From iconic NBA All-Star Carmelo Anthony comes a New York Times bestselling memoir about growing up in the housing projects of Red Hook and Baltimore—a brutal world *Where Tomorrows Aren't Promised*. For a long time, Carmelo Anthony's world wasn't any larger than the view of the hoopers and hustlers he watched from the side window of his family's first-floor project apartment in Red Hook, Brooklyn. He couldn't dream any bigger than emulating his older brothers and cousin, much less going on to become a basketball champion on the world stage. He faced palpable dangers growing up in the housing projects of Red Hook and West Baltimore's Murphy Homes (a.k.a. Murder Homes, subject of HBO's *The Wire*). He navigated an education system that ignored, exploited, or ostracized him. He suffered the untimely deaths of his closely held loved ones. He struggled to survive physically and emotionally. But with the strength of family and the guidance of key mentors on the streets and on the court, he pushed past lethal odds to endure and thrive. By the time Carmelo found himself at the NBA Draft at Madison Square Garden in 2003 preparing to embark on his legendary

career, he wondered: How did a kid who'd had so many hopes, dreams, and expectations beaten out of him by a world of violence, poverty, and racism make it here at all? Carmelo's story is one of strength and determination; of dribbling past players bigger and tougher than him, while also weaving around vial caps and needles strewn across the court; where dealers and junkies lined one side of the asphalt and kids playing jacks and Double Dutch lined the other; where rims had no nets, and you better not call a foul—a place Where Tomorrows Aren't Promised.

How the communist revolution failed, presented in a series of catastrophes. The communist project in the twentieth century grew out of utopian desires to oppose oppression and abolish class structures, to give individual lives collective meaning. The attempts to realize these ideals became a series of colossal failures. In *Yesterday's Tomorrow*, Bini Adamczak examines these catastrophes, proceeding in reverse chronological order from 1939 to 1917: the Hitler-Stalin Pact, the Great Terror of 1937, the failure of the European Left to prevent National Socialism, Stalin's rise to power, and the bloody rebellion at Kronstadt. In the process, she seeks a future that never happened.

help—from a social worker sent by the city, a psychiatrist sent by the school, and a thug friend who recites Rimbaud. It seems like fate has dealt them an impossible hand, but Doria might still make a new life—“with bravado, humor, and a healthy dose of rage” (St. Petersburg Times). “[A] sassy, spunky tale . . . Doria has what it takes to storm any barricade.” —The Hartford Courant “[Doria is] as likable as Holden Caulfield or Prep’s Lee Fiora. Readers will cheer. Highly recommended.” —Library Journal, starred review “A promising addition to the world’s literary voices.” —The Miami Herald “Moving and irreverent, sad and funny, full of rage and intelligence. Her voice is fresh, and her book a delight.” —Laila Lalami, bestselling author of *The Moor’s Account*

Mark Forster's book "Get Everything Done and Still Have Time to Play" took an entirely new approach to time management. One of his most important points was that once we have taken on a commitment, prioritising does not work because we need to do everything relating to that commitment. In the six years since he wrote the book as he has reached thousands of people through writing, seminars and coaching, he has continued to develop and refine his methods . He has now perfected even more effective methods of getting everything done through the introduction of some radical new ideas, including closed lists, the manyana principle and the "will do" list. He is brilliant at helping people to use new forms of communication effectively so that they do not become a tyrant. The result is a complete system which will enable almost anyone to complete one day's work in one day.

a religion? Do you know God, or do you just know about God? In *How Big Is Your God?* Paul Coutinho, SJ, challenges us to grow stronger and deeper in our faith and in our relationship with God—a God whose love knows no bounds. To help us on our way, Coutinho introduces us to people in various world religions—from Hindu friends to Buddhist teachers to St. Ignatius of Loyola—who have shaped his spiritual life and made possible his deep, personal relationship with God.

"They were all beggars at the gate, thinks Asha, as she joins the vast queue for visas outside the American Embassy. In a corrupt, seedy dictatorship, whose citizens feel it's a prison outside too, what else is there to do? But the option of escape is not open to, or desired by all. There are other choices to be made. Should Jagru quit the opposition and try to influence the ruling party from within? When will Manu's luck with smuggling run out? Where is Lal's duty? With his family or fighting the Government? Is Chandi's concern with her children enough? In a country, uncommonly like Guyana of the 1980s, a state beset by economic collapse, political dictatorship and social corruption, Narmala Shewcharan's skilfully constructed novel brings together the lives of five interlinked sets of characters. Without imposing easy judgements, Narmala Shewcharan takes us inside the choices her characters make, and their price. Whilst her vision of their nightmarish world is bleak in portraying the human costs of social fragmentation, the novel also asserts the moral basis of community in the very web of effect each individual choice has on the lives of others.--Publisher.

“A grand sweep of adventure and travel, war and romance—along with a generous amount of face licking—that will have dog lovers enthralled.... Tomorrow offers a rich exploration of love, life and loyalty, in a world whose sensory atmosphere is irresistible.” —NPR A winter’s night, Venice, 1815. A 217-year-old dog is searching for his lost master. So begins the journey of Tomorrow, a dog who must travel through the courts and battlefields of Europe—and through the centuries—in search of the man who granted him immortality. His adventures take him to the London Frost Fair, the strange court of King Charles I, the wars of the Spanish succession, Versailles, the golden age of Amsterdam and to nineteenth-century Venice. His is a story of loyalty and determination, as Tomorrow befriends both animals and humans, falls in love (only once), marvels at the human ability to make music, despairs at their capacity for war and gains insight into both the strength and frailties of the human spirit. But Tomorrow’s journey is also a race against time. Danger stalks his path, and in the shadows lurks an old enemy. Tomorrow must find his master before their pursuer can reach him and his master disappears forever. A spellbinding story of hope in the face of despair, Tomorrow draws us into a century-spanning tale of humanity and the unbreakable bond between two souls. After all, what is lost can surely be found...

Every night we say goodnight. But tonight we also ask, "What will tomorrow bring? An odd-sounding song? A worried-looking bug? A mysterious rock?" Most likely, all of the above. Official U.S. edition with full color illustrations throughout. **NEW YORK TIMES BESTSELLER**

Yuval Noah Harari, author of the critically-acclaimed New York Times bestseller and international phenomenon *Sapiens*, returns with an equally original, compelling, and provocative book, turning his focus toward humanity's future, and our quest to upgrade humans into gods. Over the past century humankind has managed to do the impossible and rein in famine, plague, and war. This may seem hard to accept, but, as Harari explains in his trademark style—thorough, yet riveting—famine, plague and war have been transformed from incomprehensible and uncontrollable forces of nature into manageable challenges. For the first time ever, more people die from eating too much than from eating too little; more people die from old age than from infectious diseases; and more people commit suicide than are killed by soldiers, terrorists and criminals put together. The average American is a thousand times more likely to die from binging at McDonalds than from being blown up by Al Qaeda. What then will replace famine, plague, and war at the top of the human agenda? As the self-made gods of planet earth, what destinies will we set ourselves, and which quests will we undertake? *Homo Deus* explores the projects, dreams and nightmares that will shape the twenty-first century—from overcoming death to creating artificial life. It asks the

fundamental questions: Where do we go from here? And how will we protect this fragile world from our own destructive powers? This is the next stage of evolution. This is Homo Deus. With the same insight and clarity that made Sapiens an international hit and a New York Times bestseller, Harari maps out our future.

A FINANCIAL TIMES BOOK OF THE YEAR One of our most scintillating public intellectuals explores the political paradoxes of the pandemic and helps us think our way through it 'We are able to imagine anything because we are being besieged by something that was considered unimaginable...'

Beneath the panic and bluster, beneath the confusing speeches and the conflicting advice, the Coronavirus pandemic acted, changing our world in the most profound ways. The tragic human cost and the economic devastation will be assessed and calculated for decades to come. But the pandemic also changed things in ways that are less easily expressed and understood. It has made bare the frayed contradictions of modern life. It has distorted things that seemed simple and settled. It has affirmed plain, uncomfortable truths. In this brilliant, thought-provoking essay, Ivan Krastev, one of our most interesting thinkers today, explores the pandemic's immediate consequences and conceives

of its long-term legacy. Will things be different for the communities most harmed, and for those who escaped the worst? Where are we now with the US and China, with the UK and Europe? And how do we think our way through the unthinkable?

I Have Seen It Tomorrow is a fascinating book. It is informative and profound in its implications. The accounts from two individuals who have personally and regularly experienced Out of Body states. The wealth of information and detail takes the reader on a journey of exploration with extraordinary detail of what it can be like to explore the multidimensional nature of reality. How to repair the disconnect between designers and users, producers and consumers, and tech elites and the rest of us: toward a more democratic internet. In this provocative book, Ramesh Srinivasan describes the internet as both an enabler of frictionless efficiency and a dirty tangle of politics, economics, and other inefficient, inharmonious human activities. We may love the immediacy of Google search results, the convenience of buying from Amazon, and the elegance and power of our

File Type PDF Do It Tomorrow And Other Secrets Of Time Management

Apple devices, but it's a one-way, top-down process. We're not asked for our input, or our opinions—only for our data. The internet is brought to us by wealthy technologists in Silicon Valley and China. It's time, Srinivasan argues, that we think in terms beyond the Valley. Srinivasan focuses on the disconnection he sees between designers and users, producers and consumers, and tech elites and the rest of us. The recent Cambridge Analytica and Russian misinformation scandals exemplify the imbalance of a digital world that puts profits before inclusivity and democracy. In search of a more democratic internet, Srinivasan takes us to the mountains of Oaxaca, East and West Africa, China, Scandinavia, North America, and elsewhere, visiting the “design labs” of rural, low-income, and indigenous people around the world. He talks to a range of high-profile public figures—including Elizabeth Warren, David Axelrod, Eric Holder, Noam Chomsky, Lawrence Lessig, and the founders of Reddit, as well as community organizers, labor leaders, and human rights activists.. To make a better internet, Srinivasan says, we need a new ethic of diversity, openness, and inclusivity, empowering those now excluded from decisions about how technologies are designed, who profits from them, and who are surveilled and exploited by them.

Before speaking at a national political convention about her experiences as a transgender person, the

author struggled with the decision to come out - not just to her family but to the students at her university, where she was serving as student body president. She'd known she was a girl from her earliest memories, but it wasn't until a Facebook post announcing her truth went viral that she realized the impact her story could have on the country. Four years later, the author was one of the nation's most prominent transgender activists, walking the halls of the White House, advocating inclusive legislation, and addressing the country in the midst of a heated presidential election. She had also found her first love and future husband, a trans man and fellow activist, who complemented her in every way ... until cancer tragically intervened. This book is the author's story of love and loss and an account of the LGBTQ community's battle for equal rights.--adapted from dust jacket.

To avenge a long-ago death, a killer puts Toby Peters in his sights On December 10, 1938, Atlanta burned again. In the back lot at David O. Selznick's studio, sets from a dozen old pictures were pushed together and set alight to provide a backdrop for the climax of what Selznick promised to be the movie of the century: Gone with the Wind. Toby Peters, then just a studio security guard, was on hand to help keep the dozens of Confederate extras in line. When the fire was over, he found one of them dead, impaled on his own sword. Five years later, Toby scratches out a living as a private detective for Hollywood's finest, several of whom have just been marked for death. On the back of a cryptic poem is a list of names of men who were on the scene the night the extra died. Two are already dead. One is Clark Gable. The other is Toby himself.

"A rediscovered treasure." — Maureen Corrigan, Washington Post From Betty Smith, author of the beloved classic *A Tree Grows in Brooklyn*, comes a poignant story of love, marriage, poverty, and hope set in 1920s Brooklyn. *Tomorrow Will Be Better* tells the story of Margy Shannon, a shy but joyfully optimistic young woman just out of school who lives with her parents and witnesses how a lifetime of hard work, poverty, and pain has worn them down. Her mother's resentment toward being a housewife and her father's inability to express his emotions result in a tense home life where Margy has no voice. Unable to speak up against her overbearing mother, Margy takes refuge in her dreams of a better life. Her goals are simple—to find a husband, have children, and live in a nice home—one where her children will never know the terror of want or the need to hide from quarreling parents. When she meets Frankie Malone, she thinks her dreams might be fulfilled, but a devastating loss rattles her to her core and challenges her life-long optimism. As she struggles to come to terms with the unexpected path her life has taken, Margy must decide whether to accept things as they are or move firmly in the direction of what she truly wants. Rich with the flavor of its Brooklyn background, and filled with the joys and

heartbreak of family life, Tomorrow Will Be Better is told with a simplicity, tenderness, and warmhearted humor that only Betty Smith could write.
