In the late nineteenth century, as cities like Boston and New York grew more congested, the streets became clogged with plodding, horse-drawn carts. When the great blizzard of 1888 crippled the entire northeast, a solution had to be found. Two brothers from one of the nation's great families—Henry Melville Whitney of Boston and William Collins Whitney of New York—pursued the dream of his city digging America's first subway, and the great race was on. The competition between Boston and New York played out in an era not unlike our own, one of economic upheaval, life-changing innovations, class warfare, bitter political tensions, and the question of America's place in the world. *The Race Underground* is peopled with the famous, like Boss Tweed, Grover Cleveland and Thomas Edison, and the not-so-famous, from brilliant engineers to the countless "sandhogs" who shoveled, hoisted and blasted their way into the earth's crust, sometimes losing their lives in the construction of the tunnels. Doug Most chronicles the science of the subway, looks at the centuries of fears people overcame about traveling underground and tells a story as exciting as any ever ripped from the pages of U.S. history. *The Race Underground* is a great American saga of two rival American cities, their rich, powerful and sometimes corrupt interests, and an invention that changed the lives of millions.

For many, "Greece" is synonymous with "ancient Greece," the civilization that gave us much that defines Western culture today. But, how did Greece come to be

so powerfully attached to the legacy of the ancients in the first place and then define an identity for itself that is at once Greek and modern? This book reveals the remarkable achievement, during the last three hundred years, of building a modern nation on the ruins of a vanished civilization—sometimes literally so. This is the story of the Greek nation-state but also, and more fundamentally, of the collective identity that goes with it. It is not only a history of events and high politics; it is also a history of culture, of the arts, of people, and of ideas. Opening with the birth of the Greek nation-state, which emerged from encounters between Christian Europe and the Ottoman Empire, Roderick Beaton carries his story into the present moment and Greece's contentious post-recession relationship with the rest of the European Union. Through close examination of how Greeks have understood their shared identity, Beaton reveals a centuries-old tension over the Greek sense of self. How does Greece illuminate the difference between a geographically bounded state and the shared history and culture that make up a nation? A magisterial look at the development of a national identity through history, *Greece: Biography of a Modern Nation* is singular in its approach. By treating modern Greece as a biographical subject, a living entity in its own right, Beaton encourages us to take a fresh look at a people and culture long celebrated for their past, even as they strive to build a future as part of the modern West. Basic rhythms, variations, fill-ins, short solos for the bolero, cha-cha, merengue, mambo, guaracha, rumba, modern jazz and more.

Global Beat Fusion The History of the Future of Music Words & Pix by Derek Beres Foreword by Ajay Naidu "Derek Beres is part reporter and part prophet standing in the middle of the eye of the World Music storm that is raining new musical genres on the Earth today, each one fused by the love of song and spirit." -Krishna Das, kirtan artist "I met Derek Beres as a writer interested in shedding light on what was happening in the world of future music. I know him now as a major force pushing this scene in all directions. He has gone so far deep inside that he has become exactly what he writes

about. He will forget to write one chapter of this book and that is the one about himself." -Karsh Kale, tabla player/DJ/producer "Derek Beres is a modern-day shaman. He knows new hybrids of electronic and non-Western music deliver the same ecstatic release as ancient tribal rituals of so-called primitive societies, and that the implications go far beyond an ambient groove. For Beres, the fusion of technology and ritual, the reconciliation of mind, body and spirit that electronic world music represents, is not just the cutting edge of modern entertainment but the early stages of a numinous revolution in American culture. In Global Beat Fusion he explains why music is the new religion, and how, in one sense or another, we are all destined to become believers." -Guy Garcia, author of *The New Mainstream: How the Multicultural Consumer is Transforming American Business* For exclusive interviews, pictures, events artist info and more visit [www.globalbeatfusion.com](http://www.globalbeatfusion.com) Cover artwork by Craig Anthony Miller [www.craiganthonymiller.com](http://www.craiganthonymiller.com) Outside the Box Publishing [www.otbpublishing.com](http://www.otbpublishing.com) The first insider account of an ancient and secretive tradition • By the first foreigner to become a member, and later an elder, of the Juna Akhara, the oldest and largest grouping of Naga Babas • Filled with true accounts of magic, miracles, ghosts, and austerities • With lessons on Hindu gods, ayurveda, and Indian culture woven throughout After traveling

at age 18 from his native California to India in 1969, Rampuri was drawn to the Naga Babas, an ancient and wild order of naked yogis whom he calls the “Hell’s Angels of Indian Spirituality.” Organized into a sect by Adi Shankara in the 5th century BC, the Naga Babas see themselves as the ultimate protectors of the Sanatan Dharma, or what we call the Hindu religion. Rampuri became a disciple of a Naga Baba--a master shaman sadhu--from Rajasthan and, as foretold by astrological prophecy, soon found himself the first foreigner to become an initiate of the Juna Akhara, the oldest and largest grouping of Naga Babas with more than 50,000 sadhu members. From drinking the “Nectar of Immortality” at the source of the Ganges River to allegations of tantric murder, this autobiography is filled with true accounts of magic, miracles, ghosts, and austerities, with lessons on Hindu gods, ayurveda, mantra, and Indian culture woven throughout. Through his journey of extremes, Rampuri takes us into the mystic heart of India.
