PREACHING Powell provides a startling study of how differently the pastor and the congregation interpret Scripture, how this difference affects what the congregation hears in the sermon, and how to bridge this gap with equally startling practical steps. This remarkably fascinating book reveals how significant social location—such as age, gender, nationality, race, and education—is when interpreting the Bible. Illustrated with two studies, Mark Allan Powell demonstrates how this plays out most dramatically in the gulf, often quite wide, between the preacher and the congregation. Every preacher who reads this book will appreciate as never before the significance of social differences in the reception of his or her sermon, will see the unmistakable need to bridge this gap, and will receive clear instruction on how to do just that.

Help for Children Who Hear Voices is about five very different children who share one thing in common — hearing voices and seeing things that are not there. Susie is a 9-year-old who keeps her challenges with auditory and visual hallucinations a secret until a teacher alerts her parents of her difficulties at school. With compassion, empathy, love and understanding, Susie's parents encourage her to see a counselor. Susie builds trust and rapport with her counselor, which finally allows her to share her well-guarded secret. After divulging what has been troubling her for years, with her counselor's help, she discovers that she is not the only one in the world who struggles with voices. Susie then introduces readers to four other children of different ethnicities, ages, backgrounds, talents and interests who also

hear voices. All of the children share with readers their challenges with voices and personal life circumstances that contributed to them hearing voices. Then they go on to speak about their personal choices regarding what role they want voices to have in their lives and how counselors helped them achieve their individual goals. *Did You Hear That?* is a beautifully illustrated practical therapeutic storybook for psychologists, psychiatrists and mental health practitioners treating children with auditory and visual hallucinations. While it normalizes the experience and assists children in seeking professional help, it is also an easy to understand and user-friendly guide for concerned parents, teachers, pediatricians and allied health professionals.

"A collection of ten short stories that all take place in the same day about kids walking home from school"--

For twenty-two years, Katherine Bouton had a secret that grew harder to keep every day. An editor at The New York Times, at daily editorial meetings she couldn't hear what her colleagues were saying. She had gone profoundly deaf in her left ear; her right was getting worse. As she once put it, she was "the kind of person who might have used an ear trumpet in the nineteenth century." Audiologists agree that we're experiencing a national epidemic of hearing impairment. At present, 50 million Americans suffer some degree of hearing loss—17 percent of the population. And hearing loss is not exclusively a product of growing old. The usual onset is between the ages of nineteen and forty-four, and in many cases the cause is unknown. *Shouting Won't Help* is a deftly written, deeply felt look at a widespread and misunderstood phenomenon. In the style of Jerome Groopman and Atul Gawande, and using her experience as a guide, Bouton examines the problem personally, psychologically, and physiologically. She speaks with doctors, audiologists, and neurobiologists, and with a variety of people afflicted with midlife hearing loss, braiding their stories with her own to illuminate the startling effects of the condition. The result is a surprisingly engaging account of what it's like to live with an invisible disability—and a robust prescription for our nation's increasing problem with deafness. A Kirkus Reviews Best Nonfiction Book of 2013

Relates the story of a young African woman who fled to the United States to escape ritual genital mutilation and was imprisoned for sixteen months

**NATIONAL BESTSELLER • WINNER OF THE PULITZER PRIZE** • A searing, post-apocalyptic novel about a father and son's fight to survive, this "tale of survival and the miracle of goodness only adds to McCarthy's stature as a living master. It's gripping, frightening and, ultimately, beautiful" (San Francisco Chronicle). A father and his son walk alone through burned America. Nothing moves in the ravaged landscape save the ash on the wind. It is cold enough to crack stones, and when the snow falls it is gray. The sky is dark. Their destination is the coast, although they don't know what, if anything, awaits them there. They have nothing; just a pistol to defend themselves against the lawless bands that stalk

the road, the clothes they are wearing, a cart of scavenged food—and each other. The Road is the profoundly moving story of a journey. It boldly imagines a future in which no hope remains, but in which the father and his son, "each the other's world entire," are sustained by love. Awesome in the totality of its vision, it is an unflinching meditation on the worst and the best that we are capable of: ultimate destructiveness, desperate tenacity, and the tenderness that keeps two people alive in the face of total devastation.

SHORTLISTED FOR THE 2021 SHAUGHNESSY COHEN PRIZE FOR POLITICAL WRITING In Can You Hear Me Now?, Celina Caesar-Chavannes digs deep into her childhood and her life as a young Black woman entrepreneur and politician, and shows us that effective and humane leaders grow as much from their mistakes and vulnerabilities as from their strengths. Celina Caesar-Chavannes, already a breaker of boundaries as a Black woman in business, got into politics because she wanted to make a bigger difference in the world. But when she became the first Black person elected to represent the federal riding of Whitby, Ontario, she hadn't really thought about the fact that Ottawa wasn't designed for someone like her. Celina soon found herself both making waves and breaking down, confronting at night, alone in her Ottawa apartment, all the painful beauty of her childhood and her troubled early adult life. She paid the price for speaking out about micro-aggressions and speaking up for her community and her riding, but she also felt exhilaration and empowerment. As she writes, "This is not your typical leadership book where the person is placed in a situation and miraculously comes up with the right response for the wicked problem. This is the story of me falling in love, at last, with who I am, and finding my voice in the unlikeliest of places." Both memoir and leadership book, Can You Hear Me Now? is a funny, self-aware, poignant, confessional and fierce look at how failing badly and screwing things up completely are

truly more powerful lessons in how to conduct a life than extraordinary success. They build an utter honesty with yourself and others that allows you to say things nobody else dares to say--the necessary things about navigating the places that weren't built for you and holding firm to your principles. And, if you do that, you will help build a world where inclusion is real. Just as Celina is now trying to do, in all her brilliance and boldness.

A father guides his daughter on how to lead a virtuous life. A gripping tale that grapples with the universal pain of grief and loss of a loved one. Scarlett's story explores how our loved ones' spirit stays with us in the face of challenges. Like the bestsellers *Princess and Not Without My Daughter*, *Do They Hear You When You Cry?* tells the dramatic, compulsively readable story of a woman fighting to free herself from the injustices of her culture. Fauziya Kassindja's harrowing story begins in Togo, Africa, where she enjoyed a sheltered childhood, shielded by her progressive father from the tribal practice of polygamy and genital mutilation. But when her father died in 1993, Fauziya's life changed dramatically. At the age of seventeen, she was forced to marry a man she barely knew who already had three wives, and prepare for the tribal ritual practice of genital mutilation - a practice that is performed without painkillers or antibiotics. But hours before the ritual was to take place, Fauziya's sister helped her escape to Germany, and from there she travelled to the United States seeking asylum - and freedom. Instead she was stripped, shackled and imprisoned for sixteen months by the Immigration and Naturalization Service. Enter Layli Miller Bashir, a twenty-three-year-old law student who took on Fauziya's case. When the two women met, Layli found a broken, emaciated girl with whom she forged an extraordinary friendship. Putting her heart into Fauziya's case, Layli enlisted help from the American University International Human Rights Clinic. The clinic's acting director Karen Musalo, an expert in refugee law, assembled a team to fight on Fauziya's behalf. Ultimately, in a landmark decision that has given hope to many seeking asylum on the grounds of gender-based persecution, Fauziya was granted asylum on 13 June 1996. Here, for the first time, is Fauziya's dramatic personal story, told in her own words, vividly detailing her life as a young woman in Togo and her nightmarish day-to-day existence in American prisons. It is a story of faith and freedom, courage and inspiration - one that you will not easily forget.

A classic work of American literature that has not stopped changing minds and lives since it burst onto the literary scene, *The Things They Carried* is a ground-breaking meditation on war, memory, imagination, and the redemptive power of storytelling. *The Things They Carried* depicts the men of Alpha Company: Jimmy Cross, Henry Dobbins, Rat Kiley, Mitchell Sanders, Norman Bowker, Kiowa, and the character Tim O'Brien, who has survived his tour in Vietnam to become a father and writer at the age of forty-three. Taught everywhere—from high school classrooms to graduate seminars in creative writing—it has become required reading for any American and continues to challenge readers in their perceptions of fact and fiction, war and peace, courage and fear and longing. *The Things They Carried* won France's prestigious Prix du Meilleur Livre Etranger and the Chicago Tribune Heartland Prize; it was also a finalist for the Pulitzer Prize and the National Book Critics Circle Award.

The story of one African-American family fighting to stay together and strong in the face of brutal racist attacks, illness, poverty, and betrayal in the Deep South of the 1930s.

The inspiration for the major motion picture, *THE IRISHMAN*. Includes an Epilogue and a Conclusion that detail substantial post-publication corroboration of Frank Sheeran's confessions to the killings of Jimmy Hoffa and Joey Gallo. "Sheeran's confession that he killed Hoffa in the manner described in the book is supported by the forensic evidence, is entirely credible, and solves the Hoffa mystery." — Michael Baden M.D., former Chief Medical Examiner of the City of New York "Charles Brandt has solved the Hoffa mystery." —Professor Arthur Sloane, author of Hoffa "It's all true." — New York Police Department organized crime homicide detective Joe Coffey "I heard you paint houses" are the first words Jimmy Hoffa ever spoke to Frank "the Irishman" Sheeran. To paint a house is to kill a man. The paint is the blood that splatters on the walls and floors. In the course of nearly five years of recorded interviews, Frank Sheeran confessed to Charles Brandt that he handled more than twenty-five hits for the mob, and for his friend Hoffa. He also provided intriguing information about the Mafia's role in the murder of JFK. Sheeran learned to kill in the US Army, where he saw an astonishing 411 days of active combat duty in Italy during World War II. After returning home he became a hustler and hit man, working for legendary crime boss Russell Bufalino. Eventually Sheeran would rise to a position of such prominence that in a RICO suit the US government would name him as one of only two non-Italians in conspiracy with the Commission of La Cosa Nostra, alongside the likes of Anthony "Tony Pro" Provenzano and Anthony "Fat Tony" Salerno. When Bufalino ordered Sheeran to kill Hoffa, the Irishman did the deed, knowing that if he had refused he would have been killed himself. Charles Brandt's page-turner has become a true crime classic.

Have you ever given consideration to what it would be like to be deaf? Not hearing a single sound. Sure, it's quiet in your house, but you still hear sounds. I would like to think the sensation would be equitable to being underwater, but that would not be a true statement. You can still hear things while being underwater: Waves swishing and people talking above the water - yelling or laughing. Deafness is pure silence. When something big drops to the floor, I "feel" the thump it made. When my dogs bark, I can't hear them, but if they jump on my bed while I'm sleeping, I can feel they are present to wake me for an incoming visitor, burglar, tornado or other natural disaster. This book is a candid, and comical view about hearing loss, Meniere's Disease, vertigo, and the process of undergoing cochlear implant surgery. It also goes into depression and coping mechanisms for all of the above. It is a MUST read for someone or anyone you know (possibly yourself, but you won't admit it), who may be suffering from hearing loss. Progressive hearing loss is subtle. The sounds we often take for granted you no longer hear. Pay attention to your surroundings next time you are outside. Can you still hear the birds?

*I Hear You, Horse.* is full of meaningful life adventures as shared by an ex-corporate executive who found his calling when he founded the non-profit organization, Tierra Madre Horse Sanctuary. Tierra Madre Horse Sanctuary, located in Cave Creek, Arizona, is a sanctuary rescue ranch - a "Forever Home" to 31 previously unwanted, neglected, injured or abused horses. Ex-racehorses, ex-show horses, ex-rodeo horses, ex-ranch horses, ex-trail horses - horses of all sizes and breeds have found their way to Tierra Madre. Jim Gath comes from a family of horsemen - his grandfather was a trick rider, trainer and horse trader, one of his uncles was a jockey and another was an owner of rather questionably talented racehorses. As a kid, horses were an important part of his life, but he began his adult life taking a different trail. This book provides a guide that offers riders a proven method of establishing an excellent physical and emotional relationship with their horse. Horses are great at trying to tell us what they need. The trouble is we aren't always listening! Horses communicate with body language and behavior to inform us when something isn't right. Sometimes it is a question of understanding their behavior, sometimes it means we need to change our way of handling them. Author Jim Gath has never, ever met a horse he didn't like. "You just have to listen to them," he says. "They'll tell you everything you need to know." TIERRA MADRE HORSE SANCTUARY is simply a very nice, very loving home for horses who, through no fault of their own, have no better place to go. Good food, good care, a lot of room, a lot of love and understanding and a lot of treats - a place where horses can enjoy being horses. Jim Gath is also the author of *264 W 40th Street - A*
