Each book in the Daily Warm-Ups: Reading series provides students with over 150 opportunities to master important reading skills. The warm-ups include both fiction and nonfiction reading passages, followed by questions that are based on Bloom's Taxonomy to allow for higher-level thinking skills. Book jacket.

Make math matter to students in grade 3 using Daily Math Warm-Ups! This 128-page resource introduces, reinforces, and assesses math skills and fosters further understanding of math concepts. It includes 180 daily lessons; computation, graphing, and word-problem exercises; 18 assessments in standardized-test format; 12 real-world application activities; and a reproducible problem-solving strategy guide. The book supports NCTM standards.

Students need more than basic math skills to solve problems; they must also use logical and abstract thinking to discover how to solve problems. The activities in this book do more than provide students with lots of practice solving problems. They give students the tools to apply appropriate strategies to solve problems in a variety of math skill areas.

inquiry encourages critical thinking and sparks memorable mathematical conversations. Children and their parents answer the same question about each set of four shapes: "Which one doesn't belong?" There's no one right answer--the important thing is to have a reason why. Kids might describe the shapes as squished, smooshed, dented, or even goofy. But when they justify their thinking, they're talking math! Winner of the Mathical Book Prize for books that inspire children to see math all around them. "This is one shape book that will both challenge readers' thinking and encourage them to think outside the box."--Kirkus Reviews, STARRED review
