KIRKUS REVIEW Mystically powered terrorists unleash volatile magic on the world, turning Washington, D.C., into a politically charged fantasyland ripe for human sacrifice. A trio of suicide attackers with magical abilities bring down a 747 by summoning a dragon to rip it from the sky, using the hundreds of lives lost as a sacrifice to initiate the Change. The country morphs into a new landscape of swords and sorcery. Now computers and other machines are coming to life, and regular people have started to turn into mythical creatures and forgotten deities, creating a chaotic world easily seized by whoever-or whatever-set this shift into motion. Hope appears in the nation's capital where, along with transforming Democrats into potbellied elves, Republicans into cantankerous dwarves, and Tea Party members into trolls, the Change has granted struggling freelance journalist Steve Rowan the abilities of the Tarot Arcana's Fool card, making him a powerful, yet unreliable, wizard. Realizing his potential, he is "hired" by the trivia-obsessed sentient computer Barnaby and coupled with the attractive, no-nonsense female Navy SEAL Ace Morningstar to uncover the puppet masters behind the plane crash. Irving (Courier, 2014, etc.), a producer of Emmy Award-winning news television and a journalist well-acquainted with the Beltway, makes good use of cliched Washington stereotypes by mashing them together with fantasy tropes, breathing new life into political satire. ...Like many first books in a genre series, the novel foreshadows a greater enemy behind all this madness while barely hinting at its identity, offering a wonderfully bizarre consolation prize as its denouement. A clever, humorous fantasy..."

The magic treehouse takes Jack and Annie back two thousand years to ancient China where they must find the original copy of an old legend before the Imperial Library is burned down by the evil Dragon King.

The ten stories in this collection can be divided into three main categories: stories of the supernatural, stories with a political theme or adventure stories, and love stories. Supernatural events form the theme of most of the earliest stories. China had always been rich in mythology, and, after the introduction of Buddhism into the country, tales of ghosts and spirits became even more popular, so that during the Six Dynasties we find a great number of such tales. The earliest Tang story, *An Ancient Mirror*, is made up of a number of supernatural tales about an old bronze mirror. *Ren the Fox Fairy*, *The Dragon King's Daughter* and *The Spendthrift* and *The Alchemist* all belong to this category. They differ, however, from earlier stories of the same type in having more closely knit plots and more colourful detail, being, in fact, consummate works of art imbued with all the vitality of their age.

For use in schools and libraries only. The magic tree house takes Jack and Annie back two thousand years to ancient China where they must find the original copy of an old legend before the Imperial Library is burned down by the evil Dragon King.
