This trekking guidebook gives detailed descriptions of eight different treks across the Ladakh, Zaskar and Markha Valley in northern India. Ranging from moderate difficulty to very demanding, the treks vary between 6 to 12 days in length, each trek is broken down into multiple stages, and has information on difficulty, available accommodation and access, as well as the many combinations and alternative routes open to exploration. Trek 1: Kharnak, 148 km / 10 days. Starts in Kharu in the Indus Valley and ends in Pang, on the Manali-Leh road. Trek 2: Tsarab Chu, 174km / 12 days. Starts in Pang and ends in Padum, Zaskar. Trek 3: Darcha to Padum - the classic trek to Zaskar, 135km / 9 days. Starts in Darcha and ends in Padum. Trek 4: Round Sultanlango, 112km / 6 days. Starts in Padum and ends in Stongde, Zaskar. Trek 5: Padum to Lamayuru - the classic trek from Zaskar, 148km / 8 days. Starts in Padum and ends in Lamayuru on the Kargil-Leh road. Trek 6: Padum to Lamayuru via the Kanji La, 169km / 10 days Trek 7: Alchi - a circuit over five passes, 98km / 8 days. Starts in Alchi in the Indus Valley and ends in Phanjila, Wanla, Lamayuru, Nurla or Mangyu Trek 8: Markha Valley, 113km / 9 days. Starts in Spituk, southwest of Leh and ends in Hemis near the Indus Valley Known as Little Tibet; for both its landscape and culture, Ladakh lies at the northern tip of India. The region is bisected by the great River Indus and neighbours Tibet and Kashmir. This quiet corner of the Himalaya has developed a strong trekking culture over recent years for adventurous trekkers. Trekking in this remote, high-altitude region is extremely challenging, as paths are not signed and there are only a limited number of villages. However, its magnificent landscape (a huge area full of limitless trekking possibilities), hospitable people, rich heritage and limited number of tourists make Ladakh an amazing destination. The guide includes background information on local culture, history and religion, as well as all the planning detail you need on crucial aspects such as environmental responsibility, health and safety in the mountains, trekking practicalities and preparation for altitude.

This book presents fundamental and applied research aimed at the development of smart cities across India. Based on the exploration of an extensive array of multidisciplinary literature, this book discusses critical factors of smart city initiatives: management and organization, technology, governance, policy, people and communities, economy, infrastructure, and natural environment. These factors are broadly covered under the integrative framework of the book to examine the vision and challenges of smart city initiatives. The book suggests directions and agendas for smart city research and outlines practical implications for government professionals, students, research scholars and policy makers. A lot of work is happening on smart cities as it is an upcoming area of research and development. At international level, and even in India, the concept of smart cities concept is a hot topic at universities, research centers, ministries, transport departments, civic bodies, environment, energy and disaster organizations, town planners and policy makers. This book provides ideas and information to government officials, investors, experts and research students.

Karmayogi is the dramatic and inspiring story of E. Sreedharan, the much-admired engineer and technocrat who won accolades for finishing the Delhi Metro project within budget and on time, in the face of severe constraints. Known for his efficiency and discipline and regarded the world over for his productivity standards, Sreedharan has, surprisingly, never spent more than the eight-hour workday in office. This fascinating book looks back on an extraordinary career full of sterling achievements-Sreedharan's years with the Railways, the building of the Kolkata Metro and the Konkan Railway, followed by the Delhi Metro, and the many metro projects he is involved with now. Translated from a bestselling biography in Malayalam, this is the uplifting story of a very private person who has become an icon of modern India because of his uncompromising work ethic.

The rapid growth of the Asian urban population concentrates on a few large cities, turning them into giant megacities. Despite new theoretical insights into the benefits of megacities, the emerging Asia is facing a daunting challenge concerning the management of infrastructure and services in their megacities. The deteriorating urban mobility is the most difficult challenge with respect to the sharp increase in vehicle numbers and to inadequate and poorly managed road infrastructure. Public transport, a sustainable mode of mobility, is subjected to a vicious cycle of poor service, decreasing ridership and lower investment. Despite various policy initiatives, the situation has not improved. The scale and growth pattern of Asian megacities have distinctive features which generate a unique set of challenges and opportunities. New perspectives are needed to effectively address the transportation problems making the best use of available opportunities. This book, which is a result of an international collaborative research, addresses these challenges by providing insightful analysis and novel viewpoints.
