It was at the fifth SEEP-Conference on Economic Ethics and philosophy in autumn 1997 that the organizational work of the seventh conference in 1999 was entrusted to the editors of this volume. Prof. Peter Koslowski, series editor of The Studies in Economic Ethics and Philosophy, SEEP, expressed the hope that the SEEP-Conference be held in the Far-East for the first time would bring a new comparative

aspect to economic ethics and philosophy. Further, the agenda of economic ethics seemed to increase its significance also in Japan and other Asian countries especially due to the spread of corruption in the government and business under the financial crisis that attacked these nations in the late 1990s. Though we chose "Com petition, Trust, and Cooperation" as the general theme of the conference, this should include the collusion, distrust, and corruption as the opposite side of the medal. The conference was held on March 10-12, 1999 at the Kansai Seminar House of the Nippon Christian Academy, Kyoto, Japan. Fourteen papers were submitted to the conference. In addition to twelve papers that are printed in this volume, Prof. Ruisheng Wang (Capital Normal University, Beijing) read his paper on ethical problems in the context of Asian financial crisis and Prof. Agnar Sandmo (Norwegian School of Economics and Busi ness Administration) did the same by his paper on societal aspect of the competition promotion policy.

The husband-and-wife team's interviews with Nixon intimates, aides, cabinet members, political opponents, journalists, and critics, such as George McGovern, Alexander Haig, and John Erlichman, offer insights into the man and his administration and attempt to answer some of the questions that remain after his death. Discussion covers Nixon's entire presidency, with analysis of domestic programs and foreign affairs, the Viet Nam War, and, of course, the Watergate affair. Appendices offer a Watergate crimes roster and profiles of interviewees. Annotation copyright by Book News, Inc., Portland, OR

Classic Books Library presents this brand new edition of "The Federalist Papers", a collection of separate essays and articles compiled in 1788 by Alexander Hamilton. Following the United States Declaration of Independence in 1776, the governing doctrines and policies of the States lacked cohesion. "The Federalist", as it was previously known, was constructed by American statesman Alexander Hamilton, and was intended to catalyse the ratification of the United States Constitution. Hamilton recruited fellow statesmen James Madison Jr., and John Jay to write papers for the compendium, and the three are known as some of the Founding Fathers of the United States. Alexander Hamilton (c. 1755–1804) was an American lawyer, journalist and highly influential government official. He also served as a Senior Officer in the Army between 1799-1800 and founded the Federalist Party, the system that governed the nation's finances. His contributions to the Constitution and leadership made a significant and lasting impact on the early development of the nation of the United States.

Measuring and Modeling Persons and Situations presents major innovations and contributions on the topic, promoting deeper integration, cross-pollination of ideas across diverse academic disciplines, and the facilitation of the development of practical applications such as matching people to jobs, understanding decision making, and predicting how a group of individuals will interact with one another. The book is organized around two overarching and interrelated themes, with the first focusing on assessing the person and the situation, covering methodological advances and techniques for inferring and measuring characteristics, and showing how they can be instantiated for measurement and predictive purposes. The book's second theme presents theoretical models, conceptualizing how factors of the person and situation can help us understand the psychological dynamics which underlie behavior, the psychological experience of fit or congruence with one's environment, and changes in personality traits over time. Identifies technologies for measuring and predicting behavior Infers behavior causes from personality and/or situational variables Utilizes big data, machine learning and modeling to understand behavior Includes mobile phone, social media and wearable tech usage analysis Explores the stability of personality over time Considers behavior analysis to treat maladaptive behavior

Social safety in social environments entails the sense of feeling safe with other people. Thus, social safety and security are very important to our life. Although research in this area has made significant progress in the past few years, there are still many social problems that require attention and further development in order to secure peace of mind. There is a very clear and accurate understanding and judgment of the overall situation of social security in the current and future period. This Special Issue focuses on a number of contemporary issues in social safety and security. The objective of this book is to rapidly disseminate the latest research and knowledge in this important area.

"From master storyteller and historian H.W. Brands, twice a finalist for the Pulitzer Prize, comes the riveting story of how President Harry Truman and General Douglas MacArthur squared off to decide America's future in the aftermath of World War II. At the height of the Korean War, President Harry S. Truman committed a gaffe that sent shock waves around the world. When asked by a reporter about the possible use of atomic weapons in response to China's entry into the war, Truman replied testily, 'The military commander in the field will have charge of the use of the weapons, as he always has.' This suggested that General Douglas MacArthur, the willful, fearless, and highly decorated commander of the American and U.N. forces, had his finger on the nuclear

trigger. A correction quickly followed, but the damage was done; two visions for America's path forward were clearly in opposition, and one man would have to make way. Truman was one of the most unpopular presidents in American history. Heir to a struggling economy, a ruined Europe, and increasing tension with the Soviet Union, on no issue was the path ahead clear and easy. General MacArthur, by contrast, was incredibly popular, as untouchable as any officer has ever been in America. The lessons he drew from World War II were absolute: appeasement leads to disaster and a showdown with the communists was inevitable--the sooner the better. In the nuclear era, when the Soviets, too, had the bomb, the specter of a catastrophic third World War lurked menacingly close on the horizon. The contest of wills between these two titanic characters unfolds against the turbulent backdrop of a faraway war and terrors conjured at home by Joseph McCarthy. From the drama of Stalin's blockade of West Berlin to the daring landing of MacArthur's forces at Inchon to the shocking entrance of China into the war, *The General and the President* vividly evokes the making of a new American era"--

Covers all significant eras of global history. Encourages students to analyze evidence, documents, and other data to make informed decisions. Develops essential writing skills.

"A minor classic in its laconic, spare, compelling evocation by a participant of the shifting moods and maneuvers of the most dangerous moment in human history."—Arthur M. Schlesinger, Jr. During the thirteen days in October 1962 when the United States confronted the Soviet Union over its installation of missiles in Cuba, few people shared the behind-the-scenes story as it is told here by the late Senator Robert F. Kennedy. In this unique account, he describes each of the participants during the sometimes hour-to-hour negotiations, with particular attention to the actions and views of his brother, President John F. Kennedy. In a new foreword, the distinguished historian and Kennedy adviser Arthur Schlesinger, Jr., discusses the book's enduring importance and the significance of new information about the crisis that has come to light, especially from the Soviet Union.
