Overthinking Stop Intrusive Thoughts and Reduce Anxiety You are not at the mercy of your thoughts. They do not exist in the real world, or anywhere else other than your mind. They only become real if you create an intention and then follow through with action. This means your fears cannot harm you, only make you uncomfortable. Say you have a concern about your health (assuming is unfounded). Your brain might be sending you messages that you are going to get sick and die, and this might cause you feelings of intense fear, which makes the event seem imminent. When this feeling takes over, stop and step back for a moment. Look at what is actually happening around you. Your mind is playing tricks on you. No matter how scary your thoughts are on the inside, come back to reality. Change your Brain Using Neuroplasticity to Retrain Your Brain for Discipline, Courage, Motivation, & Good Habits Life is full of setbacks. That isn't something we can change. What we can do is react to them in a way that works toward finding a solution for them- or not. To achieve the former, you must work for what you say you want. Think about a time you've done something with low confidence in your ability to do it, and your heart wasn't in it- for example, going into a presentation when you aren't feeling well. Now think about when you felt the opposite- feeling your best, liking the way you look, and sure that you know what you were supposed to do. In which instance was your performance better? Master Your Emotions Developing EQ, Self-Awareness, Mindfulness, & Intentional Living Through reading Master Your Emotions you will not only discover the potential for mastering your emotions, but you will also discover practical measures that you can implement today so that you can start seeing results right away! Buy your copy of Master Your Emotions today so that you can stop being overruled by your emotions, and start experiencing your emotions in a healthier way. Declutter Your Brain Retrain Your Brain & Organize Your Life If your brain is cluttered, it is nothing to be ashamed of. Everyone struggles with that at times. Think about when your room is disorganized. The answer isn't to beat yourself up about it. You just need to clean it up. You can think of your mind as a room. It is your private space that no one can access but you. With this comes the responsibility to keep it orderly because it affects every area of your life. This is an ongoing process. Just as you need to clean your bedroom regularly, you need to do the same for your mind.

“How do you handle the nightmares of life? By awakening. This book reveals how. Turn the pages and . . . Expect Miracles.” —Joe Vitale, from the Foreword After eons of inhabiting the earth, the human brain has developed into a highly functional and complex apparatus. That being said, we have come to the point where we actually believe we ARE our minds. What if you discovered that you are not your thoughts—that they are, in fact, an expression of the universal

Are you truly in danger or has your brain simply "tricked" you into thinking you are? In *The Worry Trick*, psychologist and anxiety expert David Carbonell shows how anxiety hijacks the brain and offers effective techniques to help you break the cycle of worry, once and for all. Anxiety is a powerful force. It makes us question ourselves and our decisions, causes us to worry about the future, and fills our days with dread and emotional turbulence. Based in acceptance and commitment therapy (ACT) and cognitive behavioral therapy (CBT), this book is designed to help you break the cycle of worry. Worry convinces us there's danger, and then tricks us into getting into fight, flight, or freeze mode—even when there is no danger. The techniques in this book, rather than encouraging you to avoid or try to resist anxiety, shows you how to see the trick that underlies your anxious thoughts, and how avoidance can backfire and make anxiety worse. If you're ready to start observing your anxious feelings with distance and clarity—rather than getting tricked once again—this book will show you how.

Confusion. Chatter. Chaos. Comparison. Distractions. Negativity. These are the thoughts that go through our minds every single day. The question is, how well are we managing or filtering those thoughts? The human brain is both fascinating, yet complicated at the same time. The truth is, we are in control of our lives. We're always in control but we have allowed ourselves to forget that. Negativity is such a powerful force that we have allowed ourselves to believe it is much stronger than we are. We let these unhelpful, self-limiting thoughts wander

into our minds where it continues to grow. The more we feed it, the bigger these thoughts become until the mind becomes so cluttered with thoughts, we feel like we have lost all sense of control. Too many thoughts. Too many worries. Too much rumination and stress over the things we cannot control. Too much time spent overthinking and too much mental energy focused on the wrong things. A cluttered mind is going to be of no use to you. No matter how good you may think you are at multitasking, the brain does not function that way. It was not made to function that way. Hidden from the rest of the world, mental clutter easily becomes an afterthought. Because we can't see it, we're not mindful of the way it is affecting our lives and our emotions. Oh, we can feel its effects, but we don't think to do anything about it. Like the physical clutter in your environment that is hard to avoid, mental clutter is even harder to get rid of. The mental clutter that is piling up in your brain is eventually going to start wearing you down, chipping away at your confidence and self-esteem until you don't know what to do about it anymore. Is there something that can be done about this? Yes, there is, and Declutter Your Mind is going to show you how. This guide will shed light on the following areas: The philosophy of decluttering Why we live with a cluttered mind and what causes it The steps that must be taken to declutter your mind, relationships, space and more How clutter affects you more than you know, especially your relationships How to stay present and put a stop to information overload Declutter Your Mind is full of practical, easy to follow, sensible advice that is designed to have a positive effect on your mind. As long as mental clutter exists, life will never truly be at peace. There can be no peace of mind, no clarity, no self-love, and no happiness. You are the only one who can do something to turn this around because mental clutter lives exclusively in your thoughts. No matter where you are in life today, the only way to get to where you want to be is to have a mind that is free of clutter. Decluttering is no longer a trend. It's a necessity.
