

Die Geistige Situation Der Zeit Sammlung Goschen 1000

????:??-?????

We are living through a period of dramatic political change – Brexit, the election of Trump, the rise of extreme right movements in Europe and elsewhere, the resurgence of nationalism and xenophobia and a concerted assault on the liberal values and ideals associated with cosmopolitanism and globalization. Suddenly we find ourselves in a world that few would have imagined possible just a few years ago, a world that seems to many to be a move backwards. How can we make sense of these dramatic developments and how should we respond to them? Are we witnessing a worldwide rejection of liberal democracy and its replacement by some kind of populist authoritarianism? This timely volume brings together some of the world's greatest minds to analyse and seek to understand the forces behind this 'great regression'. Writers from across disciplines and countries, including Paul Mason, Pankaj Mishra, Slavoj Zizek, Zygmunt Bauman, Arjun Appadurai, Wolfgang Streeck and Eva Illouz, grapple with our current predicament, framing it in a broader historical context, discussing possible future trajectories and considering ways that we might combat this reactionary turn. The Great Regression is a key intervention that will be of great value to all those concerned about recent developments and wondering how best to respond to this unprecedented challenge to the very core of liberal democracy and internationalism across the world today. First published in English in 1933, this detailed philosophical examination of the contemporary state and nature of mankind is a seminal work by influential German philosopher Karl Jaspers. Elucidating his theories on a variety of topics pertaining to contemporary and future human existence, *Man in the Modern Age* is an ambitious and wide-ranging work, which meditates upon such diverse subjects as the tension between mass-order and individual human life, our present conception of human life and the potential for mankind's future existence. Written shortly before the accession to power of Hitler and National Socialism, this is not only an important philosophical work, but also an insightful and intriguing historical document.
