

Directory Of Az

Excerpt from Arizona Mining Directory: A Directory of Arizona's Mines, Mining Districts Owners or Operators and Postoffice Addresses (Yavapai County) Yavapai, the treasure county of Arizona, has developed its mines beyond the speculative stage and is now. Regarded as one of the richest mineral fields, in the country. Yet it is merely on the threshold of activity, and although accredited with more patented mines than any other subdivision of the Territory, its mineral resources still far outstrip its developments. The records give to this county a greater number of mining locations and Operators than is contained by the combined number of any other three counties in Arizona. Hinton, the statistician, states that up to October 1, 1876, of mines located and recorded in the Territory, 7, 298 were in the county of Yavapai. Since then, however, the proportion has materially changed. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at www.forgottenbooks.com This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy. In rare cases, an imperfection in the original, such as a blemish or missing page, may be replicated in our edition. We do, however, repair the vast majority of imperfections successfully; any imperfections that remain are intentionally left to preserve the state of such historical works.

Pistols first appeared in the 15th century, and revolvers some 400 years later, while submachine guns were developed at the beginning of the 20th century. This book provides a clear and concise breakdown of 500 handguns and submachine guns from all over the world, including early designs and those being deployed today.
