For years, it's been "common knowledge" that once a woman hits thirty, her chances of finding a husband diminish to the point of despair. That men are intimidated by a woman's career success, preferring docile helpmates to ambitious achievers. That women are biologically driven to seek a strong provider. That the higher a woman's IQ, the less likely she is to marry, let alone have babies...leaving single, successful women to ask themselves: Are men intimidated by smart women? In *Why Smart Men Marry Smart Women*, Christine B. Whelan shatters the myth that high-achieving women are at a disadvantage in the marriage market. There's good news for the millions of American SWANS (Strong Women Achievers, No Spouse): that today's smart, successful women marry at the same rates as all other women -- and that more income and education may in fact increase a woman's chances of marriage. What's more, as Dr. Whelan shows through newly released U.S. Census data, a large-scale Harris Interactive survey commissioned especially for this book, plus extended interviews conducted in cities nationwide, this profound demographic shift shows every sign of progressing. That means that the "success penalty" that has endured for generations is, as soon as 2010, destined for the history books. Accomplished daughters, sisters, and friends (not to mention their mothers) can finally stop worrying that the twin pinnacles of personal and professional happiness are inherently unattainable. In fact, smart men do marry SWANS. Ninety percent of high-achieving men surveyed want a woman who is as intelligent or more intelligent than they are. And two-thirds of men said they believed smart women make better mothers. Pairing cutting-edge research with sound advice, Dr. Whelan brings to mind what smart women everywhere have long known in their hearts: that the goal is not just to get married, but to have a good marriage, and to lead a fulfilled life.

A research-based guide to navigating the newest dating phenomenon--"the love gap"--and a trailblazing action plan to help smart, confident, career-driven women find (and keep) their match. For a rising generation young women, the sky is the limit. Women can be anything and have everything. They are outpacing their male peers in higher education and earning the corner office at work. Smart, driven, assertive women are succeeding at just about everything they do--except romance. Why are so many men afraid to date smart women? Modern men claim to want smarts, success, and independence in romantic partners. Or so says the data collected by scientists and dating websites. If that's the case, why are so many independent, successful women winning in life, but losing in love? Journalist Jenna Birch has finally named the perplexing reason: "the love gap"--or that confusing rift between who men say they want to date and who they actually commit to. Backed by extensive data, research, in-depth interviews with experts and real-life relationship stories, *THE LOVE GAP* is the first book to explore the most talked-about dating trend today. The guide also establishes a new framework for navigating modern relationships, and the tricky new gender dynamics that impact them.

The smart woman's guide to dating and relating To get into a man's heart, you have to get into his head. With this insider's guide to evaluating a man, Caroline Presno, Ed.D., P.C.C. teaches women how to apply psychotherapists' tricks of the trade to finding Mr. Right. Caroline Presno has developed systematic ways to 'profile' a man for his degree of commitment readiness, his aptitude for love and intimacy, his chance of lying, or being unfaithful, his tendency toward big, bad personality problems like narcissism and paranoia, and his ability to fulfill his potential. Profiling Your Date answers the pressing questions every woman has: 'What type of man should I be looking for? Who should I steer clear from? Is this a healthy relationship for me to be in right now? Is there a better relationship out there for me?' Profiling Your Date helps you to dissect his behavior and probe his thinking to reveal red flags that indicate it is time to move on. For example: * He is quick to acknowledge everyone else's flaws, but not his own. * He needs constant excitement and gets bored easily - he will eventually get bored with you. *He puts your relationship on fast-forward and isolates you from your family and friends. *He calls you at the last minute, spends a lot of time out with the boys, and lets you pursue him more than he pursues you. Whether you are in love or looking for love, you can learn who to 'profile' into your life, and who to 'profile' out. Caroline Presno will show you how. CAROLINE PRESNO, Ed.D., P.C.C. is a psychotherapist as well as a doctor of education. She has honed her profiling techniques through academic research, clinical experience, and her own always-exciting dates – which led her to her "one." She can be heard weekly as "Dr. Caroline" on the Clear Channel network.

It's not that he's just not that into you—it's that there aren't enough of him. And the numbers prove it. Using a combination of demographics, statistics, game theory, and number-crunching, Date-onomics tells what every single, college-educated, heterosexual, looking-for-a-partner woman needs to know: The "man deficit" is real. It's a fascinating, if sobering read, with two critical takeaways: One, it's not you. Two, knowledge is power, so here's what to do about it. The shortage of college-educated men is not just a big-city phenomenon frustrating women in New York and L.A. Among young college grads, there are four eligible

women for every three men nationwide. This unequal ratio explains not only why it's so hard to find a date, but a host of social issues, from the college hookup culture to the reason Salt Lake City is becoming the breast implant capital of America. Then there's the math that says that a woman's good looks can keep men from approaching her—particularly if they feel the odds aren't in their favor. Fortunately, there are also solutions: what college to attend (any with strong sciences or math), where to hang out (in New York, try a fireman's bar), where to live (Colorado, Seattle, "Man" Jose), and why never to shy away from giving an ultimatum.

Women have been defined by men in men's terms until relatively recently but now that women are coming into their own both out in the workforce and as separate entities unto themselves, the question is, once you throw off the shackles of what it means to be a woman as defined by men all throughout history, what exactly is a woman as the pure essence she is in her soul? Women are as complex and individual as men if they choose to be yet as simple and one-dimensional as the stereotypical caricatures if they choose to be too so women are women just like men are men. In modern society, a woman can be pretty well anything she wants but the problem, hypocrisy or contradiction with all of this is that despite all this talk about freedom and being who you are, beyond a superficial, glossy façade of store-bought trendiness, most women are no different than the woman of 30 years ago and have no desire to be.

It examines the biology and social context in which women and men express gendered behaviors. Steve Harvey, the host of the nationally syndicated Steve Harvey Morning Show, can't count the number of impressive women he's met over the years, whether it's through the "Strawberry Letters" segment of his program or while on tour for his comedy shows. Yet when it comes to relationships, they can't figure out what makes men tick. Why? According to Steve it's because they're asking other women for advice when no one but another man can tell them how to find and keep a man. In Act Like a Lady, Think Like a Man, Steve lets women inside the mindset of a man and sheds light on concepts and questions such as: The Ninety Day Rule: Ford requires it of its employees. Should you require it of your man? The five questions every woman should ask a man to determine how serious he is. And much more . . . Sometimes funny, sometimes direct, but always truthful, Act Like a Lady, Think Like a Man is a book you must read if you want to understand how men think when it comes to relationships.

The Center of the Web examines the complexities of how solitude is perceived by women. Each contributor describes how solitude is a dimension of her personal and public life: how she defines it, if and how she seeks it, where she finds it,

and how it influences her life. The voices in the book come from varied vantage points, illuminating women's perspectives of solitude with regard to class, culture, race, and sexual identity. Some essays are grounded in philosophy, literature, or psychology, others are autobiographical, and some confront the seeming dichotomy of solitude on one hand, and care, connection, and responsibility on the other. With the contemporary focus on women's experiences grounded in context and connection to others, this book presents a perspective often overlooked or unexamined.

A spirited, deeply researched exploration of why capitalism is bad for women and how, when done right, socialism leads to economic independence, better labor conditions, better work-life balance and, yes, even better sex. In a witty, irreverent op-ed piece that went viral, Kristen Ghodsee argued that women had better sex under socialism. The response was tremendous -- clearly she articulated something many women had sensed for years: the problem is with capitalism, not with us. Ghodsee, an acclaimed ethnographer and professor of Russian and East European Studies, spent years researching what happened to women in countries that transitioned from state socialism to capitalism. She argues here that unregulated capitalism disproportionately harms women, and that we should learn from the past. By rejecting the bad and salvaging the good, we can adapt some socialist ideas to the 21st century and improve our lives. She tackles all aspects of a woman's life - work, parenting, sex and relationships, citizenship, and leadership. In a chapter called "Women: Like Men, But Cheaper," she talks about women in the workplace, discussing everything from the wage gap to harassment and discrimination. In "What To Expect When You're Expecting Exploitation," she addresses motherhood and how "having it all" is impossible under capitalism. Women are standing up for themselves like never before, from the increase in the number of women running for office to the women's march to the long-overdue public outcry against sexual harassment. Interest in socialism is also on the rise - whether it's the popularity of Bernie Sanders or the skyrocketing membership numbers of the Democratic Socialists of America. It's become increasingly clear to women that capitalism isn't working for us, and Ghodsee is the informed, lively guide who can show us the way forward.

Since World War II Americans' attitudes towards shyness have changed. The women's movement and the sexual revolution raised questions about communication, self-expression, intimacy, and personality, leading to new concerns about shyness. At the same time, the growth of psychotherapy and the mental health industry brought shyness to the attention of professionals who began to regard it as an illness in need of a cure. But what is shyness? How is it related to gender, race, and class identities? And what does its stigmatization say about our culture? In *Shrinking Violets* and *Caspar Milquetoasts*, Patricia McDaniel tells the story of shyness. Using popular self-help books and magazine articles she shows how prevailing attitudes toward shyness frequently work to disempower women. She draws on evidence as diverse as 1950s views of shyness as a womanly virtue to contemporary views of shyness as a barrier to intimacy to highlight how cultural standards governing shyness reproduce and maintain power differences between and among women and men.

Throughout the centuries, frustration, disappointment, and despair on both sides has created a great divide between black women and black men. In the world of relationships, it has become increasingly difficult for black women to make an emotional, spiritual, and psychological connection with black men. For many women, they don't even know how to begin to put on a different "hat" and often find themselves saying, "Why can't I find a good black man?" The truth of the matter is, many black women are sinking and drowning, according to many black men. On the other side of the spectrum there are black men who also have a considerable amount of scar tissue to deal with, not the least of which has been black women who are deceitful, disrespectful, high maintenance, materialistic gold diggers with "get paid" mentalities. The end result is that many black men have become frustrated with black women and have also chosen to cross color lines in unbelievably large numbers. For those black men, having a strong Nubian queen by their side has become nothing more than a pipe dream they used to have. For them, dating outside their race is no longer taboo and no longer creates the innate feeling of betraying black women. Sadly, a lot of black men all over the country have lost love and respect for many black women. A lot of black men feel many black women have no idea how to love them, care for them,

or nurture their men. They no longer believe that black women are good homemakers nor can they keep a peaceful home. This is an epidemic that has spread all over America. It is my sincere belief that the thoughts and ideas outlined in my book will help answer numerous questions with which black women continue to struggle regarding their relationships with men--particularly black American men, such as: Why will he bed me but not wed me? Why have many black women lost the love and respect of black men? Why are black men continuing to cross the fence in alarming numbers? Why are black men becoming more hesitant to approach black women? Are black men really intimidated by successful black women? Why are so many black men disappointed, discouraged, and frustrated with many black women? Why do many black men see black women as too difficult and too complicated to deal with? Why are some black men making a vow to never date or marry another black woman ever again? Why are many black women hitting home runs in their careers but striking out in their relationships and marriages? These are some of the questions that are answered in this book. This is why it was so important for me to write this book. I want to inform black women in America what they need to do to help restore the faith of good-quality black men. I want black women to understand that I am writing this book as a wake-up call. If I do my job well, perhaps these words will sufficiently energize the mind, heart, and soul of the amazing creation God called woman to stimulate positive behavioral change in her--or at least provoke a little thought. Now, I know I'm treading on thin ice here, but trust me when I say this book is not about bashing black women in America. It's a book about reality and truth. More often than not, most of us do not like to hear the truth because it forces us to take a good look at ourselves, blemishes and all. The old adage, "The truth hurts," could certainly apply here. However, another old adage is also applicable: "The truth shall set you free." By writing this book, I truly hope to make it easier for black men and woman to come together as one. I want black women to understand that just because many black men have lost faith doesn't mean that we have given up on you. The reality is that sometimes we need to be challenged, and this book will definitely challenge many black women in America to take an introspective look at themselves. In the popular imagination, American women during the time between the end of World War II and the 1960s—the era of the so-called “feminine mystique”—were ultraconservative and passive. *College Women in the Nuclear Age* takes a fresh look at these women, showing them actively searching for their place in the world while engaging with the larger intellectual and political movements of the times. Drawing from the letters and diaries of young women in the Cold War era, Babette Faehmel seeks to restore their unique voices and to chronicle their collective ambitions. She also explores the shifting roles that higher education played in establishing these hopes and dreams, making the case that the GI Bill served to diminish the ambitions of many American women even as it opened opportunities for many American men. A treasure-trove of original research, the book should stimulate scholarly discussion and captivate any reader interested in the thoughts and lives of American women.
