Highlighting the evolutionary history of man's best friend, from their domestication, anatomy, and behavior, for both domestic and wild breeds including wolves, jackals, and foxes, this title explains why dogs and wolves hunt in packs, how dogs "talk" with ears and tails, and how dogs were specially taught to help humans. Full color.

An easy-to-read book with fun characters, visual humor, and an important theme--the joy of helping others Two friends, Mike, an elephant, and Pat, a fish in a fishbowl, are in a rowboat. While Mike naps, Pat jumps into the ocean, where he meets other fish. When a shark appears, Pat and his new fish friends are in trouble . . . until two chubby gray legs appear near the surface. Mike lands on the shark and frightens the toothy fish away. Mike has a great time underwater until he realizes he is out of air. Now the fish help Mike.

In ebook format How did boats evolve from hollowed logs used for fishing to magnificent liners and tankers? This superb collection of specially commissioned

photographs tell the fascinating story of how and why boats rafts and ships have changed over the ages. See how a plank boat is constructed and look at sails from around the world from the elegant junks and hows of the East to the many-masted clippers that sailed the seven seas during the 19th century. Learn why the Titanic was thought to be 'unsinkable' and how it feels to be standing on the bridge of modern fire ship. From fishermen on kayaks to soldiers on galleys cargo on steamships to sailors on yachts this book will show you the importance and perils of a life at sea. Produced in association with the National Maritime Museum Greenwich Boat is a compelling and informative guide to the development and history of boats and ships worldwide.

See a starfish on the move, how a sea urchin disguises itself, a sea anemone catch aprawn, the inhabitants of a tide pool, and fish that change color. Learn how alimpet grips the rock, how a crab grows a new leg, how a prawn becomes invisible, how seabirds catch fish, and how a sea otter sleeps at sea. Discover how long seaweed can grow, why hermit crabs live in secondhand shells, which shells bore holes in solid rock, where a puffin lays its eggs, and much, much more. Discover the fascinating world of the seashore-its strange and beautiful creatures and their secret lives.

Through this charming story, children will become aware of the growing problem of trash polluting the ocean. Fish highlights the issues with a simple and engaging illustrated narrative and also suggests a solution in the form of recycling. All Finn wants is to catch a nice, tasty fish for his dinner, but no matter how hard he tries all he seems to catch at the end of his fishing line is other people's trash. The longer he spends out on the ocean, the more crazy objects he collects! Finn and his dog Skip go home each day with a full boat, but empty tummies. It isn't long before Finn finds a way to reuse and recycle everything he has collected. Pretty soon he makes enough money to make a tasty dinner every day, and under his care, the ocean becomes clean, bright, and full of fish again!

Whether you're a beginner or a seasoned angler, this illustrated manual will help you polish up your fishing skills. A lavishly illustrated companion complete with maps and information on best seasons and hot spots, The Complete Fishing Manual shows you the best places for fishing experiences.
