Slovenia seems closer to Austria or Italy than to its Balkan neighbors. The richest of the Slavic nation-states, it has an entirely Western tradition, having belonged in the past to the Roman Empire, the Frankish kingdom, the Holy Roman Empire, the Republic of Venice, the Habsburg monarchy, and the First French Empire. After the Second World War it became part of the Republic of Yugoslavia, before declaring independence in 1991. This extraordinary cultural legacy is what sets Slovenia apart, matched by an amazingly varied topography packed into a small area. Traveling toward the coast, you see changes in the landscape and in the architecture. This reflects both the natural and the historical variety: the Venetians built their buildings one way, the Austrians another. Slovenia's natural beauty is astonishing. Legend relates that when God was allotting nature's bounty, he forgot Slovenia. His last-minute solution was to take bits of the best from other places: gorgeous Alpine ranges, the less craggy Pohorje mountains, the Pannonian plain stretching toward Hungary, hill after hill rolling southward into the horizon, the unique karst landscape, rivers aplenty, and a few miles of Adriatic coastline. Never having had a glorious unified kingdom in the past, Slovenians identify themselves not by blood or history but by their language, which differs from the other languages of the ex-Yugoslavia. The older generation is fluent in Serbo-Croatian, which helps for politics and trade, but has little of its historical baggage, and the country has geo-political importance as a politically stable stepping stone to the Balkans. As far as nationhood goes, Slovenia's golden age is now. There is a sense of change in the country—mostly for the better, and not the dull stampede toward materialism that one sees in some other former Eastern bloc countries. As a tourist destination Slovenia has it all, from medieval ruined monasteries to whitewater rafting. The people of this lovely land are genuinely glad that others are "discovering" their country. There are no real language problems; the younger people all speak English. Moreover, membership of the EU means that this is a country in transition. Culture Smart! Slovenia will introduce you to the inner world of this moderate, orderly, and conservative people who have emerged into the post-Communist world hungry for change.

This magnificently illustrated and deeply researched volume takes the reader on a journey throughout the Indian subcontinent to explore the history and traditions of its textiles. India's rich and vibrant textile tradition boasts an enormous range of techniques and extraordinary level of artistry. Drawn from one of the world's finest collections of Indian textiles, this book presents a fascinating overview of several centuries of artistic production from every corner of India. Each section examines a different region to reveal its distinct textile traditions, patterns, and processes: Patola silks from Gujarat, lampas weaves preserved in Tibetan temples, mordant resist dyed cottons exported to Indonesia, silk saris from Murshidabad and embroideries from rural Bengal and Punjab. The book also delves into the roles that textiles have played in daily life over the centuries, from household and dowry textiles to devotional pieces and exquisite materials crafted for rich patrons. Each object is photographed from multiple angles and reproduced in meticulous detail. Many of the antique pieces featured here are exceedingly rare, which makes this book an invaluable resource. This guidebook contains over 60 walks which explore the best of the Julian Alps of Slovenia. The walks and treks in this guidebook are organised around five bases in the Julian Alps - Kranjska Gora, Bovec, Kobarid, Bled and Bohinj - all of which have a range of accommodation and public transport facilities. There is something here for everyone - from easy valley walks and rougher forest trails to high-mountain protected routes, including multiple routes up Triglav, Slovenia's highest peak. Several possibilities for multi-day walks are included. The Julian Alps are situated in the small independent republic of Slovenia, at the south-eastern end of the Alpine chain. Their highest peak, Triglav, at 2864m, may be smaller than some of the better-known western giants, but what the mountains lack in stature they make up for in interest and accessibility. The dramatic limestone peaks drop steeply through forests to flower meadows, and will give you a feast for the eyes no matter which direction you turn.
