The quality and testing of materials used in construction are covered by reference to the appropriate ASTM standard specifications. Welding of reinforcement is covered by reference to the appropriate AWS standard. Uses of the Code include adoption by reference in general building codes, and earlier editions have been widely used in this manner. The Code is written in a format that allows such reference without change to its language. Therefore, background details or suggestions for carrying out the requirements or intent of the Code portion cannot be included. The Commentary is provided for this purpose. Some of the considerations of the committee in developing the Code portion are discussed within the Commentary, with emphasis given to the explanation of new or revised provisions. Much of the research data referenced in preparing the Code is cited for the user desiring to study individual questions in greater detail. This book is the first of a new series which will present the proceedings of the newly established Nestlé Nutrition Workshop Series: Clinical & Performance Programme aimed at adult nutrition. Undernutrition is a common phenomenon in elderly people, and malnutrition reaches significant levels in those being in hospital, nursing homes or home care programs. Consequences of malnutrition often go unrecognised owing to the lack of specific validated instruments to assess nutritional status in frail elderly persons. The Mini Nutritional Assessment (MNA) provides a single, rapid assessment of nutritional status in the elderly of different degrees of independence, allowing the prevalence of protein-energy malnutrition to be determined and to evaluate the efficacy of nutritional intervention and strategies. Easy, quick and economical to perform, it enables staff to check the nutritional status of elderly people when they enter hospitals or institutions and to monitor changes occurring during their stay. Moreover, the MNA is predictive of the cost of care and length of stay in hospital. This publication will be of immense assistance to heads of geriatric teaching units, teachers in nutrition, clinicians general practitioners and dieticians, enabling them to better detect, recognise and start treatment of malnutrition in the elderly.

Do you ever feel like a second-class citizen in this world? Do you wonder how God could possibly use you to change lives? For women in Bible times, these weren't even questions they thought about. Being overlooked, marginalized, having your contributions discounted because you're a woman...it's just the way things were. In this 10-lesson workbook, Max Lucado tells some of his favorite accounts of women in Scripture and the remarkable way God broke down cultural barriers to use them in the unfolding of His story. You will discover... Sarah, the woman whom God promised would give birth to a nation, but who tried to rush things when God's promises didn't seem to be coming to pass. Rahab, a prostitute in the Canaanite city of Jericho, who would save herself and her family through her faith in the one true God of the Israelites. Abigail, a woman forced to play peacemaker by the barbaric behavior of her husband. Esther, a young queen whom God placed in the Persian court for "such a time as this" to prevent the genocide of the Jewish people. Mary, the young virgin pledged to Joseph, whom God would choose to give birth to Jesus, the promised Messiah who would save the world. The Samaritan Woman, who would meet this Messiah at a well one day. His words would forever after change her life. The Canaanite Woman, who made God smile with her wit and faith, and who received from Jesus an answer to her prayer. Mary of Bethany, a friend of Jesus who witnessed the resurrection of her brother, Lazarus, and then anointed Christ in anticipation of his death and resurrection. Mary Magdalene, who followed Jesus despite the injustice of a world that judged her for her past and said she would always be considered a failure. Sapphira, a woman in the early church who, along with her husband, made the unfortunate (and deadly) decision to lie to the Holy Spirit. These stories show us there is a God who sees us where we are and loves us for who we are. He is the one who hovers over all the pages of the Bible, shaping lives, rescuing hearts, healing sicknesses, raising what was dead to life, and passing out high callings to those who choose to follow him and have faith in him. Each lesson includes: 5 Daily in-depth Bible studies to help you explore the stories in Scripture Daily points to remember to help you summarize the key points Daily prayers to help you focus your thoughts and move into your quiet time Weekly memory verses to help you hide God's word in your heart Additional notes to help you lead a group through the study Ten Women of the Bible is a standalone workbook, ideal for both individual use and for study in a small-group setting.

Demetrio Macías is compelled to defend his home from attacks by the Federales who serve Mexico's hated dictator. Forced into a fugitive existence, he encounters a rebel band and becomes their charismatic leader, shaping the vagabonds into a dynamic guerrilla force. The unit is further strengthened by an unlikely ally, the aristocratic intellectual Luis Cervantes, whose revulsion at the country's rampant social injustice has turned him against the government. But the escalating violence and harsh realities of war erode Demetrio's and Cervantes' idealism, undermining their alliance and leading to their ultimate disillusionment. Mexican author and physician Mariano Azuela González (1873–1952) drew upon his experiences as a medic with Villa's troops to create this iconic work of Latin American literature. Prized for its authentic representation of Mexican peasant life, the novel offers a timeless portrayal of revolutionary zeal and disenchantment.
