

Dictionary Of The Russian Language Tessag

"This unique scholarly work, the work of more than 100 contributors worldwide, would have been more accurately titled 'encyclopedia' since most entries are extensive, many covering several pagesA well designed format throughout makes for a very useable tool..." Choice Based on American rather than British English, this is among the first Russian dictionaries revised for the post-Soviet era. Includes new political terminology, new Russian institutions, new countries and republics and new city names. Contains 26,000 entries in the English-Russian section and 40,000 words in the Russian-English section. Irregularities in Russian declensions and conjugations appear at the beginning of each entry.

Multi Linguis offers you a frequency-thematic learner's dictionary of the Russian language. It includes up to 3000 essential words and phrases belonging to the levels from Beginner to Elementary (A1 - A2 CEFR). The entries are divided into 150 vocabulary themes as well as 2 learning steps. They are arranged by themes, not by the alphabet. The book is intended to help you try out and learn this language but can also be applied for translating or entertaining. You may use it separately or as an additional tool for any suited educational course. The Multi Linguis Project is based on the Wiktionary corpus and created by one person. The database of the Learner's Dictionaries includes 9 000 lemmas (words and phrases), their translations in many languages as well as transcriptions, transliterations and grammar information. All these lemmas are divided into 6 learning steps of 1500 entries each and also 150 vocabulary themes grouped in 30 super themes. They can be arranged by themes, steps, parts of speech or keywords, but never by the alphabet. Different types of dictionaries are offered for the same

Read Book Dictionary Of The Russian Language Tessag

language. They are designed in an original way to be convenient and efficient. All of them are available in epub format. Multi Linguis is presently able to publish such books for more than 70 languages. It's planned to improve them and increase their number. You can find more dictionaries in this store.

The Historical Dictionary of Russian Music relates the history of Russian music through a chronology, an introductory essay, a bibliography, and hundreds of cross-referenced dictionary entries on significant persons, events, places, and organizations. This book is an excellent access point for students, researchers, and anyone wanting to know more about Russian music.

This dictionary contains 10,000 Russian words in order of importance starting with the most common and finishing with words that occur about 8 times in a million. All the words have English translations, many have examples of usage and the entries include information on stress and grammatical irregularities. There is also a complete alphabetical index to the words in the list. A learner who knows all or most of these 10,000 words can be regarded as competent in Russian for all normal purposes. The list takes you from a beginner's core vocabulary through to postgraduate level.

Designed to be user-friendly, facilitating the task of learning vocabulary and raising the language awareness of students

This dictionary contains 2,375 Russian sayings and proverbs and their English counterparts. Variants of each saying are included, and careful attention is given to the differences in British and American versions. For example, the Russian

Read Book Dictionary Of The Russian Language Tessag

saying that is interpreted as “Children behave in a childish way, and they cannot be expected to act like grown-up people,” is first given in Russian (in the Cyrillic alphabet) and then in English, and is then followed by the nearest English-language equivalent sayings in Britain and the United States: “Young colts will canter” (British) and “Boys will be boys” (American). The proverbs and sayings are arranged alphabetically by the first Russian word (in the Cyrillic alphabet) and are cross-referenced so the reader can find analogous Russian versions of English sayings. There is a keyword index for each language (one in English, one in Russian in the Cyrillic alphabet), which allows the reader to find a proverb or a saying without knowing the first word. Proverbs and sayings are current and include those popular in both spoken Russian and literature. The prefatory matter is in both English and Russian, for readers who have a command of either language.

A Frequency Dictionary of Russian is an invaluable tool for all learners of Russian, providing a list of the 5,000 most frequently used words in the language and the 300 most frequent multiword constructions. The dictionary is based on data from a 150-million-word internet corpus taken from more than 75,000 webpages and covering a range of text types from news and journalistic articles, research papers, administrative texts and fiction. All entries in the rank frequency

Read Book Dictionary Of The Russian Language Tessa

list feature the English equivalent, a sample sentence with English translation, a part of speech indication, indication of stress for polysyllabic words and information on inflection for irregular forms. The dictionary also contains twenty-six thematically organised and frequency-ranked lists of words on a variety of topics, such as food and drink, travel, and sports and leisure. A Frequency Dictionary of Russian enables students of all levels to get the most out of their study of vocabulary in an engaging and efficient way. It is also a rich resource for language teaching, research, curriculum design, and materials development. A CD version is available to purchase separately. Designed for use by corpus and computational linguists it provides the full text in a format that researchers can process and turn into suitable lists for their own research purposes.

This new dictionary offers up-to-date coverage of essential Russian and English, and extra help with Russian and English verbs and pronunciation, all in a compact and affordable format.

Nineteenth-century readers had an appetite for books so big they seemed to contain the whole world: immense novels, series of novels, encyclopaedias. Especially in Eurasia and North America, especially among the middle and upper classes, people had the space, time, and energy for very long books. More than other multi-volume nineteenth-century collections, the dictionaries, or their

Read Book Dictionary Of The Russian Language Tessag

descendants of the same name, remain with us in the twenty-first century. Online or on paper, people still consult Oxford for British English, Webster for American, Grimm for German, Littré for French, Dahl for Russian. Even in spaces whose literary languages already had long philological and lexicographic traditions—Chinese, Japanese, Arabic, Persian, Greek, Latin—the burgeoning imperialisms and nationalisms of the nineteenth century generated new dictionaries. *The Whole World in a Book* explores a period in which globalization, industrialization, and social mobility were changing language in unimaginable ways. Newly automated technologies and systems of communication expanded the international reach of dictionaries, while rising literacy rates, book consumption, and advertising led to their unprecedented popularization. Dictionaries in the nineteenth century became more than dictionaries: they were battlefields between prestige languages and lower-status dialects; national icons celebrating the language and literature of the nation-state; and sites of innovative authorship where middle and lower classes, volunteers, women, colonial subjects, the deaf, and missionaries joined the ranks of educated white men in defining how people communicated and understood the world around them. In this volume, eighteen of the world's leading scholars investigate these lexicographers asking how the world within which they lived supported their projects? What did language itself

Read Book Dictionary Of The Russian Language Tessag

mean for them? What goals did they try to accomplish in their dictionaries?

A compact, intermediate-level dictionary covering over 90,000 words and phrases, and 120,000 translations ideal for the home, office, or school.

Provides over 45,000 expressions and words, along with a pronunciation guide, Russian grammar and alphabet tables, references for such categories as weights and geographic names, and examples that put isolated words and phrases into context.

student of Russian, or any Russian native speaker learning English. This edition also contains many enhancements, including new supplementary material with a correspondence section, grammar help, and extra sections on the pronunciation of Russian and English. The text has also been updated with hundreds of new words - in both the English and Russian sides of the dictionary - especially important given changes in language and culture over the last few years. These new words mean that the Oxford Russian Dictionary continues to be the leader in its field as the most comprehensive, up-to-date Russian dictionary available. The dictionary is also more accessible for Russian speakers, with the addition of contextualizations on the Russian-English side to help users select the most appropriate translation. There is an extensive guide to English grammar, written in Russian, and the Russian native speaker who wishes to use or understand American English is well catered for. This dictionary includes 12 months' access* to Oxford's premium Russian / English online dictionary service, Oxford Language Dictionaries Online, so you can find accurate translations and extra resources wherever you are. The site is regularly updated with the latest new words and meanings from Oxford's modern languages research programme, the Oxford Languages Tracker. You can also hear audio pronunciations and improve your language skills with online cultural notes, guides to writing, and much more.*Terms and conditions apply; please see www.oxforddictionaries.com/access for information. This is the most innovative, comprehensive, and scholarly bilingual dictionary of

Russian idioms available today. It includes close to 14,000 idioms, set expressions, and sayings found in contemporary colloquial Russian and in literature from the nineteenth century to the present. The Russian idioms are provided with many English equivalents to render idioms in various contexts. Illustrative examples are cited to show how the idioms are used in context. Each entry also contains a grammatical description of the idiom, a definition—an innovative feature for a bilingual dictionary—and stylistic and usage information. A most notable part of the work is the alphanumeric index that makes finding the right expression very easy.

A Frequency Dictionary of Russian Core Vocabulary for Learners

origins of words, including modern colloquialisms, recent loanwords and dialectal forms. Vladimir Orel, PhD in Linguistics (1981), Russian Academy of Sciences, is a researcher in the field of Slavic and Indo European historical linguistics. He has published Hamito Semitic Etymological Dictionary (1995), The Language of Phrygians (1997), Albanian Etymological Dictionary (1998), The Concise Historical Grammar of Albanian (2000), and Handbook of Germanic Etymology (2003), as well as a number of articles in Russian, Slavic and Indo-European etymology. Dr. Orel passed away during the summer of 2007, leaving the fourth volume of the Russian Etymological Dictionary incomplete. His work was finished over the four years following his passing by his editorial team, and published by Theophania Publishing. Acknowledgements: In the spring and summer of 2007, Dr. Vladimir Orel worked simultaneously on Volumes Three and Four of this series, his Russian Etymological Dictionary, which he hoped to see published by December 2007. In late summer of that year, Dr. Orel suffered a massive stroke and passed away, leaving a son, two daughters, and many friends to mourn - and both volumes unfinished. Thanks to the superior skills of linguistic scholar Dr. Vitalij Shevoroshkin, Volume Three was quickly completed and published by the end of 2007. Volume Four was another story. Far less complete than its predecessor, the volume needed significant work to flesh out the entries begun by Dr. Orel. Again, Dr. Shevoroshkin's skill and time were invaluable in completing the text in view of his own projects and international teaching. But more assistance and time were required. Several other very busy scholars lent their hands and minds to the Russian Etymological Dictionary's completion. In particular, we would like to express our gratitude to A. Lehrman and B. Podolsky, without whose time and assistance this text would be a dusty, unfinished manuscript. For their assistance with this

Read Book Dictionary Of The Russian Language Tessag

volume, we would also like to thank G. Barinova, V. Bla ek, Zh. Varbot, L. Kasatin, L. Krysin, and L. Kulikov. Thanks to the work of the above scholars, Volume Four has been belatedly but successfully completed within the framework of Dr. Orel's original plan and mindset.

Multi Linguis offers you a frequency-thematic learner's dictionary of the Russian language. It includes up to 6000 essential words and phrases belonging to the levels from Beginner to Intermediate (A1 - B1.2 CEFR). The entries are divided into 150 vocabulary themes as well as 4 learning steps. They are arranged by themes, not by the alphabet. The book is intended to help you learn and revise this language but can also be applied for translating or entertaining. You may use it separately or as an additional tool for any suited educational course. The Multi Linguis Project is based on the Wiktionary corpus and created by one person. Russian For All Occasions: A Russian-English Dictionary of Collocations and Expressions presents 10,000 formal and informal modern Russian expressions that users are likely to encounter either in speech or writing. The entries take the form of collocations, phrases or

Read Book Dictionary Of The Russian Language Tessag

short sentences, and each entry is accompanied by a translation which provides the English communicative fragment corresponding most closely to the Russian original. Longer explanations are provided for phrases that learners might otherwise find difficult to interpret correctly. Entries are arranged thematically, with an alphabetical index of key Russian and English words to help users navigate the dictionary. Russian For All Occasions is a unique resource for intermediate to advanced students of Russian. The range of ready-made and contextualised expressions presented here will help learners improve their active command of Russian.

Authoritative, comprehensive, and up-to-date--an indispensable resource for translators of Russian scientific and technical materials The spirit of cooperation that now exists between the Russian scientific community and its English-speaking colleagues has opened a floodgate of Russian language technical and scientific documents. To meet the demand for an authoritative and up-to-date reference, the classic Callaham's Russian-English Dictionary of Science and Technology has now been published in a new edition that encompasses the latest additions to the technical vocabulary. The product of decades of painstaking research by distinguished Russian language translators, this essential reference book upholds the high standard of thoroughness and accuracy that scientific and technical translators require. Technical specialists all over the English-speaking world--translators and interpreters, scientists, and engineers--will welcome the arrival of the Fourth Edition of Callaham's Russian-English Dictionary of Science and Technology. * Over 120,000 Russian terms in the physical, life science, and engineering disciplines, and an additional 5,000 of the most frequently used, nontechnical terms * Entries organized around common roots and arranged in paragraph form
