

Dk Pocket Eyewitness Dinosaurs Facts At Your Fingertips

A new series of encyclopedias for young readers that fits nicely into a backpack or back pocket offers a unique catalog-style presentation that clearly lays out concise, punchy text covering all the essential information pertaining to the featured subject. Includes a "fact file" in the reference section that contain a "top ten" list (biggest dinosaurs, fastest animals, etc.) and other reference materials (such as the Moh scale of mineral hardness).

A children's book that takes you back in time to dig up dazzling dinosaurs, learn facts about fossils, practice your paleontology, and go on a journey of dinosaur discovery. The latest title in the popular My Encyclopedia of Very Important... series, this visually stunning dinosaur book for children is a must-have for fact fanatics everywhere. Easily accessible to young readers through a balance of striking images and conversational, age-appropriate text, this dinosaur encyclopedia will tap into every child's natural curiosity and answer all their biggest questions about this amazing lost world. Bursting with up-to-date facts and discoveries, this exciting dinosaur encyclopedia includes everything from an in-depth exploration of the Triassic, Jurassic, and Cretaceous Periods and how fossils are made, to detailed profiles of popular dinosaurs such as the mighty Tyrannosaurus rex, to more unfamiliar species such as the mini Microraptor. Covering a huge range of topics, My Encyclopedia of Very Important Dinosaurs is so much more than an ordinary kid's book--it's the book that every young fossil hunter and dinosaur enthusiast will want to own.

Find out about more than 70 cat breeds, including their origins and characteristics, in this pocket-sized encyclopedia. This cat-alogue packs a whole lot of information into your pocket! Along with a photo of each breed, discover the facts and stats of each cat, including its size, where the breed originated, colors and markings, and unusual features or behaviors. You'll soon be able to tell apart a Burmese from a Siamese; a rex from a sphynx and a manx; and an American shorthair from a British shorthair. You will also discover a lot about colors and patterns. Did you know that tabby cats and tortoiseshells are not breeds, but colors within breeds? Plus there are pages introducing cat anatomy and behavior; and the book finishes with fun facts. The style of the Pocket Eyewitness series is perfect for all children, from reluctant readers who can easily digest the key points through to budding vets and cat-lovers who want to know more about the best pets on the planet. Cats with facts: what more could anyone want?

DK's Pocket Genius: Animals highlights the lives of nearly 200 animals--what they eat, what eats them, where they live, and how big they are. From tiny bees to the mighty elephant, the animal kingdom is celebrated with fun facts and images of the tallest, fastest, heaviest, and largest domestic and wild animals on the planet. Catalog entries packed with facts provide at-a-glance information, while locator icons offer immediately recognizable references to aid navigation and understanding, and fact files round off the book with fun facts such as record breakers and timelines. Each mini-encyclopedia is filled with facts on subjects ranging from animals to history, cars to dogs, and from Earth to space and combines a child-friendly layout with engaging photography and bite-size chunks of text that will encourage and inform even the most reluctant readers.

Offers an overview of dinosaurs, describes the varieties currently known, and explains how scientists gather information about dinosaurs.

Journey back in time and find out where the dinosaurs roamed. This unique children's atlas explores each continent, revealing fossil sites and stories on every map. Part of the best-selling What's Where on Earth series, this atlas is packed with maps of early Earth and more than 40 profiles of dinosaurs and other prehistoric animals. Stare down a T Rex in North America. Watch out for Velociraptors' slashing claws in the Gobi Desert. Trek across the Siberian tundra and discover a woolly mammoth. This stunning book makes every animal come to life using breathtaking computer-generated imagery. Using specially-commissioned maps, this dinosaur atlas shows you what the world looked like millions of years ago. A modern 3D globe next to each map helps you understand the arrangement of the continents over time and why we find fossils where we do. You can see what palaeontologists have dug up over the centuries in each continent and learn how they put together a picture of the past from a puzzle of ancient clues. Where on Earth Dinosaurs and Other Prehistoric Life reveals the prehistoric world as never before. An essential read for every young dinosaur expert.

Explore the prehistoric world with this first reference for young dinosaur lovers - now in paperback Help your child meet their favourite dinosaurs face-to-face. They'll discover where they came from, how they lived and what happened to them as well as interesting facts including which dinosaurs used their tail like a club and who had a brain the size of a ping-pong ball. Packed with bite-sized facts, curiosity quizzes and special 'turn-and-learn' features kids love getting their teeth into, there's lots to see and explore. Perfect for homework or just for fun. Go ahead; let your child take a stomp into the prehistoric world!

Dive into the world of the shark, one of the ocean's most awesome predators, in this mini encyclopedia of some of the world's most magnificent marine creatures. Pocket Eyewitness Sharks gives you fast facts at your fingertips and includes pictures to make learning about these extraordinary creatures even more fun. Did you know that the gentle whale shark has more than 300 rows of tiny teeth? Or that some hammerheads roam the seas in schools of more than 500 sharks? No? Then you need this ebook with its profiles of over 170 marine creatures, including sharks and rays, skates, and their relatives. Find out the secrets of their watery habitat - from where they swim to what they eat - and learn about the conservation efforts underway to protect them. Perfect for school projects and homework assignments as well as for young shark fans, Pocket Eyewitness Sharks will tell you everything you need to know about sharks in one ebook.

Age Range- 9-11 years

From Tyrannosaurus and saber-toothed cats, to ferns and woolly mammoths, every page will captivate young readers as they travel through the history of the Earth. This collection of amazing dinosaurs, plants, and other prehistoric life will wow children and many adults, too. Showcasing more than 90 remarkable fossils, such as a fearsome Tyrannosaurus skull, delicate fern leaf, and perfectly preserved woolly mammoth, everyone will find something to be captivated by. Each plant or animal is shown both photographically and illustrated, and children will love poring over the detailed close-up images. The storybook descriptions let you discover the myths and legends surrounding the organisms, as well as key facts about their natural history. Find out why Pachycephalosaurus had such a thick head, how a coral fossil can be used to work out how long a prehistoric year was, and which fossil was thought to protect people from poison. This beautiful treasury lets you find the things that interest you and uncover new favorites along the way. Organized into the Palaeozoic, Mesozoic, and Cenozoic eras, travel through time from the first life on Earth right up to our early human ancestors. With reference pages including information you'll go away knowing something you didn't before, and you'll return time and again. An attractive gift for children who can't get enough of dinosaurs, Dinosaurs and other Prehistoric Life is perfect for kids to explore by themselves or for bedtime stories. Go on a time-travelling adventure and marvel at the plants and animals from the Earth's primeval past in this stunning ebook about dinosaurs and prehistoric life.

From the great white to the tiny dwarf lantern, DK's Pocket Genius: Sharks profiles more than 150 sharks and rays and tells what they eat, where they live, and how fast they swim. Young readers will discover fascinating facts about these predators of the ocean including which species are the fastest, the largest, the smallest, and which are the hunters and the hunted. Catalog entries include facts provided at-a-glance information, while locator icons offer immediately recognizable references to aid navigation and understanding, and fact files round off the ebook with fun facts such as record breakers and timelines. Each mini-encyclopedia is filled with facts on subjects ranging from animals to history, cars to dogs, and Earth to space and combines a child-friendly layout with engaging photography and bite-size chunks of text that will encourage and inform even the most reluctant readers.

Travel across the world and back in time to meet the incredible creatures that once stalked our planet, including dinosaurs, flying reptiles and marine reptiles. Whether big, small, fast, slow, fearsome or friendly, you'll find it here. Divided into chapters focused on the seven continents and oceans, we explore the most exciting dinosaurs with each given their own page or spread that reveals and illustrates their most fascinating features. Find out about the T-Rex and Triceratops of North America, the giant sauropods of South America, the marine reptiles of Europe, the feathered, bird-like dinosaurs of Asia and more. Other topics covered include the history of dinosaur research: how these 'terrible lizards' were first identified in the early 19th century, the Bone Wars of the late 19th century when collectors battled to unearth the best remains, and how interpretations of what dinosaurs actually looked like have changed over the years, from slow-moving lizard like creatures to fast-moving feathered fiends. Stunning illustrations and photography combine with fascinating facts based on the latest research to provide kids with a comprehensive introduction to dinosaurs. It's going to be roarsome! About Lonely Planet Kids: Lonely Planet Kids - an imprint of the world's leading travel authority Lonely Planet - published its first book in 2011. Over the past 45 years, Lonely Planet has grown a dedicated global community of travelers, many of whom are now sharing a passion for exploration with their children. Lonely Planet Kids educates and encourages young readers at home and in school to learn about the world with engaging books on culture, sociology, geography, nature, history, space and more. We want to inspire the next generation of global citizens and help kids and their parents to approach life in a way that makes every day an adventure. Come explore!

Designed to make learning chemistry much easier and a whole lot more fun, these elements show you the periodic table as you have never seen it before. Every element in this engaging little book is a specially created character with its own unique personality.
