Hogan shows that God's way of managing money really works. Millionaire status doesn't require inheriting a bunch of money or having a high-paying job. The path to becoming a millionaire is paved with tools that you either already have or that you can learn. Take personal responsibility; practice intentionality; be goal-oriented, a hard worker; and be consistent. If you adopt this mindset, you, too, can become a millionaire. -- adapted from foreword and introduction You'd love to get your kids through college debt-free-but your kids aren't getting any scholarships, you haven't saved for college, and you make too much to get government financial aid. Is there still hope? Yes, but you'll need someone to guide you. In LAUNCH, academic strategist Jeannie Burlowski lays out clear, step-by-step strategies that empower parents to get their kids through high quality, best-fit colleges debt-free-and then directly into jobs they love afterward. Experts rave about LAUNCH: "The checklists at the end of each chapter in this book are fabulous. They're golden. Well worth the entire price of the book." -Bob Shorb, former associate dean of admissions and financial aid and director of student aid and family finance, Skidmore College "Students who go through college without career direction are, as Jeannie Burlowski says, 'like archers who pull the arrow back on the bow string, shoot, and then years later look around for the target.' This book helps parents set their kids up to take aim early and fire a sure shot, whether that's at medical school or at some other worthy endeavor." -Dr. Paul Amble, MD, assistant clinical professor, Yale School of Medicine "I'm a Morgan Stanley wealth management advisor, and after I read this book cover to cover I purchased 30 copies for clients. Every financial advisor needs to know the information in this book. It's valuable for all types of families—from those that think their income is too high to qualify for aid, to those that worry they'll go into debt paying for college. We utilize this book in our financial planning practice as we guide our clients to the things that matter most in their lives. If you're confused about how FAFSA works or what your kids should contribute, this book will provide clear answers. I was especially impressed with the way the book breaks down the pertinent information with chapters that align with the age of your kid. And the checklists for each chapter allow families to pick and choose the advice that best works for their family. My favorite part of the book is that it is truly a parenting book—with tips and insight for raising strong, thoughtful people who care about improving the world. The focus is on the outcome: your child becoming a successful and happy adult. If you're going to choose a financial advisor, you need to make sure that they know the specific college planning information in this book and are utilizing these ideas in their practice." -Alix Magner, financial advisor, Morgan Stanley, Minneapolis, MN "I'm a certified financial planner who cares deeply that parents are able to send their kids to college

without risking their retirement. You can be sure I'll be recommending this book every chance I get." -Mike Branch, CFP, Focus Financial, Minneapolis, MN "High school guidance counselors have a difficult time covering the intricacies of the college admission and financing process in the small amount of time they have to work with a large number of students. This book fills in all the gaps-and more-for parents." -Josie Robinson, author and former high school guidance and career counselor, White Bear Lake Area High School And here's what parents like you say about LAUNCH: "We only used a small fraction of the ideas in this book, and our daughter graduated from an excellent private university at age 20 and went straight to her dream job at Disney. "Humorous and forthright...[Gaby] Dunn makes facing money issues seem not only palatable but possibly even fun....Dunn's book delivers." —Publishers Weekly The beloved writer-comedian expands on her popular podcast with an engaging and empowering financial literacy book for Millennials and Gen Z. In the first episode of her "Bad With Money" podcast, Gaby Dunn asked patrons at a coffee shop two questions: First, what's your favorite sex position? Everyone was game to answer, even the barista. Then, she asked how much money was in their bank accounts. People were aghast. "That's a very personal question," they insisted. And therein lies the problem. Dunn argues that our inability to speak honestly about money is our #1 barrier to understanding it, leading us to feel alone, ashamed and anxious, which in turns makes us feel even more overwhelmed by it. In *Bad With Money*, she reveals the legitimate, systemic reasons behind our feeling of helplessness when it comes to personal finance, demystifying the many signposts on the road to getting our financial sh*t together, like how to choose an insurance plan or buy a car, sign up for a credit card or take out student loans. She speaks directly to her audience, offering advice on how to make that #freelancelife work for you, navigate money while you date, and budget without becoming a Nobel-winning economist overnight. Even a topic as notoriously dry as money becomes hilarious and engaging in the hands of Dunn, who weaves her own stories with the perspectives of various comedians, artists, students, and more, arguing that—even without selling our bodies to science or suffering the indignity of snobby thrift shop buyers—we can all start taking control of our financial futures.

When Harzog decided she wanted to break free from debt, she found that conventional advice about personal finance didn't work for her. Now she shares her unique debt escape plan, and shows you how to use it as the basis for your own customized debt escape plan.

#MoneyChat THE BOOK is a how to handbook that fills the gap between the financial information we all need and how we really live our financial lives. Written simply and with a sense of humor, author and financial coach Dorethia Conner Kelly explains financial terminology and complex financial concepts in easy-to-understand language. #MoneyChat THE BOOK teaches you: How to not just create a budget but prioritize one How to create an emergency fund when there's no money left over How to save toward college in under 10 years Why you should invest and where to begin How to come up with extra money when you need it without patronizing a payday-type loan establishment The best place to put your savings If you've ever read a personal finance book and nothing changed in your financial life, it's because the application of everything you were reading about was missing. This book is that missing link. Get ready to change your #MoneyChat! Striking out on your own for the first time is exhilarating. But in a culture full of bad advice, predatory banks, and splurge-now-pay-later temptations, it can also be extremely dangerous—leading you to make financial decisions that could hurt you for years to come. Combine this with a slumped economy, mounds of student loans, and dubious examples from reality TV stars to politicians to your own parents, and it's no wonder so many twenty-somethings are struggling. Twenty-three-year-old Zac Bissonnette—the author of *Debt-Free U*—knows exactly what you're going through. He demystifies the many traps young people fall victim to in their post-college years. He offers fresh insights on everything from job hunting to buying a car to saving for retirement that will give you a foundation for a secure, stable, and happy life. In the process, he reveals why FICO scores are overrated, online job applications are a waste of time, car loans are for suckers, and credit card rewards are a scam. With detours to discuss wine connoisseurs, *Really Broke Housewives*, and Lenny Dykstra, Zac shows you how to make better choices today so you can be richer, smarter (and better-looking!) for years to come.

Every parent wants the best for their child. That's why they send them to college! But most parents struggle to pay for school and end up turning to student loans. That's why the majority of graduates walk away with \$35,000 in student loan debt and no clue what that debt will really cost them.¹ Student loan debt doesn't open doors for young adults—it closes them. They postpone getting married and starting a family. That debt even takes away their freedom to pursue their dreams. But there is a different way. Going to college without student loans is possible! In *Debt-Free Degree*, Anthony O'Neal teaches parents how to get their child through school without debt, even if they haven't saved for it. He also shows parents: *How to prepare their child for college *Which classes to take in high school *How and when to take the ACT and SAT *The right way to do college visits *How to choose a major A college education is supposed to prepare a graduate for their future, not rob them of their paycheck and freedom for decades. *Debt-Free Degree* shows parents how to pay cash for college and set their child up to succeed for life.

Popular blogger Anna Newell Jones of *AndThenWeSaved.com* delivers this self-help manifesto that reveals how a "spending fast" will help you get on the road to living debt-free. In 2009, young photographer Anna Newell Jones was rapidly suffocating under the weight of too much debt. An inveterate "spender," she was in way over her head, to the tune of almost \$24,000. She knew her debt was only going to get worse if she didn't take action, but she didn't know where to look for help. On a whim, Anna decided to go on a spending fast—an idea she heard in passing but knew little about. Creating her own method, she learned what worked and what didn't and wrote about it on her blog, *AndThenWeSaved.com*. Amazingly, Anna was able to eliminate all \$23,605.10 of her debt in only 15 months! She was interviewed in *Forbes*, *Self*, *Glamour*, *Good Housekeeping*, and the *Chicago Tribune*. Anna's journey inspired people and showed them that they too could change the way they dealt with their own money woes. *The Spender's Guide To Debt-Free Living* takes readers through a detailed step-by-step plan on how to do a Spending Fast and get out of debt, including: Creating a personalized Debt-Free Life Pledge. Understanding where your money is going when you're in debt, and where it will come from to pay it off. Learning why putting money into a savings account before (or while) paying off debt may not be the best idea for you. Finding additional income sources and generating side gigs. Re-integrating spending into your life once you're out of debt, so that you stay out of debt. Filled with do-it-yourself ideas, insight from experts, and tons of motivational tips and real-life practical advice, *The Spender's Guide to Debt-Free Living* proves that you don't have to win the lottery or get a new job to change your life.

Get rid of your debt without giving up your life No one wants to be in debt. But life happens and if you've got debt, life has happened to you. Whether you have a rolling balance of \$2,000 on your credit card or an \$80,000 line of credit you are positive you will carry to your grave, debt can be a huge cause of stress—affecting both your emotional and financial wellness. After working with thousands of financial planning clients, Shannon Lee Simmons knows that your only way out of the debt cycle is to truly understand all of your spending triggers so you can shut them down for good. In *Living Debt-Free*, she shows you that it is possible to have a life and pay down debt at the same time. In fact, that's the only way your debt plan will work. You will learn to take control of your finances and pay down your debt in a realistic way that will keep you motivated long enough to see it through to the end. No shame. No blame. No scare tactics. In *Living Debt-Free*, Simmons focuses on creating a debt repayment plan that will motivate you for a long time, rather than an unrealistic one that's strictly about paying the least amount of interest charges. (Collective gasp—how dare she!?) Listen, everyone knows that paying interest on debt is bad and to be avoided as much as possible, but human beings are complex. Life is complex. Debt is complex. There cannot be a one-size-fits-all plan, so *Living Debt-Free* will help you build your plan—the one that will help you finally put the debt behind you, start fresh and feel good about your money again.

This book can save you more than \$100,000. These days, most people assume you need to pay a boatload of money for a quality college education. As a result, students and their parents are willing to go into years of debt and potentially sabotage their entire financial futures just to get a fancy name on their diploma. But Zac Bissonnette is walking proof that this assumption is not only false, but dangerous—a class con game designed to rip you off and doom your student to a post-graduation life of near poverty. From his unique double perspective—he's a personal finance expert (at Daily Finance) AND a current senior at the University of Massachusetts—Zac figured out how to get an outstanding education at a public college, without bankrupting his parents or taking on massive loans. Armed with his personal knowledge, the latest data, and smart analysis, Zac takes on the sacred cows of the higher education establishment. He reveals why a lot of the conventional wisdom about choosing and financing college is not only wrong but hazardous to you and your child's financial future. You'll discover, for instance, that: * Student loans are NOT a necessary evil. Ordinary middle class families can- and must-find ways to avoid them, even without scholarships. * College "rankings" are useless—designed to sell magazines and generate hype. If you trust one of the major guides when picking a college, you face a potential financial disaster. * The elite graduate programs accept lots of people with non-elite bachelors degrees. So do America's most selective employers. The name on a diploma ultimately won't help your child have a more successful career or earn more money. Zac can prove every one of those bold assertions - and more. No matter what your current financial situation, he has a simple message for parents: "RELAX! Your kid will be able to get a champagne education on a beer budget!"

Struggling with debt? Get realistic help that's actually useful, from Liz Weston, one of the most popular and respected personal finance experts! Today, people struggling with debt have far fewer options: lenders are stingier, which makes it harder to avert disaster, or to recover from setbacks like foreclosure, short sales, or bankruptcy. (Meanwhile, people with good credit have more options than ever, including some of the lowest interest rates in decades.) You need an up-to-date guide that can help you assess options, find help, discover opportunities, and take action that works. Liz Weston's Deal with Your Debt, Updated and Revised Edition is that guide. Weston reveals why most "conventional wisdom" about debt is just dead wrong. For most people, it's simply impractical to pay off every dime of debt, and live forever debt free. In fact, doing that can leave you a lot poorer in the long run. You're more likely to give up, or pay off the wrong debts. You could leave yourself too little flexibility to survive a financial crisis. You could neglect saving for retirement. You might even wind up in bankruptcy -- just what you're trying to avoid! For most people, it's smarter to control and manage debt effectively. In this extensively updated guide, Weston shows how to do that. You'll learn which debts can actually help build wealth over time, and which are simply toxic. You'll find up-to-date, real-world strategies for assessing and paying off debt, money-saving insights on which debts to tackle first, and crucial information about everything from debt consolidation loans to credit scores and credit counseling. Weston offers practical guidelines for assessing how much debt is safe -- and compassionate, realistic guidance if you've gone beyond the safety zone. If you've ever worried about debt, you'll find the new edition of Deal with Your Debt absolutely indispensable.

Beating the College Debt Trap presents students with a better way to do college. The radically counter-cultural truth is that students don't have to be totally dependent on Mom, Dad, or Uncle Sam to get the most out of college. Graduation on a solid financial foundation is possible. But it will require intentionality, creativity, hard work, and a willingness to delay gratification. Chediak gets into the nitty-gritty of how to get work and make money during the college years, pay off any loans quickly, spend less, save more, and stay out of debt for good. He also unpacks how to transition from college into career, honor God while achieving financial independence, and use your finances to make a positive, eternally-significant difference in the lives of others. As a young engineering professor with an aptitude for finances and money management, Chediak has become particularly concerned with the financial health of young adults, especially in light of the ever increasing costs of college. In *Beating the College Debt Trap* he helps do something about this problem. He engages, in a friendly manner, the "real world" financial issues that 17-25 year olds face, with clarity, practical help, lots of illustrations, and a little humor, while conveying a distinctly Christian perspective.
