Forget the Glass Ceiling: Build Your Business Without One

Vols. for 1910-56 include convention proceedings of various insurance organizations.

Final issue of each volume includes table of cases reported in the volume.

Business models adopted by insurance companies; and comparative analysis of double tax treaty policies adopted in a number of countries with respect to the permanent establishment provision in the insurance business, highlighting Switzerland for comparative purposes. In a concluding chapter, the author proposes changes to the definition of the dependent agent permanent establishment currently enshrined in the model treaties and their respective commentaries, aligning such a definition to the regulatory framework in which insurance companies conduct their business in countries other than that of incorporation. As a highly significant and timely contribution to the study of the interplay between insurance regulation and tax implications, this very original work will prove of especial value to practitioners in international tax and insurance law, as well as professionals in the financial services sector and tax academics.

Originally published in 1996, Urban Land and Property Markets describes the intricacies of the Italian urban planning system, and the interconnections between the property sector, the national economy, and recent historical developments, including the new challenges facing Italy after the early 1990s collapse of the party system. The book's underlying thesis is that property values are ultimately created by urban planning and investment in infrastructure. Negotiations between local government and developers focus on three basic issues: the ultimate use of urban land, the quantitative control of development via planning permissions relating to city master plans, and the nature of public investment to support growth and property values.

Information technology professionals will gain invaluable information with this updated resource on how to connect concepts to key business areas. These areas include accounting, finance, marketing, management, human resources, and operations. The new edition provides concise and accessible coverage of core IT topics. Do It Yourself activities show them how to apply the information on the job. Technology professionals will then be able to discover how critical IT is to each functional area and every business. This fifth edition of the best-selling Marketing Book has been extensively updated to reflect changes and trends in current marketing thinking and practice. Taking into account the emergence of new subjects and new authorities, Michael Baker has overhauled the contents and contributor lists of the previous edition to ensure this volume addresses all the necessary themes for the modern marketer. In particular, the 'Marketing Book' now broaches the following 'new' topics: \* Channel management - management of the supply chain \* Customer Relationship Management \* Direct marketing \* E-marketing \* Integrated marketing communications \* measurement of marketing effectiveness \* Postmodern and retro-marketing \* Relationship marketing \* Retailing Like its predecessors, the 'Marketing Book 5th edition' is bursting with salient articles from some of the best known academics in the field. It amounts to an all-embracing one-volume companion to modern marketing thought, ideal for all students of marketing.

InfoWorld is targeted to Senior IT professionals. Content is segmented into Channels and Topic Centers. InfoWorld also celebrates people, companies, and projects.

The second edition of Historical Dictionary of the Civil Rights Movement is a guide to the history of the African-American struggle for equal rights in the United States. This dictionary has over 500 cross-referenced entries on important personalities, significant legal cases, local struggles, forgotten heroes, and prominent women in the Movement.

A book about management, described by guru Peter Drucker as 'a first rate as an introduction for the non-manager and especially for the beginner, but equally excellent as a rounded, complete, and comprehensive `refresher course' for the most experienced executive.' Both a beginner's guide and a bible for one of the greatest social innovations of modern times: the discipline of management. Leading business editor Joan Magretta distils the wisdom of a bewildering sea of books and articles into one simple, clear volume, explaining both the logic of successful organisations and how that logic is embodied in practice by management. Newcomers will find the basics demystified. More experienced managers will recognise a store of useful wisdom and a framework for improving their own performance. In general, the book defines a common standard of managerial literacy that will help all of us to lead more effectively.

This packet contains a textbook, an instructor's guide, and a student workbook for a course on conducting financial investigations to detect and solve crimes. The topics covered in the 11 chapters of the textbook and the ancillaries are the following: (1) why financial investigation?; (2) laws related to financial crimes; (3) evidence; (4) sources of information; (5) financial institutions as sources of information; (6) tracing the movement of money through a business; (7) tracing funds using the direct method of proof; (8) tracing funds using indirect methods of proof; (9) planning, conducting, and recording an interview; (10) investigative techniques; and (11) money laundering and forfeitures. The text also contains responses to end-of-chapter questions, a glossary, and two appendixes listing selected sources of information and American Bankers Association numbers of cities and states and Federal Reserve districts. The instructor's guide provides materials for each chapter, including preparation requirements, instructor notes and presentation outline, and an appendix containing exercise feedback sheets, case studies, role-play scenarios, chapter transparencies, and supplemental chapter information. The guide also includes a bank of tests and quizzes. The student workbook contains supporting and supplemental materials to the textbook content including: introductions to each of the

chapters, individual and group skill exercises, information sheets, case studies, and worksheets. (KC)

"Economists and research findings concur that women entrepreneurs are an untapped force that can rekindle economic expansion, providing a stream of companies that are innovative, market expanding, export oriented and job creating"--from Dell.com.

ACCA Approved and valid for exams from 01 Sept 2017 up to 30 June 2018 - Becker's P5 Advanced Performance Management Study Text has been approved and quality assured by the ACCA's examining team.

From Michael Dell, renowned founder and chief executive of one of America's largest technology companies, the inside story of the battles that defined him as a leader In 1984, soon-to-be college dropout Michael Dell hid signs of his fledgling PC business in the bathroom of his University of Texas dorm room. Almost 30 years later, at the pinnacle of his success as founder and leader of Dell Technologies, he found himself embroiled in a battle for his company's survival. What he'd do next could ensure its legacy--or destroy it completely. Play Nice But Win is a riveting account of the three battles waged for Dell Technologies: one to launch it, one to keep it, and one to transform it. For the first time, Dell reveals the highs and lows of the company's evolution amidst a rapidly changing industry--and his own, as he matured into the CEO it needed. With humor and humility, he recalls the mentors who showed him how to turn his passion into a business; the competitors who became friends, foes, or both; and the sharks that circled, looking for weakness. What emerges is the long-term vision underpinning his success: that technology is ultimately about people and their potential. More than an honest portrait of a leader at a crossroads, Play Nice But Win is a survival story proving that while anyone with technological insight and entrepreneurial zeal might build something great--it takes a leader to build something that lasts.

The Founder of JetBlue. The former CEO of Dell Computers. The CEO of Deloitte & Touche. The former Dean of the Harvard Business School. They all have one thing in common. They are devout Mormons who spend their Sundays exclusively with their families, never work long hours, and always put their spouses and children first. How do they do it? Critically acclaimed author and investigative journalist Jeff Benedict (a Mormon himself) examines these highly successful business execs and discovers how their beliefs have influenced them, and enabled them to achieve incredible success. With original interviews and unparalleled access, Benedict shares what truly drives these individuals, and the invaluable life lessons from which anyone can benefit. A thorough explanation of human investment options from which an executive can make a better decision. -- Jac Fitz-enz, from the Foreword
