Quick, easy, effective activities support standards and help students improve skills they need for success in testing. Sound too good to be true? Not at all. That's just what each book in this series offers.

Quick, easy, effective activities support standards and help students improve skills they need for success in testing.

Students need more than basic math skills to solve problems; they must also use logical and abstract thinking to discover how to solve problems. The activities in this book do more than provide students with lots of practice solving problems. They give students the tools to apply appropriate strategies to solve problems in a variety of math skill areas.

Daily Warm-Ups: Reading, Grade 4Teacher Created ResourcesNonfiction Reading, Grade 4Teacher Created Resources

Solving word problems requires both strategy and skill. When confronted with a problem, students need to figure out how to solve the problem and then solve it! The 250 exercises in each book help students learn a variety of strategies for solving problems as well as grade-specific math skills.

Each book in the Daily Warm-Ups: Reading series provides students with over 150 opportunities to master important reading skills. The warm-ups include both fiction and nonfiction reading passages, followed by questions that are based on Bloom's Taxonomy to allow for higher-level thinking skills. Book jacket.
