Different components of grammar interact in non-trivial ways. It has been under debate what the actual range of interaction is and how we can most appropriately represent this in grammatical theory. The volume provides a general overview of various topics in the linguistics of Romance languages by examining them through the interaction of grammatical components and functions as a state-of-the-art report, but at the same time as a manual of Romance languages.

This book has been considered by academicians and scholars of great significance and value to literature. This forms a part of the knowledge base for future generations. DOCTOR TIME, investigatore dell'immaginario (Romanzo seriale per bambini e ragazzi) Giko Greent alias Doctor Time è un giovane investigatore privato decisamente singolare: i suoi clienti abituali sembrano infatti essere (e forse sono davvero) i miti ed i personaggi della fantasia di ogni tempo e luogo: da Babbo Natale a Mago Merlino, da Pinocchio a Peter Pan e molti altri, tutti in cerca d'aiuto perché minacciati di "estinzione" dai poteri economici e mediatici che governano un'umanità sempre più cinica e piatta, dove pare non esserci più posto per l'infanzia ed i sogni dei bambini! EPISODIO 1: CHI VUOLE UCCIDERE BABBO NATALE? Blue Babilonia, dicembre 2018, mancano pochi giorni alla vigilia di Natale. Agli uffici della Time Agency dell'investigatore privato e dell'immaginario Giko Greent, in arte Doctor Time, si presenta uno strano figuro che senza troppo tergiversare asserisce convinto di essere in possesso niente popò di meno che del cappellino originale del leggendario Santa Klaus, Babbo Natale! Giko sulle prime pare non prendere troppo sul serio

né il visitatore e né tantomeno quel che dice, ma proprio quando la conversazione comincia a diventare interessante l'uomo col cappellino rosso in mano ha un improvviso malore e cade a terra di schianto. Da questo momento comincia un'avventura molto particolare per Doctor Time, suo zio l'esimio professor Tobias Greent, la moglie Paulette ed un manipolo di loro amici simpatici e coraggiosi. Un'avvincente storia il cui epilogo rischia però di essere il triste annuncio della notizia che nessun bambino al mondo vorrebbe mai ascoltare alla radio, vedere in tivù o leggere sulla rete:

"Babbo Natale è stato ucciso e non tornerà mai più!"

After more than three centuries of silence, the voice of Francesco Cavalli is being heard loud and clear on the operatic stages of the world. The coincidence of productions at La Scala (Milan) and Covent Garden (London) in the same month (September 2008) of two different operas signals a new stage in the recovery of these extraordinary works, confined until now to special venues committed to 'early music'-opera festivals, conservatory, and university productions. The works of the composer who is credited with having invented the genre of opera as we know it are finally enjoying a renaissance. A new edition of Cavalli's twenty-eight operas is in preparation, and the composer and his works are at the center of a great deal of new scholarship ranging from the study of sources and production issues to the cultural context of opera of this period. In the face of such burgeoning interest, this collection of essays considers the Cavalli revival from various points of view. In particular, it explores the multiple issues involved in the transformation of an operatic manuscript into a performance. Although focused on the works of Cavalli, much of this material can transfer easily to other operatic repertoires. Following an introductory part, reflecting back on four decades of Cavalli performances by some of the conductors responsible for the revival of

interest in the composer, the collection is divided into four further parts: The Manuscript Scores, Giasone: Production and Interpretation, Making Librettos, and Cavalli Beyond Venice.

This book is the first to establish the relevance of same-sex desires, pleasures and anxieties in the cinema of post-war Italy. It explores cinematic representations of homosexuality and their significance in a wider cultural struggle in Italy involving society, cinema, and sexuality between the 1940s and 1970s. Besides tracing the evolution of representations through both art and popular films, this book also analyses connections with consumer culture, film criticism and politics. Giori uncovers how complicated negotiations between challenges to and valorization of dominant forms of knowledge of homosexuality shaped representations and argues that they were not always the outcome of hatred but also sought to convey unmentionable pleasures and complicities. Through archival research and a survey of more than 600 films, the author enriches our understanding of thirty years of Italian film and cultural history.

From the author of *White Noise* (winner of the National Book Award) and *The Silence*, an eerily convincing fictional speculation on the events leading up to the assassination of John F. Kennedy In this powerful, unsettling novel, Don DeLillo chronicles Lee Harvey Oswald's odyssey from troubled teenager to a man of precarious stability who imagines himself an agent of history. When "history" presents itself in the form of two disgruntled CIA operatives who decide that an unsuccessful attempt on the life of the president will galvanize the nation against communism, the scales are irrevocably tipped. A gripping, masterful blend of fact and

fiction, alive with meticulously portrayed characters both real and created, *Libra* is a grave, haunting, and brilliant examination of an event that has become an indelible part of the American psyche.

This book explores the tangled relationship between literary production and epistemological foundation as exemplified in one of the masterpieces of Italian literature. Filippo Andrei argues that Giovanni Boccaccio's *Decameron* has a significant though concealed engagement with philosophy, and that the philosophical implications of its narratives can be understood through an epistemological approach to the text. He analyzes the influence of Dante, Petrarch, Thomas Aquinas, Aristotle, and other classical and medieval thinkers on Boccaccio's attitudes towards ethics and knowledge-seeking. Beyond providing an epistemological reading of the *Decameron*, this book also evaluates how a theoretical reflection on the nature of rhetoric and poetic imagination can ultimately elicit a theory of knowledge.

Both volumes translated by Jamie Richards.

<http://dx.doi.org/10.12946/gplh6><http://www.epubli.de/shop/buch/53894>"The spatiotemporal conjunction is a fundamental aspect of the juridical reflection on the historicity of law. Despite the fact that it seems to represent an issue directly connected with the question of where legal history is heading today, it still has not been the object of a focused inquiry. Against this background, the book's proposal consists in rethinking key confluences related to this problem in order to provide coordinates for a collective understanding and

dialogue. The aim of this volume, however, is not to offer abstract methodological considerations, but rather to rely both on concrete studies, out of which a reflection on this conjunction emerges, as well as on the reconstruction of certain research lines featuring a spatiotemporal component. This analytical approach makes a contribution by providing some suggestions for the employment of space and time as coordinates for legal history. Indeed, contrary to those historiographical attitudes reflecting a monistic conception of space and time (as well as a Eurocentric approach), the book emphasises the need for a delocalized global perspective. In general terms, the essays collected in this book intend to take into account the multiplicity of the spatiotemporal confines, the flexibility of those instruments that serve to create chronologies and scenarios, as well as certain processes of adaptation of law to different times and into different spaces. The spatiotemporal dynamism enables historians not only to detect new perspectives and dimensions in foregone themes, but also to achieve new and compelling interpretations of legal history. As far as the relationship between space and law is concerned, the book analyses experiences in which space operates as a determining factor of law, e.g. in terms of a field of action for law. Moreover, it outlines the attempted scales of spatiality in order to develop legal historical research. With reference to the connection between time and law, the volume sketches the possibility of considering the factor of time, not just as a descriptive tool, but as an ascriptive moment (quasi an inner feature) of a legal problem, thus

making it possible to appreciate the synchronic aspects of the 'juridical experience'. As a whole, the volume aims to present spatiotemporality as a challenge for legal history. Indeed, reassessing the value of the spatiotemporal coordinates for legal history implies thinking through both the thematic and methodological boundaries of the discipline."

Questa raccolta di poesie e di racconti popolari anonimi in dialetto molisano tracciano il percorso di due storie che, pur diversificate, si compenetrano e si completano a vicenda: la storia individuale dell' autore e la storia collettiva della societa di un paese del Sud. Le immagini di un mondo apparentemente immobile e arcaico si alternano alle vicende di una realta storica complessa e tormentata, nel cui magma vecchio e nuovo si scontrano e si fondono. This collection of poems and anonymous folktales in the Molisan dialect traces the unfolding of two stories which, although distinct, interweave and complete each other: the author's individual story and the story of a town in the South of Italy. The images of an apparently immobile and archaic world alternate with the events of a complex and tormented historical reality, in whose magma the new and the old clash and fuse."

Brazil to India, and the parallel lives of Machiavelli and the bureaucrat Cel?lz?de Mu??afá. Ten distinguished scholars analyse the backgrounds, circulation and reception of Machiavelli's writings, focusing on many aspects of the mutual exchange of political theories and grammars between East and West. A significant contribution to attempts by current scholarship to challenge any rigid separation within Eurasia, this volume restores a sense of the global spreading of books, ideas and men in the past.

This book is the first dedicated volume of academic analysis on the monumental work of Elena Ferrante, Italy's most well-known contemporary writer. *The Works of Elena Ferrante: Reconfiguring the Margins* brings together the most exciting and innovative research on Ferrante's treatment of the intricacies of women's lives, relationships, struggles, and dilemmas to explore feminist theory in literature; questions of gender in twentieth-century Italy; and the psychological and material elements of marriage, motherhood, and divorce. Including an interview from Ann Goldstein, this volume goes beyond "Ferrante fever" to reveal the complexity and richness of a remarkable oeuvre.

clearer explanations, as well as a greater emphasis on areas of particular difficulty for learners of Italian. Francesco Koslovic--even his name straddles two cultures. And during the spring of 1955, in the village of Materada on the Istrian Peninsula, his two worlds are coming apart. Materada, the first volume of Fulvio Tomizza's celebrated Istrian Trilogy, depicts the Istrian exodus of the hundreds of thousands who had once thrived in a rich ethnic mixture of Italians and Slavs. Complicating Koslovic's own departure is his attempt to keep the land that he and his brother have worked all their lives. A picture of a disappearing way of life, a tale of feud and displacement, and imbued with the tastes, tales, and songs of his native Istria, Koslovic's story is a testament to the intertwined ethnic roots of Balkan

The twentieth century saw a proliferation of media discourses on colonialism and, later, decolonisation. Newspapers, periodicals, films, radio and TV broadcasts contributed to the construction of the image of the African “Other” across the colonial world. In recent years, a growing body of literature has explored the role of these media in many colonial societies. As regards the Italian context, however, although several works have been published about the links between colonial culture and national identity, none have addressed the specific role of the media and their impact on collective memory (or lack thereof). This book fills that gap, providing a review of images and themes that have surfaced and resurfaced over time. The volume is divided into two sections, each organised around an underlying theme: while the first deals with visual memory and images from the cinema, radio, television and new media, the second addresses the role of the printed press, graphic novels and comics, photography and trading cards. The emergence of cinema as a predominant form of mass entertainment in the 1910s inspired

intellectuals to rethink their definitions of art. *The Great Black Spider on Its Knock-Kneed Tripod* traces the encounter of Italy's writers with cinema, and in doing so offers vibrant new perspectives on the country's early twentieth-century culture. This comparative study focuses on the immediate responses to this cultural phenomenon of three highly influential intellectuals, each with a competing aesthetic vision – Filippo Tommaso Marinetti, founder of Futurism; Gabriele D'Annunzio, leader of Italian Decadentism; and Luigi Pirandello, a father of modern European theatre and theorist of humour. Along with demonstrating how the popularization of the feature-length narrative influenced each author's outlook and theories, Michael Syrimis unravels the extent to which cinema enforced or neutralized the ideological and aesthetic differences between them. Lawrence Venuti, winner of a Guggenheim fellowship and the Global Humanities Translation Prize, among many other awards, has translated into English these Italian Gothic tales of obsessive love, mysterious phobias, and the hellish curse of everlasting life. In this collection of nine eerie stories, Iginio Ugo Tarchetti switches effortlessly between the macabre and the breezily comical. Set in nineteenth-century Italy, his characters court spirits and blend in with the undead: passionate romances filled with jealousy and devotion are fueled by magic elixirs. Time becomes fluid as characters travel

between centuries, chasing affairs that never quite prosper. First published by Mercury House in 1992. &lt;The Intellectual as a Detective: From Leonardo Sciascia to Roberto Saviano offers a fresh perspective on both Italian crime fiction and the role of the intellectual in Italian society. By analyzing the characterization of men of culture as investigators, this book addresses their social commitment in a period that goes from the Sixties to today. The connection it establishes between fiction and real life makes this book an interesting addition to the debate on crime literature and its social function in Italy. The detectives created by Sciascia, Eco, Pasolini, Saviano and other novelists foster a reflection on how the narrative aspect of characterization has been used in connection with a historical perspective. Thanks to its broad scope, not limited to a single author, this book can be studied in undergraduate and graduate classes on the Italian detective novel, and it can be a helpful resource for scholars interested in characterization and the transforming figure of the intellectual in Italian society.

The time of Carnival represents a “wild” time at the end of winter and pointing to the beginning of a new season. It is characterized by the irruption of border figures, animal masks, characters which recall the world of the dead and which bring within themselves the germ of a vital force, of the energy that produces the reawakening of nature and announces the growth and fertility of the new crops. This wild domain shows

## Access Free Doctor Time Chi Vuole Uccidere Babbo Natale

itself under the shapes of a contiguity between human and animal: the costumes, the masks, refer to a world in which the characteristics of the human and those of the animal are fused and intertwined. Among these figures, in particular, emerge those of the Wild Man, the human being who takes on animal-like attributes and aspects, and of the Bear, the animal that, more than all the others, gets as close as possible to the human and seems to reflect a deformed image of it. Such symbolic images come from far off times and places to tell a story that belongs to our common origins. The bear assumes attributes and functions alike in very different cultural contexts, such as the Sámi of Finland or North-American hunter-gatherers, and represents a boundary between the world of nature and the human world, between the domain of animals and the difficult construction of humanity: a process continued for centuries, perhaps millennia, and which cannot still be said complete.

Split intransitivity has received a great deal of attention in theoretical linguistics since the formulation of the

# Access Free Doctor Time Chi Vuole Uccidere Babbo Natale

Unaccusative Hypothesis by David Perlmutter (1978). This book provides an in-depth investigation of split intransitivity as it occurs in Italian. The principal proposal is that the manifestations of split intransitivity in Italian, whilst being variously constrained by well-formedness conditions on the encoding of information structure, primarily derive from the tension between accusative (syntactic) and active (semantic) alignment. In contrast to approaches which consider the selection of the perfective operator to be the primary diagnostic of unaccusative or unergative syntax, this study identifies two morphosemantic domains in intransitive constructions on the basis of the analysis of a cluster of related phenomena (including agreement, argument suppression, ne -cliticization, past-participle behaviour, the morphosyntax of experiencer predicates and word order, as well as the selection of the perfective operator). Analysing the degree to which semantic, syntactic and discourse factors interact in determining each manifestation of split intransitivity, this work captures successfully the mismatches in the scope of the various diagnostics. Drawing upon insights provided by Role and Reference Grammar, and relying on corpus-based evidence and crossdialectal comparison, this study makes new empirical and theoretical contributions to the debate on split intransitivity. The book is accessible to linguists of all theoretical persuasions and will make stimulating reading for researchers and scholars in Italian and Romance linguistics, typology and theoretical linguistics. However, finding men who have knowledge of this wondrous stone proves almost impossible. After much searching, Edgardo meets a mysterious man who offers him a deal: he will lead him to the makers of the lapides ad legendum in exchange for Edgardo's stealing a secret Arabic scientific text that is kept in the abbey where Edgardo lodges. When a series of horrific crimes shakes the cloistered world of the glassmakers, Edgardo realizes that there is much more at stake than his faltering eyesight. In recent years, there has been an explosion of critical interest in the icons, genres and traditions of 1970s Italian cult film. and often controversial films are now impacting on new generations of filmmakers, scholars and moviegoers alike. *Bodies of Desire and Bodies in Distress: The Golden Age of Italian Cult Cinema 1970–1985* considers the current interest in specific Italian directors and cult genres, exploring the social, political and cultural factors that spawned a decade of cinema dominated by extreme, yet stylish, images of sexuality and violence. *Bodies of Desire and Bodies in Distress* situates the explosion of 1970s Italian cult ‘excess’ against the toxic backdrop of political violence and terrorist activity that produced shocking images of carnage and crime during this period. The volume also considers why the iconography of the sexually liberated female became recast as a symbol of fear and violation in a range of Italian cult film narratives. In addition, the book also analyses how longstanding regional distinctions between Italy’s urban North and the much maligned rural South fed into sex and death cycles produced between 1970 and 1985. *Bodies of Desire and Bodies in Distress* profiles leading 1970s Italian directors and performers including Aristide Massaccesi (Joe D’Amato), Laura Gemser, and Dario Argento (who also provides an interview discussing his work and 1970s Italian society). The volume also provides case-studies of the giallo cycle, rape and revenge dramas, the Italian rogue cop series, post-apocalypse films, barbarian movies,

and sex comedy formats. By considering the icons and genres from the golden age of Italian cult film alongside the crucial social and sexual tensions that influenced their creation, this book will be of interest to film scholars and cult movie fans alike.
