ViridiaWarpsteel Press

When Beryl uses his cybernetic implant to help a mysterious refugee escape the police, he finds himself leading a revolution. Fueled by hatred of Viridia, the green dragon, and hunted by the draconic head of the police, Beryl and his friends conceive an audacious plan: Kill all six of the immortal dragons who have ruled over humanity for a thousand years. But killing even one dragon is impossible. Even if they succeed, thousands could die in retribution. Will Beryl's hatred and rage be enough to overcome the odds? Or will it take something more?
