Modern romance is broken. It's time to flip the script. Apps have transformed dating from a mysterious adventure into a daily chore. Young, single, college-educated women are sick and tired of competing for a shrinking supply of guys. And marriage-material men, long expected to take the lead when it comes to asking women out, are suddenly balking at making the first move, fearing they'll come across as creepy or inappropriate. Society is changing, which means it's time for dating to evolve. Millennial and Gen Z women are more than capable of seeking out what—and who—they want. They're standouts in the classroom and champions on the playing fields. They're leaders in the workplace and trailblazers in city halls, state houses, and Congress. So why would we tell a generation of badass women that they're not allowed to be bold when it comes to finding love? Why should they have to sit back and wait (and wait and wait) for men to find them? In *Make Your Move: The New Science of Dating and Why Women Are in Charge*, Jon Birger, author of *Dateonomics*, offers women bold new strategies for finding the one. Backed by research showing that women can win at romance by making the first move with the men of their choice, Birger explains why:

- It's better to choose than to be chosen
- The "play hard to get" method is not only outdated but grounded in bad science
- The first move does not have to be a big move
- It's time to log off of dating apps and date men you actually know
- The workplace can be a terrific place to meet a long-term romantic partner
- . . . and more!

Make Your Move is an honest, solution-based guide to finding love that lasts. If you're tired of playing by old rules, look no further: Make your move and win.

Despite enormous changes in patterns of dating and courtship in twenty-first-century America, contemporary understandings of romance and intimacy remain firmly rooted in age-old assumptions of gender difference. These tenacious beliefs now vie with cultural messages of gender equality that stress independence, self-development, and egalitarian practices in public and private life. Through interviews with heterosexual and LGBTQ individuals, Ellen Lamont's *The Mating Game* explores how people with diverse sexualities and gender identities date, form romantic relationships, and make decisions about future commitments as they negotiate uncertain terrain fraught with competing messages about gender, sexuality, and intimacy.

Emmy and Peabody Award–nominated health reporter Cleo Stiller’s fun(ny) and informative collection of advice and perspectives about what it means to be a good guy in the era of #MeToo. Here are a few self-evident truths: Predatory men need to go, sexual assault is wrong, and women and men should be equal. If you’re a man and disagree with any of the aforementioned, then this book isn’t for you. But if you agree, you’re probably one of the “good guys.” That said, you might also be feeling frustrated, exasperated, and perhaps even skeptical about the current national conversation surrounding #MeToo (among many other things). You’ve likely found yourself in countless experiences or conversations lately where the situation feels gray, at best. You have a lot to say, but you’re afraid to say it and worried that one wrong move will land you in the hot seat. From money and sex to dating and work and everything in between—it can all be so confusing! And when do we start talking about solutions instead of putting each other down? In *Modern Manhood*, reporter Cleo Stiller sheds light on all the gray areas out there, using conversations that real men and women are having with their friends, their dates, their family, and themselves. Free of judgment, preaching, and sugarcoating, *Modern Manhood* is engaging, provocative, and, ultimately, a great resource for gaining a deeper understanding of what it means to genuinely be a good man today.

Essential reading for our times, as women are pulling together to demand their rights— A landmark portrait of women,

men, and power in a transformed world. “Anchored by data and aromatized by anecdotes, [Rosin] concludes that women are gaining the upper hand.” –The Washington Post Men have been the dominant sex since, well, the dawn of mankind. But Hanna Rosin was the first to notice that this long-held truth is, astonishingly, no longer true. Today, by almost every measure, women are no longer gaining on men: They have pulled decisively ahead. And “the end of men”—the title of Rosin’s Atlantic cover story on the subject—has entered the lexicon as dramatically as Betty Friedan’s “feminine mystique,” Simone de Beauvoir’s “second sex,” Susan Faludi’s “backlash,” and Naomi Wolf’s “beauty myth” once did. In this landmark book, Rosin reveals how our current state of affairs is radically shifting the power dynamics between men and women at every level of society, with profound implications for marriage, sex, children, work, and more. With wide-ranging curiosity and insight unhampered by assumptions or ideology, Rosin shows how the radically different ways men and women today earn, learn, spend, couple up—even kill—has turned the big picture upside down. And in *The End of Men* she helps us see how, regardless of gender, we can adapt to the new reality and channel it for a better future. A research-based guide to navigating the newest dating phenomenon--"the love gap"--and a trailblazing action plan to help smart, confident, career-driven women find (and keep) their match. For a rising generation young women, the sky is

the limit. Women can be anything and have everything. They are outpacing their male peers in higher education and earning the corner office at work. Smart, driven, assertive women are succeeding at just about everything they do--except romance. Why are so many men afraid to date smart women? Modern men claim to want smarts, success, and independence in romantic partners. Or so says the data collected by scientists and dating websites. If that's the case, why are so many independent, successful women winning in life, but losing in love? Journalist Jenna Birch has finally named the perplexing reason: "the love gap"--or that confusing rift between who men say they want to date and who they actually commit to. Backed by extensive data, research, in-depth interviews with experts and real-life relationship stories, *THE LOVE GAP* is the first book to explore the most talked-about dating trend today. The guide also establishes a new framework for navigating modern relationships, and the tricky new gender dynamics that impact them. Women can, and should, have it all without settling.

If you're looking for the sage wisdom of an author who's been there and done that, look no further. Kimberly Michelle is your new go-to girlfriend for advice on all things dating related. Dating in the age of narcissism is harder than ever, and nowadays women can't seem to recognize the three obvious flags inherent to dating--the red flags, the yellow, and the green. Never fear! Michelle is here to lay it all out for you. Whether you are a divorcee, newly single, a single mom, or a soon-to-be married woman, this book is for you. It functions as a quintessential primer to allow modern women everywhere to get ahold of their relationships. A testament to the author's many failed and successful relationships over the past twenty years, Michelle sets out to help you get the relationship you want and deserve. While most dating books for single women focus on the goal of being successful in finding the perfect mate, "Dating in the Age of Narcissism" focuses on past failures as a way of obtaining the proper knowledge that leads to success. Written like a letter between girlfriends, you'll come away from these words armed with the real truth about dating--in its purest and rawest form. In *Manning Up*, Manhattan Institute fellow and *City Journal* contributing editor Kay Hymowitz argues that the gains of the feminist revolution have had a dramatic, unanticipated effect on the current generation of young men. Traditional roles of family man and provider have been turned upside down as "pre-adult" men, stuck between adolescence and "real" adulthood, find themselves lost in a world where women make more money, are more educated, and are less likely to want to settle down and build a family. Their old scripts are gone, and young men find themselves adrift. Unlike women, they have no biological clock telling them it's time to grow up. Hymowitz argues that it's time for these young men to "man up."

Finding true love and maintaining a clean healthy relationship is not an impossible task. The trick lies in balancing your act. You need to have lots of virtues like affection, love, respect, patient and trust to be able to do that. The ingredients of

a healthy dating relationship are simple and homemade. Healthy love relationships need the help of the following features:

- o Truth and Honesty: Being true to your partner is one of the most basic prerequisites for all good relationships. A clean honest character speaks volume, it builds up trust and no matter what, and your partner will never be suspicious or doubtful about you, as you have always been amazingly truthful to him/her.
- o The Act of Forgiveness: For good solid relationships, you have to forgive and forget the past. It is no use harboring il feelings towards one another and pretending to be a loving couple.
- o Friendship: Remember the famous quote, 'after the newness of a relationship dies away, only the friendship and companionship remain.' It is not sufficient to have a great physical chemistry; you should also be good friends. In every successful marriage, partners are first loyal friends to each other than anything else.
- o Patience: If you have it in you to be patient and determined, it will help you tide over all the rough patches in a relationship. Love relations and marriages often come to an abrupt ending due to lack of patience to work out the problems with a clear head.
- o Passion: Having flaming passion for your partner does wonders to your love life. Do not confuse passion with sex and lust, having genuine love and passion overrides the physical need for intimacy. It makes the relation strong and durable for many decades.
- o Communicating: Effective communication teaches to you to respect each other's point of view and a healthy regard for your partner's suggestions. It helps you to talk through all the tough issues in life.
- o Monogamy: A valued relationship is one, which is monogamous in nature. Complete truth, honesty and faithfulness to your partner are what it takes to keep a relationship fresh and thriving. If there is deep love and respect for each other, the question of polygamy doesn't even arise-you will never feel the need for a change in your love life.
- o Equality of the Sexes: The major decisions of your lives should be decided mutually in a relationship. It is not the solo right of man alone to resolve matters that involves his partner as well. There should be complete fairness and gender equality.
- o Economic Responsibilities: The financial burden should be equally shared for a healthy pattern. All decisions regarding money should be necessarily made together so that both partners profit from such monetary agreements. In addition, partners in a healthy dating relationship have lots of similar traits. One should be compatible on an emotional, mental and physical level. Our life is very short, so we should value each new day and try to create a happy atmosphere for our partner and ourselves.

Dating relationships should be harbored on a long-term basis. Never look for cheap fun and excitement on a date. Such temporary relationships make it hard for anyone to hold ground, even if they find true love. Kill Mr. Right Today and Find Your "Happily Ever After" Prince Charming and Mr. Right need to die right now. The same applies to your type. You're not 15, and you really don't need a list of superficial criteria to judge potential partners by. As a grown woman, you should be taking dating to the next level. Unfortunately, women are socialized to act a certain way when dating and seeking a romantic match. We have to be soft, we have to be feminine. In fact, most guides and

The #1 New York Times Bestseller "An engaging look at the often head-scratching, frequently infuriating mating behaviors that shape our love lives." —Refinery 29 A hilarious, thoughtful, and in-depth exploration of the pleasures and perils of modern romance from Aziz Ansari, the star of Master of None and one of this generation's sharpest comedic voices At some point, every one of us embarks on a journey to find love. We meet people, date, get into and out of relationships, all with the hope of finding someone with whom we share a deep connection. This seems standard now, but it's wildly different from what people did even just decades ago. Single people today have more romantic options than at any point in human history. With technology, our abilities to connect with and sort through these options are staggering. So why are so many people frustrated? Some of our problems are unique to our time. "Why did this guy just text me an emoji of a pizza?" "Should I go out with this girl even though she listed Combos as one of her favorite snack foods? Combos?!" "My girlfriend just got a message from some dude named Nathan. Who's Nathan? Did he just send her a photo of his penis? Should I check just to be sure?" But the transformation of our romantic lives can't be explained by technology alone. In a short period of time, the whole culture of finding love has changed dramatically. A few decades ago, people would find a decent person who lived in their neighborhood. Their families would meet and, after deciding neither party seemed like a murderer, they would get married and soon have a kid, all by the time they were twenty-four. Today, people marry later than ever and spend years of their lives on a quest to find the perfect person, a soul mate. For years, Aziz Ansari has been aiming his comic insight at modern romance, but for Modern Romance, the book, he decided he needed to take things to another level. He teamed up with NYU sociologist Eric Klinenberg and designed a massive research project, including hundreds of interviews and focus groups conducted everywhere from Tokyo to Buenos Aires to Wichita. They analyzed behavioral data and surveys and created their own online research forum on Reddit, which drew thousands of messages. They enlisted the world's leading social scientists, including Andrew Cherlin, Eli Finkel, Helen Fisher, Sheena Iyengar, Barry Schwartz, Sherry Turkle, and Robb Willer. The result is unlike any social science or humor book we've seen before. In Modern Romance, Ansari combines his

Or what if Mr. Right had been, well, Mr. Right in Front of You—but you passed him by? Nearing forty and still single, journalist Lori Gottlieb started to wonder: What makes for lasting romantic fulfillment, and are we looking for those qualities when we're dating? Are we too picky about trivial things that don't matter, and not picky enough about the often overlooked things that do? In *Marry Him*, Gottlieb explores an all-too-common dilemma—how to reconcile the desire for a happy marriage with a list of must-haves and deal-breakers so long and complicated that many great guys get misguidedly eliminated. On a quest to find the answer, Gottlieb sets out on her own journey in search of love, discovering wisdom and surprising insights from sociologists and neurobiologists, marital researchers and behavioral economists—as well as single and married men and women of all generations.

The #1-Rated Dating Book by Readers on Amazon for 3+ Years Running This is what readers say: 'I have read many books about relationships and dating, but *The Tao of Dating* is one of a kind, so different and mind-blowing in its common sense and simplicity that it is impossible to put it down once you start reading.' 'Well, where shall I start? Mind blowing? Life-changing? Truly opened my eyes? No words can express how much I love this book. I wish I had read it much earlier.' 'I keep this book in a small, carefully chosen, boxed collection of 'indispensable advice I wish I had written' that I will pass along to my children as they navigate through teens, twenties, early adulthood and beyond.' 'This turned out to be one of the most transformative books I have ever read much more so than I thought it possibly could be.' 'The content is intelligent and compassionate and enriching far beyond anything to do with dating. In essence, this book somehow, magically, alchemically, brings you back to yourself. Everyday TV and other media specialize in portraying women as cheap and disposable. This book is the antidote. Just by reading it, one is restored to one's own heart. I can think of no better praise.' '1.5 reads of the book in and I can honestly say that I not only have a clear sense of the basic things that I was doing that were completely throwing off the dynamic with these men, but that I now have simple, quite beautiful little tools in mind when I'm interacting with men that make me properly excited to date. I'll admit that I bought a few books in this vein in one lump...but *The Tao of Dating* just completely blew them out of the water.' 'This is the most helpful dating book that I have experienced! At the time of my purchase I also downloaded two other books and after reading this I can't even get through

the first chapter of the other ones.' 'Thanks to this specific book, I went from having a nonexistent dating life, with empty weeks stretching ahead to being booked every night of the week and in some cases, having two or three dates per evening... the results, for me, were dramatic: I now feel like I have my pick of the litter a slew of fabulous guys who all clamor for my attention.' Girl, Please...Know When to Let That Man Go encourages women to follow their intuition in letting go of relationships that feel odd, unsafe or have otherwise reached their expiration date. Intentionally funny and necessarily sobering, the 100 signs of letting go alert readers to problematic male behaviors that could result in major emotional upset or physical abuse. A dating book for single women to help them understand men better so they can date successfully and find Mr. Right.

They will learn courtship secrets as well, which help them find a worthwhile man who treats them like gold.

Never before in human history, or for that matter, nature has a species dated not for reproductive purposes but for recreation, pleasure, status, or economic reasons. Increasingly, especially with Millennials, dating has become more casual, complicated, and contrived. Instead of beating your head against a wall or giving up, learn the new rules, customs, etiquette, tactics, strategies, language, tricks, and pitfalls of modern dating. Adapt and play the game as it is played not the way you want it to be played. People from other generations will also benefit from this guide as the new dating rules are starting to apply to Gen X and Baby Boomers as well.

True Female Nature is everywhere; it is all around us. You can see it when you look at the television or when you look out your window. You can feel True Female Nature when you go to work or when you go to the store. Do not be a slave to True Female Nature! *Is there something about women that you always wanted to know, but could never figure out? *Are you struggling with relationships with the women in your life? *Are you being taken advantage of by women in the dating market? *How can you leverage the "dating game" to your favor? To answer these questions, men need to have an "abundance" mindset that is self-aware, that is knowledgeable, and a mindset that wants a purposeful life. "Hack Her: True Female Nature 101" is an introductory course describing female nature, at a novice level. The purpose of "Hack Her" is to help men gain a better understanding of women, as far as the "logic" behind their (female) thinking. Women are not angels; they lie, they cheat, they steal, just like everyone else. The only difference is that women use their "sexual bait" to mask their deceitful strategies. The title "Hack Her" is wordplay on the term "hacker". The female mind is uncharted like the Dark Web of the internet; people know little to nothing about the modern female psyche. Men who are aware of this "Dark Web" (the mind of a woman) are called "Coders" because they have the cheat "codes" to manipulate female nature to their will. "Coders" understand that with great power comes even greater responsibility! "Hack Her: True Female Nature 101" is a book written to help men see life from the point of view of the average woman that has a Westernized mindset. This book does not just describe the women that men date; the women described in this book also include the men's own mother, their own sisters, their own aunts, their own daughters, etc. Men of today can use "Hack Her: True Female Nature 101" as a device to decrypt, or hack, the "Dark Web" of the female mind. Becoming a "Coder" will help prevent men from "going their own way". This book will give men the tools that they need to be in control of their own emotions, while in romantic relationships with women. "Hack Her" breakdowns the persona of women and gives men a better understanding of why (mentally) women do what they do (i.e. sex, money, dating). "Hack Her" can also help women understand other women. Often times, women comprehend other women by the examples of the females in their own personal lives; a mere anecdotal representation of True Female Nature. The male and female gender can use this

book to repair relationships amongst each other, which can rebuild family structures, therefore reconstructing communities built on a foundation of healthy (marital) relationships. Once men have a deeper understanding of True Female Nature, only then can men appreciate women for who they truly are; the primary caretakers of the pediatric (children) and the geriatric (elderly) population in every country. Men around the world need to recognize that True Female Nature is nothing to be afraid of because it is neither good nor bad; it just is what it is. This is your Last Chance to change your life; after this, there is no turning back. You can choose not to read "Hack Her: True Female Nature 101" and remain the same ignorant, beta male that believes whatever it is that you believe. Or, you can get your hands on "Hack Her: True Female Nature 101" to learn how deceptive and how manipulative the female psyche is. All this book is offering is the truth, nothing more. Point out the lie! Do you want to know what True Female Nature is?

If you have a good sense of humor and can appreciate a politically incorrect point of view of how the politics of the modern social dating process works, you will surely enjoy and value this book. From a socio/political point of view, the philosophy of this book tilts slightly to the right of Attila the Hun! As a straight American male, you love women. It's your natural desires that motivate you to be with a woman for fun, relaxation, sex, companionship, and at the extreme, marriage. You will choose a female for any one or all of these reasons, depending on how that woman affects you. So why is it, that in today's dating culture, it has become increasingly difficult to find a normal, traditional woman, a female who you can share a pleasant and meaningful relationship with, a relationship that can possibly evolve into a traditional family lifestyle. The reason is, because today's modern women have changed the rules of behavior for social dating. And this means, you need protection! If you have been seeking a female who has a firm grip on reality, and does not come into a dating situation with a political ax to grind, you have come to the right place for guidance and advice.

After three years of dating, Anita Jain finally got fed up with the New York singles scene. As her Indian parents continued to pressure her to find a mate, Jain couldn't help asking herself the question: is arranged marriage really any worse than Craigslist? Full of romantic chance encounters, nosy relatives, and dozens of potential husbands, *Marrying Anita* is a refreshingly honest look at our own expectations and the modern search for the perfect mate.

It's not that he's just not that into you—it's that there aren't enough of him. And the numbers prove it. Using a combination of demographics, statistics, game theory, and number-crunching, *Date-onomics* tells what every single, college-educated, heterosexual, looking-for-a-partner woman needs to know: The "man deficit" is real. It's a fascinating, if sobering read, with two critical takeaways: One, it's not you. Two, knowledge is power, so here's what to do about it. The shortage of college-educated men is not just a big-city phenomenon frustrating women in New York and L.A. Among young college grads, there are four eligible women for every three men nationwide. This unequal ratio explains not only why it's so hard to find a date, but a host of social

issues, from the college hookup culture to the reason Salt Lake City is becoming the breast implant capital of America. Then there's the math that says that a woman's good looks can keep men from approaching her—particularly if they feel the odds aren't in their favor. Fortunately, there are also solutions: what college to attend (any with strong sciences or math), where to hang out (in New York, try a fireman's bar), where to live (Colorado, Seattle, "Man" Jose), and why never to shy away from giving an ultimatum.
