An in-world book from the Marvel Cinematic Universe, *The Wakanda Files*—compiled by request of Shuri (Black Panther and *Avengers: Infinity War*) as part of her quest to improve the future for all people—is a collection of papers, articles, blueprints, and notes amassed throughout history by Wakanda's War Dogs. In a nod to Wakandan technology, the pages of the book have a printed layer of UV ink with content that is visible only under the accompanying Kimoyo bead-shaped UV light. Within the Marvel Cinematic Universe (MCU), Wakanda has been on the forefront of what is technologically possible. Their ability to stay ahead of the rest of the world is second only to their ability to keep themselves hidden. As the architect behind many of Wakanda's great advancements, Shuri is constantly seeking ways to improve what has come before. To aid in her search, she researches the past for context, reference, and inspiration by compiling *The Wakanda Files*. Organized into areas of study, including human enhancement, transportation, weapons, artificial intelligence, and more, *The Wakanda Files* trace the world's technological achievements from the era of Howard Stark and early Hydra studies to modern discoveries in quantum tunneling and nanotechnology, weaving together the stories, personalities, and technology that are the fabric of the MCU.

Presents the adventures of group of gargoyles that protect the streets of New York City after the sun goes down as humans discover their existence and they face threats from the Quarrymen and the mutates.
