'Refreshing, heartfelt and humble...a game changer in promoting positive mental health' Sarah Turner, bestselling author of THE UNMUMSY MUM There's a damaging misconception in society that putting ourselves first is an act of selfishness. But self-care is not just a millennial buzzword. Without the restorative power of self-care, how will we ever escape the vicious circle where we're sick and fed-up of feeling sick and fed-up? Self-care is a tool, accessible to us all, which helps us to take responsibility for our own happiness - our physical, emotional, psychological and social needs.

Jayne Hardy, founder and CEO of The Blurt Foundation, argues that it is the best preventative measure available to us to combat overwhelmedness, stress and ill health, in our hectic, modern world. The Self-Care Project is for those who have been feeling off-kilter for a while but have not been able to put the finger on the 'why'. It is a no-nonsense, practical journey to help you do just that. It'll walk you through the case for self-care (why it's so darn important), why it isn't selfish at all, help you explore what self-care means for you, what your obstacles might be and provide advice on how to chisel out daily space for self-care in a practical, achievable and realistic way. When one of their friends mysteriously disappears, a group of teens are forced to confront the challenges and secrets of their lives in this edgy and suspenseful coming-of-age tale from international supermodel, actress, and social media darling Cara Delevingne. Among the students of Thames Comprehensive, Red, Leo, Rose, and Naomi are misfits—outsiders who have found a safe haven in music and their band, Mirror, Mirror. For these sixteen year olds, fitting in at school is nearly as difficult as navigating their complicated home lives. Red has an alcoholic mother and a father who's never around. Leo's brother is in prison. Rose uses sex and alcohol to numb the pain of a brutal attack. Naomi's punk rock princess persona gives her the freedom to be her true self. When Naomi mysteriously vanishes and then is found unconscious, her friends are shaken and confused. Could it have been an accident—or did someone deliberately try to hurt Naomi? If she was in trouble, why didn't she turn to them? How well do they really know their bandmate—and each other? If Naomi wakes up from her coma, will she ever be the same? To understand what happened to Naomi, Red, Leo, and Rose must ultimately face their own dark secrets and fears, and reconcile the difference between what they feel inside and what they show to the world. Cara Delevingne reveals another facet of her amazing talent with this powerful novel about identity, sexuality, gender, emotional pain, the complicated world of social media, and the dangerous weight of appearances that are not what they seem.

An unprecedented behind-the-scenes portrait of the Trump presidency from the anonymous senior official whose first words of warning about the president rocked the nation's capital. On September 5, 2018, the New York Times published a bombshell essay and took the rare step of granting its writer anonymity. Described only as "a senior official in the Trump administration," the author provided eyewitness insight into White House chaos, administration instability, and the people working to keep Donald Trump's reckless impulses in check. With the 2020 election on the horizon, Anonymous is speaking out once again. In this book, the original author pulls back the curtain even further, offering a first-of-its-kind look at the president and his record -- a must-read before Election Day. It will surprise and challenge both Democrats and Republicans, motivate them to consider how we judge our nation's leaders, and illuminate the consequences of re-electing a commander in chief unfit for the role. This book is a sobering assessment of the man in the Oval Office and a warning about something even more important -- who we are as a people.

#1 Wall Street Journal bestseller! Jon Acuff, New York Times best-selling author of *Do Over*, *Quitter*, and *Start*, offers strategies for anyone who's ever wondered, "Why can't I finish what I started?" According to studies, 92 percent of New Year's resolutions fail. You've practically got a better shot at getting into Juilliard to become a ballerina than you do at finishing your goals. For years, I thought my problem was that I didn't try hard enough. So I started getting up earlier. I drank enough energy drinks to kill a horse. I hired a life coach and ate more superfoods. Nothing worked, although I did develop a pretty nice eyelid tremor from all the caffeine. It was like my eye was waving at you, very, very quickly. Then, while leading a thirty-day online course to help people work on their goals, I learned something surprising: The most effective exercises were not those that pushed people to work harder. The ones that got people to the finish line did just the opposite— they took the pressure off. Why? Because the sneakiest obstacle to meeting your goals is not laziness, but perfectionism. We're our own worst critics, and if it looks like we're not going to do something right, we prefer not to do it at all. That's why we're most likely to quit on day two, "the day after perfect"—when our results almost always underperform our aspirations. The strategies in this book are counterintuitive and might feel like cheating. But they're based on studies conducted by a university researcher with hundreds of participants. You might not guess that having more fun, eliminating your secret rules, and choosing something to bomb intentionally works. But the data says otherwise. People who have fun are 43 percent more successful! Imagine if your diet, guitar playing, or small business was 43 percent more successful just by following a few simple principles. If you're tired of being a chronic starter and want to become a consistent finisher, you have two options: You can continue to beat yourself up and try harder, since this time that will work. Or you can give yourself the gift of done.

For fans of *The Hunger Games*, *Battlestar Galactica*, and *Blade Runner* comes the first book in the *Partials Sequence*, a fast-paced, action-packed, and riveting sci-fi teen series, by acclaimed author Dan Wells. Humanity is all but extinguished after a war with *Partials*—engineered organic beings identical to humans—has decimated the population. Reduced to only tens of thousands by a weaponized virus to which only a fraction of humanity is immune, the survivors in North America have huddled together on Long Island. But sixteen-year-old Kira is determined to find a solution. As she tries desperately to save what is left of her race, she discovers that the survival of both humans and *Partials* rests in her attempts to answer questions about the war's origin that she never knew to ask. Playing on our curiosity of and fascination with the complete collapse of civilization, *Partials* is, at its heart, a story of survival, one that explores the individual narratives and complex relationships of those left behind, both humans and *Partials* alike—and of the way in which the concept of what is right and wrong in this world is greatly dependent on one's own point of view. Longlisted for the National Book Award for Young People's Literature! From the New York Times and USA Today bestselling author of the Shatter Me series comes a powerful, heartrending contemporary novel about fear, first love, and the devastating impact of prejudice. It's 2002, a year after 9/11. It's an extremely turbulent time politically, but especially so for someone like Shirin, a sixteen-year-old Muslim girl who's tired of being stereotyped. Shirin is never surprised by how horrible people can be. She's tired of the rude stares, the degrading comments—even the physical violence—she endures as a result of her race, her religion, and the hijab she wears every day. So she's built up protective walls and refuses to let anyone close enough to hurt her. Instead, she drowns her frustrations in music and spends her afternoons break-dancing with her brother. But then she meets Ocean James. He's the first person in forever who really seems to want to get to know Shirin. It terrifies her—they seem to come from two irreconcilable worlds—and Shirin has had her guard up for so long that she's not sure she'll ever be able to let it down.

Is it possible to heal by thought alone—without drugs or surgery? The truth is that it happens more often than you might expect. In You Are the Placebo, Dr. Joe Dispenza shares numerous documented cases of those who reversed cancer, heart disease, depression, crippling arthritis, and even the tremors of Parkinson's disease by believing in a placebo. Similarly, Dr. Joe tells of how others have gotten sick and even died the victims of a hex or voodoo curse—or after being misdiagnosed with a fatal illness. Belief can be so strong that pharmaceutical companies use double- and triple-blind randomized studies to try to exclude the power of the mind over the body when evaluating new drugs. Dr. Joe does more than simply explore the history and the physiology of the placebo effect. He asks the question: "Is it possible to teach the principles of the placebo, and without relying on any external substance, produce the same internal changes in a person's health and ultimately in his or her life?" Then he shares scientific evidence (including color brain scans) of amazing healings from his workshops, in which participants learn his model of personal transformation, based on practical applications of the so-called placebo effect. The book ends with a "how-to" meditation for changing beliefs and perceptions that hold us back—the first step in healing. You Are the Placebo combines the latest research in neuroscience, biology, psychology, hypnosis, behavioral conditioning, and quantum physics to demystify the workings of the placebo effect . . . and show how the seemingly impossible can become possible.
