

Department 48 Farm Stock Tractor Antique Tractor Pulling

Contains numbered sub-series of various institutes and stations.

A tractor is more than a piece of farm machinery. It's farmer's partner that helps him get the hard work done. This dynamic picture book shows a big tractor from spring to harvest—planting, cultivating, harvesting, and doing other important tasks on a busy farm. Bold illustrations, coupled with a simple and lyrical text, show a tractor at work throughout the seasons.

Air Emissions from Animal Feeding Operations: Current Knowledge, Future Needs discusses the need for the U.S. Environmental Protection Agency to implement a new method for estimating the amount of ammonia, nitrous oxide, methane, and other pollutants emitted from livestock and poultry farms, and for determining how these emissions are dispersed in the atmosphere. The committee calls for the EPA and the U.S. Department of Agriculture to establish a joint council to coordinate and oversee short - and long-term research to estimate emissions from animal feeding operations accurately and to develop mitigation strategies. Their recommendation was for the joint council to focus its efforts first on those pollutants that pose the greatest risk to the environment and public health.

June and Dec. issues contain listings of periodicals.

A visit to a family farm with a special tractor brings back memories for a grandfather who shares them with his grandson. Grandpa Joe takes his grandson Timmy back to the site of his family's farm, where the old house and a ramshackle barn still stand. The visit stirs up memories for Grandpa Joe—in particular, the majesty of his own father's shiny red tractor, now rusting in the forgotten fields. An ideal gift, this picture book evokes nostalgia while demonstrating a special bond between a grandparent and grandchild.

This Storey BASICS® title offers exactly what you need to know to keep your small farm's equipment in good working order. Long-time farmers Steve and Ann Larkin Hansen cover everything from tractors and mowers to trimmers, tillers, ATVs, plows, discs, drills, planters, cultivators, mechanical rakes, and balers, showing you how to care for your equipment to prevent problems and how to diagnose and fix the things that do go wrong.
