Hot for the rock . . . If her old-fashioned family had never left Morocco, Michelle Benamou would have been in big trouble, being almost thirty and nowhere near married. Luckily, in the hardy multicultural stew of New York City, she's been able to follow her other dreams, working her way up from broadcast news producer to on-air reporter. Still, there's something sparkly missing from the ring finger of her left hand. . .

Michelle thinks maybe her sexy, ex-Marine boyfriend can provide it -- until Joe abruptly tells her adios. Her old friend Benny from the Bronx is an intriguing possibility -- but he's out in L.A. . . . and not quite divorced. It's tough for a sexy, very modern urban woman to follow the traditional calls of the marriage muezzins to matrimony -- especially when the rest of her life starts racing rapidly downhill. Suddenly in desperate need of an affordable new Manhattan apartment (an oxymoron), and quite possibly a new career (a catastrophe), Michelle's got other worries besides finding passionate love sealed with an "I do." But a diamond is just coal, after all, until it's forged by fire and time. And sometimes something precious, strong, dazzling, and enduring can turn up when you least expect it . . .

Dr. No: Dispatched by M to investigate the mysterious disappearance of MI6's Jamaica station chief, Bond was expecting a holiday in the sun. But when he discovers a deadly centipede placed in his hotel room, the vacation is over. On this island, all suspicious activity leads inexorably to Dr. Julius No, a reclusive megalomaniac with steel pincers for hands. To find out what the good doctor is hiding, 007 must enlist the aid of local fisherman Quarrel and alluring beachcomber Honeychile Rider. Together they will combat a local legend the natives call "the Dragon," before Bond alone must face the most punishing test of all: an obstacle course — designed by the sadistic Dr. No himself — that measures the limits of the human body's capacity for agony.

Casino Royale: In the novel that introduced James Bond to the world, Ian Fleming's agent 007 is dispatched to a French casino in Royale-les-Eaux. His mission? Bankrupt a ruthless Russian agent who's been on a bad luck streak at the baccarat table. One of SMERSH's most deadly operatives, the man known only as "Le Chiffre," has been a prime target of the British Secret Service for years. If Bond can wipe out his bankroll, Le Chiffre will likely be "retired" by his paymasters in Moscow. But what if the cards won't cooperate? After a brutal night at the gaming tables, Bond soon finds himself dodging would-be assassins, fighting off brutal torturers, and going all-in to save the life of his beautiful female counterpart, Vesper Lynd. Taut, tense, and effortlessly stylish, Ian Fleming's inaugural James Bond adventure has all the hallmarks that made the series a touchstone for a generation of readers.

Diamonds are Forever: An international diamond-smuggling pipeline has opened up and the British Treasury wants to know who's controlling it. Impersonating a captured courier named Peter Franks, Bond infiltrates the criminal ring and finds an unlikely ally in Tiffany Case, a gorgeous American with a dark past. As the ring's stateside go-

between, she may be just another link in the chain, but Tiffany is also Bond's best shot at finding the elusive figure at the head of the operation—a syndicate boss known only by the initials “ABC.” But if Bond's cover gets blown, he'll find that the only thing harder than a diamond is surviving the payback of a pair of murderous henchmen. With a sparkling trail of smuggled gems as bait, *Diamonds Are Forever* leads Bond on a globe-hopping mission where deadly assassins lurk behind every corner.

First discovered in 1930, the diamonds of Sierra Leone have funded one of the most savage rebel campaigns in modern history. These "blood diamonds" are smuggled out of West Africa and sold to legitimate diamond merchants in London, Antwerp, and New York, often with the complicity of the international diamond industry.

Eventually, these very diamonds find their way into the rings and necklaces of brides and spouses the world over. Blood Diamonds is the gripping tale of how the diamond smuggling works, how the rebel war has effectively destroyed Sierra Leone and its people, and how the policies of the diamond industry -

institutionalized in the 1880s by the De Beers cartel - have allowed it to happen. Award-winning journalist Greg Campbell traces the deadly trail of these diamonds, many of which are brought to the world market by fanatical enemies. These repercussions of diamond smuggling are felt far beyond the borders of the poor and war-ridden country of Sierra Leone, and the consequences of overlooking this African tragedy are both shockingly deadly and unquestionably global.

Readers can explore James Bond creator Ian Fleming's writing on the pleasures of drinking and mix themselves fifty delicious cocktails from recipes inspired by his books and developed by award-winning London bar, Swift. Both Bond and Fleming were partial to a stiff drink. In both fiction and real life, cocktails were an important and well-chosen accompaniment to adventure and daring and often relaxing. Fleming made the Martini famous with Bond's ritual of always ordering it "shaken, not stirred". But in every James Bond book a wide selection of strong, sophisticated and carefully

crafted drinks are essential details to the story. The recipes in *Shaken* are divided into five categories: Straight Up; On the Rocks; Tall; Fizzy; and Exotic. Sip on inventions such as Smersh, Money Penny, That Old Devil M and Diamonds Are Forever, as well as classic Bond cocktails such as the Vesper—and, of course, the Dry Martini. Each recipe is illustrated by a stunning full-color photo of the drink and wonderful extracts from Fleming's writing—taken from the passage where the drink was featured or a place, character, or plot that inspired it. *Shaken* features a foreword written by the novelist's nephew, Fergus Fleming, as well as plenty of his writing on whisky, gin, rum, and other spirits.

From the author of *All the Money in the World* and *The Profession of Violence* comes the definitive biography of James Bond's creator, Ian Fleming. It is now over fifty years since the premiere of *Dr No*, the very first Bond film, with Sean Connery introducing 007 as the glamorous secret agent who would become the single most profitable movie character in the history of cinema. But James Bond was invented by one man, Ian Fleming, a wartime intelligence officer and *Sunday Times* newspaper man who lived to see only the very beginning of the Bond cult. Pearson, who worked with Fleming at the *Sunday Times*, based this biography on his own memories of Fleming, on Fleming's private papers, and on a series of interviews with an extraordinary collection

of Fleming's contemporaries – family, friends, enemies, teachers, colleagues, mistresses, and former spies from around the world. First published in 1966, John Pearson's famous biography remains the definitive account of how only Ian Fleming could have dreamed up James Bond, for he led a life as colourful as anything in his fiction, which in turn became a covert autobiography. Charming, debonair and a ruthless womaniser, globetrotting from wartime Algiers to beachside Jamaica, Fleming was as elusive and opaque as his imaginary creation. In his new introduction to this edition, Pearson examines the extent to which Fleming's character informs the movie portrayals of Bond, from Sean Connery through to Daniel Craig, and how Bond himself has achieved immortality beyond Fleming's wildest dreams.

"Unforgettable. . . . An outstanding adventure in its lyrical, utterly compelling, and heartbreaking investigations of the world of diamond smuggling."
—Aimee Nezhukumatathil For nearly eighty years, a huge portion of coastal South Africa was closed off to the public. With many of its pits now deemed "overmined" and abandoned, American journalist Matthew Gavin Frank sets out across the infamous Diamond Coast to investigate an illicit trade that supplies a global market. Immediately, he became intrigued by the ingenious methods used in facilitating smuggling?particularly, the illegal act of sneaking carrier pigeons onto mine property, affixing diamonds to their feet, and sending them into the air. Entering Die Sperrgebiet ("The Forbidden Zone") is like entering an eerie ghost town, but Frank is surprised by the number of people willing—even eager—to talk with him. Soon he meets Msizi, a young diamond digger, and his pigeon, Bartholomew, who helps him steal diamonds. It's a deadly game: pigeons are shot on sight by mine security,

and Msizi knows of smugglers who have disappeared because of their crimes. For this, Msizi blames “Mr. Lester,” an evil tall-tale figure of mythic proportions. From the mining towns of Alexander Bay and Port Nolloth, through the “halfway” desert, to Kleinzee’s shores littered with shipwrecks, Frank investigates a long overlooked story. Weaving interviews with local diamond miners who raise pigeons in secret with harrowing anecdotes from former heads of security, environmental managers, and vigilante pigeon hunters, Frank reveals how these feathered bandits became outlaws in every mining town. Interwoven throughout this obsessive quest are epic legends in which pigeons and diamonds intersect, such as that of Krishna’s famed diamond Koh-i-Noor, the Mountain of Light, and that of the Cherokee serpent Uktena. In these strange connections, where truth forever tangles with the lore of centuries past, Frank is able to contextualize the personal grief that sent him, with his wife Louisa in the passenger seat, on this enlightening journey across parched lands. Blending elements of reportage, memoir, and incantation, *Flight of the Diamond Smugglers* is a rare and remarkable portrait of exploitation and greed in one of the most dangerous areas of coastal South Africa. With his sovereign prose and insatiable curiosity, Matthew Gavin Frank “reminds us that the world is a place of wonder if only we look” (Toby Muse).
