#1 NEW YORK TIMES BESTSELLER • Brené Brown has taught us what it means to dare greatly, rise strong, and brave the wilderness. Now, based on new research conducted with leaders, change makers, and culture shifters, she's showing us how to put those ideas into practice so we can step up and lead. Look for Brené Brown's new podcast, *Dare to Lead*, as well as her ongoing podcast *Unlocking Us!* **NAMED ONE OF THE BEST BOOKS OF THE YEAR BY BLOOMBERG** Leadership is not about titles, status, and wielding power. A leader is anyone who takes responsibility for recognizing the potential in people and ideas, and has the courage to develop that potential. When we dare to lead, we don't pretend to have the right answers; we stay curious and ask the right

questions. We don't see power as finite and hoard it; we know that power becomes infinite when we share it with others. We don't avoid difficult conversations and situations; we lean into vulnerability when it's necessary to do good work. But daring leadership in a culture defined by scarcity, fear, and uncertainty requires skill-building around traits that are deeply and uniquely human. The irony is that we're choosing not to invest in developing the hearts and minds of leaders at the exact same time as we're scrambling to figure out what we have to offer that machines and AI can't do better and faster. What can we do better? Empathy, connection, and courage, to start. Four-time #1 New York Times bestselling author Brené Brown has spent the past two decades studying the emotions and experiences that give meaning to our lives, and the past seven years working with transformative leaders and teams spanning the globe. She found that leaders in organizations ranging from small entrepreneurial startups and family-owned businesses to nonprofits, civic organizations, and Fortune 50 companies all ask the same question: How do you cultivate braver, more daring leaders, and how do you embed the value of courage in your culture? In this new book, Brown uses research, stories, and examples to answer these questions in the no-BS style that millions of readers have come to expect and love. Brown writes, "One of the most important findings of my career is that daring leadership is a collection of four skill sets that are 100 percent teachable, observable, and measurable. It's learning and unlearning that requires brave work, tough conversations, and showing up with your whole heart. Easy? No. Because choosing courage over comfort is not always our default. Worth it? Always. We want to be brave with our lives and our work. It's why we're here." Whether you've read *Daring Greatly* and *Rising Strong* or you're new to Brené Brown's work, this book is for anyone who wants to step up and into brave leadership.

If you have ever waded through a rambling case summary, a jargon-heavy program description, or a poorly organized training manual, you are aware of how important it is for human service agencies' written materials to be clear and concise. Whether in print or electronic format, most agencies must provide information to a variety of audiences. Ames and FitzGerald have developed a guide to help human service professionals clearly communicate valuable information to board members, funding sources, volunteers, and—perhaps most importantly—clients with limited literacy skills. The book highlights how readers can apply readability guidelines to improve all of the print and electronic materials agencies use to communicate with internal and external audiences. Whether creating a brochure, sending an email, writing a grant, or documenting case records, human service professionals can make their messages clear and understandable by following the guide's simple rules and practical suggestions. This book is a brief primer of essential helping skills for students and professionals in the helping professions. The book contains a brief chapter on theory that provides an overview of the language used in therapy as well as the various approaches used by helping professionals. It then covers the core skills, standard interventions, nature of relationships, developing rapport, as well as important issues regarding assessment and formulating a diagnosis.

This book presents a three-stage model of helping, grounded in 25 years of research, that can be used to assist individuals who are struggling with emotional or transitional difficulties. To master the skills they need to lead clients through the Exploration, Insight, and Action stages, students are given both theoretical guidance and opportunities for formulating solutions to hypothetical clinical problems. Grounded in client-centered, psychoanalytic, and cognitive-behavioral theory, this book offers an integrative approach. Tables and lists supplement the text, along with clinical examples.--From publisher's description.
