Addressing the many ethical issues that arise daily in school, this volume is a hands-on guide for all K-12 practitioners, an excellent teaching tool for preparing future teachers, and an essential resource for anyone who wants to create a caring and supportive school environment. This book features: realistic, provocative, and ethically challenging case studies that can be adapted to both private and public school settings, ideal for generating discussions about how to resolve given issues; a range of encounters educators are apt to experience, such as between teacher and teacher, teacher and student, parent and teacher, and parent and administrator; an array of ethical dilemmas and issues encountered at different grade levels on topics such as: racism, teasing, cheating, plagiarism, anorexia, free speech, violence, religion, and much more; and appendixes listing ethical standards for each member of the school community and overviews of student understandings of right and wrong, presented according to grade level.

In v.1-8 the final number consists of the Commencement annual.

This book comprises select proceedings of the 46th National Conference on Fluid Mechanics and Fluid Power (FMFP 2019). The contents of this book focus on aerodynamics and flow control, computational fluid dynamics, fluid structure interaction, noise and aero-acoustics, unsteady and pulsating flows, vortex dynamics, nuclear thermal hydraulics, heat transfer in nanofluids, etc. This book serves as a useful reference beneficial to researchers, academicians and students interested in the broad field of mechanics. ^
