The Italian original of this book, *Che cos'è il diritto privato?*, is widely recognized as an influential treatise on the basic methods of legal science, introducing the student to the main institutions and theories of Italian and European Private law, as well as to the basic ideas and principles related to the concept, function and purpose of Italian and European Private law. In translation, this book thus provides any reader with the perspective of the Italian student of law on the ideas that have shaped legal practice in Italy and on the continent of Europe. Its unique value lies in the fact that it is not a gloss, not secondary literature, not an interpretation and not a summary -- it is a direct, primary source made available to readers in the English language for the first time.

Fictions of Youth is a comprehensive examination of adolescence as an aesthetic, sociological, and ideological category in Pier Paolo Pasolini's prose, poetry, and cinema. Simona Bondavalli's book explores the multiple ways in which youth, real and imagined, shaped Pasolini's poetics and critical positions and shows how Pasolini's works became the basis for representations of contemporary young people, particularly Italians. From Pasolini's own coming of age under Fascism in the 1940s to the consumer capitalism of the 1970s, youth stood for innocence, vitality, and rebellion. Pasolini's representations of youth reflected and shaped those ideas. Offering a systematic treatment of youth and adolescence within Pasolini's eclectic body of work, Fictions of Youth provides both a broad overview of the changing nature of youth within Italian modernity and an in-depth study of Pasolini's significant contribution to that transformation.

This is an extensively revised and substantially enlarged 2000 edition of the acclaimed *Using French*.

The rivalry between the Dutch and Portuguese in Asia is one of the classic themes of the early history of European expansion overseas. Yet it is often forgotten that until the end of the sixteenth century the seafarers and traders of Portugal and The Netherlands were the best of friends and close trading partners in Europe. This collection of essays seeks to explain the abrupt change in the relationship by analyzing the European interaction with the maritime world of Monsoon Asia. Portuguese as well as Dutch interests, political, commercial and personal, became closely interwoven with those of the indigenous rulers, merchants and financiers. The final outcome of the conflict in Asia was mainly determined by the different ways in which both parties were able to cope with the intricacies of Asian politics.

'European Expansion in the Indian Ocean' was far from a one-sided affair and its history can only be understood in terms of the interaction of both Europeans and Asians involved. Contributors: Ernst van Veen, Jacques Paviot, Mafalda Soares da Cunha, Walter Rossa, João Paulo Oliveira e Costa, Arie Pos, Francisco Bethencourt, Om Prakash, Pius Malekandathil, Rui Manuel Loureiro, Peter Borschberg, Arend de Roever, René Barendse, Marcus Vink, Cátia Antunes and George Bryan Souza.

Violence is all around us; yet, despite its widespread prevalence, we remain unclear about its causes. In this book Felicity de Zulueta - begins by defining "violence" as distinct from "aggression", and then attempts to trace its origins, highlighting the polarization between those who believe mankind to be innately violent and those who see violence as the outcome of man's life experiences. As a result of her investigations, the author suggests that the current high level of violence may well be linked to the effects of childhood and adult trauma which appear to be far more widespread than has hitherto been acknowledged. These findings are relevant to understanding why "normal" people can become violent in certain conditions. This is a second edition and has been fully updated. A new chapter on terrorism has been added.

Rella came of age as a philosopher in Italy during the period of the "crisis of reason" or more generally the exhaustion of classical rationality in its authority to structure experience. For Rella, unlike many others, the tensions of the crisis are productive. In *The Myth of the Other*, he presents a unique perspective on four seminal French thinkers: Lacan, Foucault, Deleuze, and Bataille. Moe's masterful translation brings this remarkable Italian thinker to American readers for the first time. This slim book may very well change the way American scholars think about the crisis of the other and the self coming out of French poststructuralism.

What is at stake in literature? Can we identify the fire that our stories have lost, but that they strive, at all costs, to rediscover? And what is the philosopher's stone that writers, with the passion of alchemists, struggle to forge in their word furnaces? For Giorgio Agamben, who suggests that the parable is the secret model of all narrative, every act of creation tenaciously resists creation, thereby giving each work its strength and grace. The ten essays brought together here cover works by figures ranging from Aristotle to Paul Klee and illustrate what urgently drives Agamben's current research. As is often the case with his writings, their especial focus is the mystery of literature, of reading and writing, and of language as a laboratory for conceiving an ethico-political perspective that places us beyond sovereign power.

An advisor to Italian publishing houses, a translator of Freud and Jung, a friend of Montale and Calvino, Roberto Bazlen was nothing if not a literary man, but kept his writings to himself. Here, translated into English for the first time, the reader will discover Bazlen's private oeuvre: an unfinished novel, The Sea Captain, which bears comparison with the fiction of Kafka and Beckett; a selection of entries from his notebooks dealing with topics as various as whether or not there is an "animal Jahweh" and the aesthetic limitations of the cinema; a trio of essays on his native city of Trieste; and a sampling of his editorial letters. Notes Without a Text is an introduction to the work of one of the unknown masters of twentieth-century European literature.

This is the story of a Englishman who gave up a job in journalism to spend fourteen years with the controversial Indian mystic Osho, also known as Bhagwan Shree Rajneesh and frequently referred to as 'the sex guru'. His guru was always controversial with his teachings on sex and spirituality, rumours of orgies and because he owned ninety-three Rolls Royces. Early in 1976, Subhuti travelled to India to meet Rajneesh in his ashram in Pune, became initiated as his disciple and immediately began to have mystical experiences, which he attributed to the powerful energy field surrounding the guru. He stayed for six months, participating in the ashram's notorious Encounter Group and other therapies designed to release suppressed emotions and awaken sexual energy Subhuti would stay to live and work on his master's ashrams for fourteen years, first as his press officer in Pune, India, then as editor of the community's weekly newspaper when Bhagwan and his followers shifted to Oregon, USA, and built a whole new town on the massive Big Muddy Ranch. There Subhuti was a first-hand witness to the scandals and hullabaloo that accompanied the guru, including tales of broken bones in no-holds-barred therapy groups and Tantra groups that encouraged total sexual freedom, and the increasing hostility with the locals which would lead to Bhagwan's attempt to flee America, his arrest and imprisonment. . He was on the Oregon Ranch when Rajneesh's secretary, Ma Anand Sheela, plotted against rival cliques within the ashram as well as a range of murderous crimes against state and federal officials which feature in hit Netflix series Wild Wild Country. Yet, amidst it all, Subhuti could see the profound revolution in spirituality that Bhagwan was creating, leaving a lasting impact on our ideas about society, religion, meditation and personal transformation.

According to the author's understanding, it was the controversy itself, plus Bhagwan's refusal to tread the path of a spiritual saint, that became the stepping stone to a new vision of what it means to be a spiritual seeker.
