Doctor Who: The Legends of River Song Jenny T Colgan, Jacqueline Rayner, Steve Lyons, Guy Adams, Andrew Lane, 2016-02-11 'Hello, sweetie!' Melody Pond, Melody Malone, River Song...She has had many names. Whoever she really is, this archaeologist and time traveller has had more adventures (and got into more trouble) than most people in the universe. And she's written a lot of it down. Well, when you're married to a Time Lord (or possibly not), you have to keep track of what you did and when. Especially as it may not actually have happened to both of you yet. These are just a few of River Song's exploits, extracted from her journals. Sometimes, she is with the Doctor. Sometimes she's on her own. But wherever and whenever she may be, she is never far from danger and excitement. This is just a tiny portion of her impossible life. But it will reveal more than you've ever known about the legend that is River Song.

**Doctor Who: The Angel's Kiss** Justin Richards, 2012-10-04 On some days, New York is one of the most beautiful places on Earth. This was one of the other days... Melody Malone, owner and sole employee of the Angel Detective Agency, has an unexpected caller. It's movie star Rock Railton, and he thinks someone is out to kill him. When he mentions the 'kiss of the Angel', she takes the case. Angels are Melody's business... At the press party for Railton's latest movie, studio owner Max Kliener invites Melody to the film set of their next blockbuster. He's obviously spotted her potential, and Melody is flattered when Kliener asks her to become a star. But the cost of fame, she'll soon discover, is greater than anyone could possibly imagine. Will Melody be able to escape Kliener's dastardly plan - before the Angels take Manhattan?

Cold, isolated, forgotten. Until the Russian Special Forces arrive and discover that the Doctor and his companions are here too. But there is something else in Novrosk. Something that predates even the stone circle on the cliff top. Something that is at last waking, hunting, killing. Can the Doctor and his friends stay alive long enough to learn the truth? With time running out, they must discover who is really responsible for the Deviant Strain... Featuring the Ninth Doctor as played by Christopher Eccleston, together with Rose and Captain Jack as played by Billie Piper and John Barrowman in the hit Doctor Who series from BBC Television.

Anachrophobia Jonathan Morris,2002 An Eighth Doctor novel with Fitz and Anji. The Doctor, Fitz and Anji are forced to land in inhospitable terrain as something disables the Tardis. Reconnaissance proves it to be a planet in revolt, with colonists trying to break free from the harsh clutches of the Plutocratic Empire. The principal weapon in this war: time itself. Soldiers continually find themselves in Time Storms: without protective clothing, they are aged to death in seconds. The Tardis crew are picked up by empire personnel, and discover the empire's hope for victory: a primitive time-travel capsule. It is undergoing tests at the moment, but the men who return from these missions return horribly changed. They're picking up a terrible infection: anachrophobia; losing their time-orientation; travelling backwards and forwards within their own lifetimes; losing their minds. The Doctor is desperate to halt the spread of the disease, but his efforts are constantly frustrated. The plague reveals that there's a lot more about the motives of all involved than anybody had imagined...

Camera Obscura Lloyd Rose,Various,2002 The Doctor's second heart was taken from his body -- for his own good, he was told. *Doctor Who* Justin Richards,1999 The Doctor, Sam and Fitz land on the Vega station, a pleasure center given over to gambling, shopping and the Arts. It hangs on the edge of Battulian Space, close to the Earth colony's frontier with the Canvine, huge, wolf-like dog creatures. The Earth colony president is arriving to attend an exhibition of the 3-D reality scans in oil paintings of Toulour Martinique. But the Doctor soon discovers there is more to the paintings than meets the eye. A dark secret is hidden behind the shallow delights of the station, and it seems that it is not only the President who is marked for death but the Doctor and his friends, too.

**Adventures Across Space and Time** ,2023-10-19 *Adventures Across Space and Time* brings together key academic, critic and fan writings about Doctor Who alongside newly-commissioned work addressing contemporary issues and debates to form a comprehensive guide to the wider Whoniverse. The perennially popular BBC series holds a unique place in the history of television and of TV fandom: the longest running science-fiction show, the series and its fan communities have tracked social and cultural changes over its 60 year lifetime. *Adventures Across Space and Time* presents classic writings on Who and its fandom by leading scholars including John Fiske, Henry Jenkins, John Tulloch and Matt Hills, but also represents writings and art by fans, including fans who went on to become showrunners, writers or even the Doctor himself, with

contributions by Steven Moffat, Chris Chibnall, Douglas Adams and Peter Capaldi. This innovative anthology addresses Doctor Who's showrunners, Doctors, companions, enemies and collaborators as well as issues and debates around queer fandom, intersectionality, the 'wokeness' of the Doctor, fan media including websites, podcasts and vlogs, fan activism and questions of race and sexuality in relation to the show and its spin offs. It considers Doctor Who as a peculiarly British phenomenon but also one that has delighted, engaged and sometimes enraged viewers around the world.

**100 Objects of Doctor Who** Philip Bates, 2025-01-17 100 Objects of Dr Who is a celebration of everyone's favourite sci-fi show. Perfect for fans, no matter your mileage. It is ingeniously structured as a choose your own adventure-style tour around a Doctor Who museum floating in outer space. Irreverent yet exhaustive, this is a reference book with a twist!

**Steven Moffat's Doctor Who 2011** Steven Cooper, Kevin Mahoney, 2012 At over 90,000 words, this is the most comprehensive guide yet published to the 2011 season of Doctor Who. This series of Doctor Who had the greatest ambition yet, as Steven Moffat created the most complex Doctor Who story arc ever. The apparent death of the Doctor in the very first episode set the groundwork for a series full of other shocks and revelations (such as River Song's identity), which ended with a return to the essential mystery that has always underpinned the programme. The format of this book is the same as the one that we laid out in our previous guide to Matt Smith's first series as the Doctor. Steven Cooper has written excellent detailed analyses of each episode, which he published online soon after each episode was broadcast, thus providing an invaluable record of how a long-standing fan reacted to each twist of the plot as it occurred. Kevin Mahoney follows Steven's analyses with his reviews, which he wrote from the perspective of having watched the entire series. This enabled Kevin to gauge exactly how Steven Moffat had put this season together, and to assess the success of his various hoodwinks and sleights of hand. There have been various controversies this series, such as Moffat's novel move to split the series in half. Then there were murmurings of discontent within fandom when the news that there might be fewer than 14 episodes in 2012 leaked out, along with the perennial erroneous tales from the newspapers about the loss of viewing figures. The cancellation of Doctor Who Confidential left some fans fearing for the future of such an expensive show in austere times. Others have gone further than this, to suggest that Doctor Who itself needs a break. However, despite some minor blips in the storytelling department in 2011, this book argues that there is still a great deal to be positive about in Doctor Who. While we haven't quite yet reached another golden age for the programme, the authors of this book believe that the potential is still very much there to achieve this.
