

Das Boot Lothar Gunther Buchheim

Twice within 25 years Britain was threatened with starvation by the menace of the U-Boat. In this study of submarine warfare, the author explains why Winston Churchill wrote "the only thing that ever frightened me during the war was the U-Boat peril". Until it had been overcome, the Anglo-American entry into Europe in 1944 would have been impossible. John Terraine concentrates on the combatants themselves, both German and Allied, but does not overlook the three main factors in the equation - the political, the military and the technological, as well as the intelligence, the weapons and the devices both sides employed in order to outwit each other. He also focuses on the fighting men on either side, seeing the action from "where it was at".

"The Secret Sharer" takes place on a sailing ship in the Gulf of Siam (now the Gulf of Thailand), at the start of a voyage with cargo for Britain. The date is probably in the 1880s, when Conrad was at sea himself. In common with many of Conrad's stories, it is narrated in the first person. The narrator is the ship's young captain, whose name is never given. He is unfamiliar with both his ship and his crew, having joined the ship only a fortnight earlier, and unsure of his ability to exert his authority over the officers and crew who have been together for some time. He makes the point several times that he is the "stranger" on board. After being towed downriver (presumably from Bangkok) by a steam tug, the ship is left at anchor near a group of small barren islands a few miles off shore, waiting for wind to begin its voyage. An incoming ship is anchored similarly a couple of miles away, awaiting a tug to go upriver. That night, the captain, being restless, unusually takes the watch. As the only man on deck in the small hours of the morning, he sees that a man has swum up to the ship's side. The naked swimmer is hesitant to talk or come on board, but seems pleased to discover he is speaking to the captain. Once on board, the man introduces himself as Leggatt and he and the captain find a natural rapport, almost as if Leggatt were the captain's other self, especially as the captain has now fetched some of his own clothes for Leggatt to wear. Still on deck, Leggatt explains that he was the First Mate of the other ship, but was placed under arrest after being accused of murdering a crew member. The victim was a disobedient bully. During a storm which nearly sank their ship on their voyage here, Leggatt was physically wrestling with the man to make him to pull a rope when a freak wave threw them both against a bulwark and the man was killed. Leggatt, a "stranger" on the other ship just as the captain is on his, would certainly face the gallows on landing. However, he escaped his locked cabin and swam between islands to reach the narrator's ship. Though the captain could, and by all the rules should, arrest Leggatt, he instead leads him to concealment in his cabin. The captain has no plan yet, and hiding Leggatt seems impossibly difficult, given that his cabin is regularly serviced by his steward, the problem of food, a captain's movements being conspicuous to all, and the long voyage ahead. In the morning the captain of Leggatt's ship arrives by boat to inquire if the escapee has been sighted. Our captain, not a natural liar, manages to bluff through, but is left terrified as to what his own officers make of his strained behavior....

"A beautiful story, expertly told." —Per Mertesacker, Arsenal defender and member of the German national team, winners of the 2014 World Cup Estádio do Maracanã, July 13, 2014, the last ten minutes of extra time in the World Cup Final: German forward

Mario Götze jumps to meet a floated pass from André Schürrle, cushions the ball with his chest, and in one fluid motion volleys the ball past the onrushing Argentine goalkeeper into the far corner of the net. The goal wins Germany the World Cup for the first time in almost thirty years. As the crowd roars, Götze looks dazed, unable to comprehend what he has done. In *Das Reboot*, Raphael Honigstein charts the return of German soccer from the dreary functionality of the late 1990s to Götze's moment of sublime, balletic genius and asks: How did this come about? The answer takes him from California to Stuttgart, from Munich to the Maracanã, via Dortmund and Amsterdam. Packed with exclusive interviews with key figures, including Jürgen Klinsmann, Thomas Müller, Oliver Bierhoff, and many more, Honigstein's book reveals the secrets of German soccer's success.

Submarines and surface fleets battle for dominance of the seas! One team must use submarines to sneak troops into enemy ports and destroy vital strategic targets, while the other team deploys a surface fleet to hunt down the subs and protect their crucial supply lines. Designed by retired Royal Navy Officer and submarine commander, Andrew Benford, and developed deep beneath the waves, *They Come Unseen* is an asymmetrical strategy game of bluff and deception that uses two boards, one for action on the surface, seen by both players, and one for movement underwater, only seen by the submarine commanders. The game also comes with specially designed control panels for each of the 2 to 4 players to help keep track of vital information such as fuel, ammunition and current cruising depth.

It is autumn, 1941, and a German U-boat commander and his crew set out on yet another hazardous patrol in the Battle of the Atlantic. Over the coming weeks they must brave the stormy waters of the Atlantic in their mission to seek out and destroy British supply ships. But the tide is beginning to turn against the Germans in the war for the North Atlantic. Their targets now travel in convoys, fiercely guarded by Royal Navy destroyers, and when contact is finally made the hunters rapidly become the hunted. As the U-boat is forced to hide beneath the surface of the sea a cat-and-mouse game begins, where the increasing claustrophobia of the submarine becomes an enemy just as frightening as the depth charges that explode around it. Of the 40,000 men who served on German submarines, 30,000 never returned. Written by a survivor of the U-boat fleet, *Das Boot* is a psychological drama merciless in its intensity, and a classic novel of World War II.

Hunt the Bismarck tells the story of Operation Rheinübung, the Atlantic sortie of the Nazi Germany's largest battleship in May 1941. *Bismarck* entered service in the summer of 1940. She was well-armed, with eight 15-inch guns as well as a powerful array of lighter weapons, while her armoured protection earned her the reputation of being unsinkable. This claim was finally put to the test in May 1941, when she sortied into the Atlantic and fought the legendary battle of the Denmark Strait, destroying HMS Hood, the pride of the Royal Navy. *Bismarck* was now loose in the North Atlantic. However, damage sustained in the battle limited her ability to roam at will, while the Royal Navy deployed the Home Fleet to revenge the Hood. The stage was set for the greatest chase story in the history of naval warfare. Drawing on a wealth of first-hand accounts, and intertwining extensive research into a fast-paced narrative, this is the most readable and accurate account of *Bismarck's* epic voyage ever produced.

Hans Goebeler is known as the man who "pulled the plug" on U-505 in 1944 to keep his beloved U-boat out of Allied hands. *Steel*

Boat, Iron Hearts is his no-holds-barred account of service aboard a combat U-boat. It is the only full-length memoir of its kind, and Goebeler was aboard for every one of U-505's war patrols. Using his own experiences, log books, and correspondence with other U-boat crewmen, Goebeler offers rich and very personal details about what life was like in the German Navy under Hitler. Because his first and last posting was to U-505, Goebeler's perspective of the crew, commanders, and war patrols paints a vivid and complete portrait unlike any other to come out of the Kriegsmarine. He witnessed it all: from deadly sabotage efforts that almost sunk the boat to the tragic suicide of the only U-boat commander who took his life during WWII; from the terror and exhilaration of hunting the enemy, to the seedy brothels of France. The vivid, honest, and smooth-flowing prose calls it like it was and pulls no punches. U-505 was captured by Captain Dan Gallery's Guadalcanal Task Group 22.3 on June 4, 1944. Trapped by this "Hunter-Killer" group, U-505 was depth-charged to the surface, strafed by machine gun fire, and boarded. It was the first ship captured at sea since the War of 1812! Today, hundreds of thousands of visitors tour U-505 each year at the Chicago Museum of Science and Industry. Included a special Introduction by Keith Gill, Curator of U-505, Museum of Science and Industry. About the Authors: Hans Jacob Goebeler served as control room mate aboard U-505. He died in 1999. John P. Vanzo is a former defense program analyst. He teaches political science and geography at Bainbridge College in Georgia.

Günter Koschorrek wrote his illicit diary on any scraps of paper he could lay his hands on, storing them with his mother on infrequent trips home on leave. The diary went missing, and it was not until he was reunited with his daughter in America some forty years later that it came to light and became Blood Red Snow. The author's excitement at the first encounter with the enemy in the Russian Steppe is obvious. Later, the horror and confusion of fighting in the streets of Stalingrad are brought to life by his descriptions of the others in his unit – their differing manners and techniques for dealing with the squalor and death. He is also posted to Romania and Italy, assignments he remembers fondly compared to his time on the Eastern Front. This book stands as a memorial to the huge numbers on both sides who did not survive and is, some six decades later, the fulfilment of a responsibility the author feels to honour the memory of those who perished.

When re-armament came after World War I, the German Navy was forced to build anew, so the Reichsmarine and its successor, the Kriegsmarine, found itself in possession of some of the most modern, powerful and technically advanced vessels in the world. Germany was very selective in picking her sailors and the quality of manpower skill levels was thus very high. This book charts the recruitment, training, service conditions and combat experiences of a typical World War II German sailor, focusing on the main branches of the Navy, as well as the last ditch combat units thrown into action as infantry in the final days of the war.

With the international success of the classic film Das Boot, U-96 is arguably the most famous of all German U-boats. Here is the true story of U-96, and its legendary commander Heinrich Lehmann-Willenbrock. In continuous combat from September 1940 to March 1945, follow the crew of U-96 from their bases in Kiel, Germany, as well as Lorient and St. Nazaire on the west coast of France, to intense combat against Allied shipping. During eleven combat patrols in the North Atlantic under Lehmann-Willenbrock, U-96 sank twenty-four Allied ships, eventually earning its commander the Knight's Cross with Oak Leaves. One of their patrols was documented by war correspondent Lothar-Günther Buchheim, which was later novelized and made into the film Das Boot. This biography of Heinrich Lehmann-Willenbrock, and history of U-96 is based on the WWII captain's log as well as the recollections of crewmembers.

On December 8, 1967 Time magazine put Bonnie and Clyde on its cover and announced, "The New Cinema: Violence Sex Art." The following decade has long been celebrated as a golden age in American film history. In this innovative study, Peter Krämer offers a systematic discussion of the biggest hits of the period (including *The Graduate* [1967], *The Exorcist* [1973] and *Jaws* [1975]). He relates the distinctive features of these hits to changes in the film industry, in its audiences and in American society at large.

The largest, most complex naval battle and its impact on World War II's outcome.

Follows the patrols, waits, and attacks through the crucial fall and winter of 1941 of the German U-boat *UA VII-C* and its crew, as they endure their shadowy, isolated, and claustrophobic inner and outer worlds

The former German U-boat commander Herbert Werner navigates readers through the waters of World War II, recounting four years of the most significant and savage battles. By war's end, 28,000 out of 39,000 German sailors had disappeared beneath the waves.

Richard Freiherr von Rosen was a highly decorated Wehrmacht soldier and outstanding panzer commander. His memoirs are richly illustrated with contemporary photographs, including key confrontations of World War II. After serving as a gunlayer on a Pz.Mk.III during *Barbarossa*, he led a Company of Tigers at Kursk. Later he led a company of King Tiger panzers at Normandy and in late 1944 commanded a battle group (12 King Tigers and a flak Company) against the Russians in Hungary in the rank of junior, later senior lieutenant (from November 1944, his final rank.) Only 489 of these King Tiger tanks were ever built. They were the most powerful heavy tanks to see service, and only one kind of shell could penetrate their armor at a reasonable distance. Every effort had to be made to retrieve any of them bogged down or otherwise immobilized, which led to many towing adventures. The author has a fine memory and eye for detail. His account is easy to read and not technical, and adds substantially to the knowledge of how the German Panzer Arm operated in the Second World War.

A stunning look at World War II from the other side... From the turret of a German tank, Colonel Hans von Luck commanded Rommel's 7th and then 21st Panzer Division. El Alamein, Kasserine Pass, Poland, Belgium, Normandy on D-Day, the disastrous Russian front--von Luck fought there with some of the best soldiers in the world. German soldiers. Awarded the German Cross in Gold and the Knight's Cross, von Luck writes as an officer and a gentleman. Told with the vivid detail of an impassioned eyewitness, his rare and moving memoir has become a classic in the literature of World War II, a first-person chronicle of the glory--and the inevitable tragedy--of a superb soldier fighting Hitler's war.

Reinhard 'Teddy' Suhren fired more successful torpedo shots than any other man during the war, many before he even became a U-boat commander. He was also the U-boat service's most irreverent and rebellious commander; his lack of a military bearing was a constant source of friction with higher authority. Valued for his good humour and ability to lead, his nickname was acquired because he marched like a teddy-bear. Despite his refusal to conform to the rigid thought-patterns of National Socialism, his operational successes protected him, and he found himself accepted in the highest circles of power in Germany. He was one of the lucky third of all U-boat crewmen who survived the war, largely because his abilities led to a senior land-based command. He was also one of the first to publish his reminiscences, his account being typically forthright – its German title, *Nasses Eichenlaub*, suggesting that although he was decorated with the Oak Leaves, he was always in hot water. He died in 1984 but interest in his career was revitalized by the discovery of photographs documenting one of his operations in U 564, published with great success in 2004 as *U-Boat War Patrol* by Lawrence Patterson.

This study investigates the relationship between Lothar-Günther Buchheim (1918-2007), his bestselling 1973 novel *Das Boot* (The Boat), and West Germany's *Vergangenheitsbewältigung*. As a war reporter during the Battle of the Atlantic, Buchheim benefitted from distinct privileges, yet he was never in a position of power. Almost thirty years later, Buchheim confronted the duality of his own past and railed against what he perceived to be a varnished public memory of the submarine campaign. Michael Rothberg's theory of the implicated beneficiary is used as a lens to view Buchheim and this duality. *Das Boot* has been retold by others worldwide because many people claim that the story bears an anti-war message. Wolfgang Petersen's critically acclaimed 1981 film and interpretations as a comedy sketch, a theatrical play, and a streamed television sequel have followed. This trajectory of Buchheim's personal memory reflects a process that practitioners of memory studies have described as transnational memory formation. Archival footage, interviews, and teaching materials reflect the relevance of *Das Boot* since its debut. Given the debates that surrounded Buchheim's endeavors, the question now raised is whether Germany's "mastering the past" serves as a model for other societies analyzing their own histories. Sitting at the intersection of History, Literature and Film Studies, this is an unprecedented case study depicting how the pre- and postwar times affected writers and others caught in the middle of the drama of the era.

Did you ever want to know what it was like to fly a Spitfire? Properly know? Two thirds of a century ago during World War II - to fight with one strapped to your back, head-to-head with another fighter or bomber, the crew trying to kill you before you killed him or them? What would be going through your mind? Could you pull the trigger - the moment of truth - could you kill someone?

The story of the Atlantic Ocean, two ships and 150 men, this classic tale of maritime warfare describes the author's own

experiences in the Royal Navy. In this novel the heroines are the ships, and the villain, the cruel sea. In June 1944, U.S. Navy Task Group 22.3, a "hunter-killer" force commanded by Daniel Gallery to track down German submarines, boarded and captured U-505 off the coast of Africa. It was the first time that an enemy ship of war had been captured on the high seas by U.S. Navy sailors since 1815, when the USS Peacock seized HMS Nautilus as part of the War of 1812. The extraordinary feat is described in gripping narrative by Gallery himself, who chronicles the long and arduous battle against the German U-boat under the most hazardous conditions. Once they succeeded in capturing and towing their prize seventeen-hundred miles across the Atlantic Ocean, U-505 proved to be of inestimable value, yielding secrets to radio codes among other things. U-505 is now on exhibit at Chicago's Museum of Science and Industry.

Lew Archer returns in this gripping mystery, widely recognized as one of acclaimed mystery writer Ross Macdonald's very best, about the search for the long lost heir of the wealthy Galton family. Almost twenty years have passed since Anthony Galton disappeared, along with a suspiciously streetwise bride and several thousand dollars of his family's fortune. Now Anthony's mother wants him back and has hired Lew Archer to find him. What turns up is a headless skeleton, a boy who claims to be Galton's son, and a con game whose stakes are so high that someone is still willing to kill for them. Devious and poetic, *The Galton Case* displays MacDonald at the pinnacle of his form.

The critically acclaimed New York Times–bestseller and the basis for the Academy Award– and Golden Globe–nominated film starring Steve McQueen. As a spirit of nationalism inspired by Chiang Kai-shek's leadership begins to sweep through China, the river gunship *San Pablo* is ordered to patrol the region and to protect US citizens. Jack Holman is a machinist aboard the *San Pablo*, who has joined the navy in order to avoid jail time. Because he is so fiercely independent, Jake remains a relative loner and is uncomfortable with navy protocol and discipline. McKenna's independent mind chafes against military hierarchy and also ensures that he does not share his shipmates' disdain for the Chinese. Instead, McKenna is fascinated with the culture and the people that surround him and develops emotional bonds that prove quite thorny when the circumstances become more tumultuous and more dire. The perspective of *The Sand Pebbles* is therefore both panoramic as well as personal. Like *Lawrence of Arabia*, the tension explored here is between the self as individual against the broader spectrum of social and historical forces against which we are all measured. "A bold well-written book, inclusive in its concepts, memorable in character and incident, fearlessly impartial in its delineation of the incompatible sets of values held by the men on all sides." —Kirkus Reviews

Hailed as "an extraordinary novel of men at war" (*The Washington Post*) this is the book that inspired the TNT television series starring Eric Dane, Rhona Mitra, Adam Baldwin and Michael Bay as Executive Producer. The unimaginable has happened. The world has been plunged into all-out nuclear war. Sailing near the Arctic Circle, the U.S.S. *Nathan James*

is relatively unscathed, but the future is grim and Captain Thomas is facing mutiny from the tattered remnants of his crew. With civilization in ruins, he urges those that remain—one-hundred-and-fifty-two men and twenty-six women—to pull together in search of land. Once they reach safety, however, the men and women on board realize that they are earth's last remaining survivors—and they've all been exposed to radiation. When none of the women seems able to conceive, fear sets in. Will this be the end of humankind?

The first thrilling historical crime novel starring Thomas Hawkins, a rakish scoundrel with a heart of gold, set in the darkest debtors' prison in Georgian London, where people fall dead as quickly as they fall in love and no one is as they seem. London, 1727. Tom Hawkins refuses to follow in his father's footsteps and become a country parson. His preference is for wine, women, and cards. But there's honor there too, and Tom won't pull family strings to get himself out of debt—not even when faced with London's notorious debtors' prison. The Marshalsea Gaol is a world of its own, with simple rules: Those with family or friends who can lend them a little money may survive in relative comfort. Those with none will starve in squalor and disease. And those who try to escape will suffer a gruesome fate at the hands of its ruthless governor and his cronies. The trouble is, Tom has never been good at following rules, even simple ones. And the recent grisly murder of a debtor, Captain Roberts, has brought further terror to the gaol. While the captain's beautiful widow cries for justice, the finger of suspicion points only one way: do the sly, enigmatic figure of Samuel Fleet. Some call Fleet a devil, a man to avoid at all costs. But Tom Hawkins is sharing his cell. Soon Tom's choice is clear: get to the truth of the murder—or be the next to die. A dazzling evocation of a startlingly modern era, *The Devil in the Marshalsea* is a thrilling debut novel full of intrigue and suspense.

Serving aboard the Allied destroyer USS Malloy, Executive Officer Connie Miles discovers that her much-admired captain is losing his mind under the pressure of unrelenting Japanese suicide bomber attacks. By the award-winning author of *Pacific Glory*. 25,000 first printing. The V-47, commanded by Gunther Prien, had found a way through the maze to the heart of the anchorage where the Royal Oak lay. Suddenly two torpedoes blew the mighty Royal Oak battle ship apart it Capsized with the loss of over 800 men.

This is a story of the silent service—the submarine crews which destroyed the Japanese merchant marine. A narrative taut with drama, told with the intimacy of a confession, it deals with two strong-headed men: their loves, their jealousies, and their destinies in the lonely and desperate struggle between the hunter and the hunted. Few war novels will rival *Run Silent, Run Deep* in the naked realism of its action. None will surpass its rising excitement and brilliant descriptions of men in combat. Unlike many war novels, here is a story that deals with war from the perspective of command. Edward Beach re-creates with fidelity the anguish, agony, and triumphs of command decisions. In Commander Richardson, he has created a character who embodies all that is fine, all that is human, in an excellent naval officer. In a sense, *Run Silent, Run Deep* is a monument, not to the misfits and the mistakes, but to those men who rose to greatness under the sometimes unbearable tensions of action.

That followed. His close examination of their lives reveals that many were extremely different from the pictures typically drawn of them. They were as varied in their thoughts and actions as other fighting men on both sides of the war. Particularly valuable is the author's use of new information in his portrayal of Karl Donitz and other prominent commanders to correct and enhance characterizations presented in earlier books. His use of personal letters and unpublished.

“This will be a fight against overwhelming odds from which survival cannot be expected. We will do what damage we can.” With these words,

Lieutenant Commander Robert W. Copeland addressed the crew of the destroyer escort USS Samuel B. Roberts on the morning of October 25, 1944, off the Philippine Island of Samar. On the horizon loomed the mightiest ships of the Japanese navy, a massive fleet that represented the last hope of a staggering empire. All that stood between it and Douglas MacArthur's vulnerable invasion force were the Roberts and the other small ships of a tiny American flotilla poised to charge into history. In the tradition of the #1 New York Times bestseller *Flags of Our Fathers*, James D. Hornfischer paints an unprecedented portrait of the Battle of Samar, a naval engagement unlike any other in U.S. history—and captures with unforgettable intensity the men, the strategies, and the sacrifices that turned certain defeat into a legendary victory. BONUS: This edition includes an excerpt from James D. Hornfischer's *Neptune's Inferno: Praise for The Last Stand of the Tin Can Sailors* “One of the finest WWII naval action narratives in recent years, this book follows in the footsteps of *Flags of Our Fathers*. . . . Exalting American sailors and pilots as they richly deserve. . . . Reads like a very good action novel.”—Publishers Weekly “Reads as fresh as tomorrow's headlines. . . . Hornfischer's captivating narrative uses previously classified documents to reconstruct the epic battle and eyewitness accounts to bring the officers and sailors to life.”—Texas Monthly “Hornfischer is a powerful stylist whose explanations are clear as well as memorable. . . . A dire survival-at-sea saga.”—Denver Post “In *The Last Stand of the Tin Can Sailors*, James Hornfischer drops you right into the middle of this raging battle, with 5-inch guns blazing, torpedoes detonating and Navy fliers dive-bombing. . . . The overall story of the battle is one of American guts, glory and heroic sacrifice.”—Omaha World Herald
