His friends over the years include Colonel Harland Sanders, singer Elvis Presley, Congressman Allen West, ukulele soloist Tiny Tim, and soul artist James Brown. Bob has compiled his memories and skillsets into one book to share. It is called Pizzazz! Pizzazz! offers its readers something special—the opportunity to join our Millionaires Investment Group. This is an unprecedented opportunity to flip houses in partnership with knowledgeable teams of investors. In blocks of one thousand dollars per share, beginning flips are possible with shared ownerships of several (five to ten perhaps) like-minded investors. This enables would-be investors to begin investing immediately by sharing their ownership in residential properties with others. With the innovation of group sharing, Bob Pauley promises cash-strapped investors the chance to invest more quickly. And he shares the opportunity to write professional poetry, music, books, and screenplays in their spare time and to share other exciting and daring adventures guaranteed to bring pizzazz into their lives. This explosive tell-all is a must-read for the adventurous and entrepreneurial spirit.

As an Agile team leader, your biggest challenge is also your biggest asset. The human side of Agile is tricky. It's the least manageable, understood, and appreciated asset in an Agile environment. Even if your customers are reasonably happy and your developers seem to be doing okay, you know your team is capable of more: delivering great products and staying ahead of ever-changing demands. You need a team that's self-organized, energetic, and flexible, even in tough situations. But how do you build it and lead it? Whether you're a ScrumMaster, project manager, functional manager, or team leader, you want to feel good about using Agile and to create the conditions for great results. But the project management skills you honed in traditional environments don't always apply to the role of Agile team leader. The Human Side of Agile fills this gap, guiding you to: Establish yourself as a confident and capable leader who adds value Build and lead an engaged team that can handle almost any challenge Cultivate collaboration and a continuous improvement mind-set Reap the full benefits of Agile in the real world with real people "I just found the next must-read book for our entire leadership team." "Tricia Broderick, Director of Development, TechSmith" "This book is up there with Peopleware, with concrete examples you can use immediately." "Dave Rooney, Sherpa, Shopify" "Agile teams need effective leaders who 'get' the people stuff. Without that you're merely going through the Agile

motions." "Scott W. Ambler, co-creator of Disciplined Agile Delivery" While readable from cover to cover, the book is written as practical answers to the 80+ most relevant and pressing questions that team leaders ask, such as: "How Can I Help the Team Buy In?" "What If I Can't Work Full-Time as the Team's Leader?" "What Actions Will Build the Team's Trust in Me?" "How Can I Mitigate the Damage of Performance Reviews?" "What If a Member Doesn't Fit With the Team?" "How Can We Focus on Our Work With So Many Meetings?" "How Do I Get Stakeholders and Managers on My Side?" "How Can I Make Changes Stick?" "How Do We Avoid Reverting to Old Behaviors?" (Click on Look Inside to browse the complete table of contents.) The book's forewords are by Jim Highsmith and Christopher Avery. Gil Broza, founder and chief specialist at 3P Vantage, has successfully mentored Agile leaders and their teams since 2004. Gil's guidance helps professionals adopt effective, humane, and responsible approaches to software development.
