

Does The Center Hold Donald Palmer 5th Edition

An instant #1 New York Times bestseller. The definitive behind-the-scenes story of Trump's final year in office, by Phil Rucker and Carol Leonnig, the Pulitzer-Prize winning reporters and authors of *A Very Stable Genius*. “Chilling.” – Anderson Cooper “Jaw-dropping.” – John Berman “Shocking.” – John Heilemann “Explosive.” – Hallie Jackson “Blockbuster new reporting.” – Nicolle Wallace “Bracing new revelations.” – Brian Williams “Bombshell reporting.” – David Muir The true story of what took place in Donald Trump’s White House during a disastrous 2020 has never before been told in full. What was really going on around the president, as the government failed to contain the coronavirus and over half a million Americans perished? Who was influencing Trump after he refused to concede an election he had clearly lost and spread lies about election fraud? To answer these questions, Phil Rucker and Carol Leonnig reveal a dysfunctional and bumbling presidency’s inner workings in unprecedented, stunning detail. Focused on Trump and the key players around him—the doctors, generals, senior advisers, and Trump family members— Rucker and Leonnig provide a forensic account of the most devastating year in a presidency like no other. Their sources were in the room as time and time again Trump put his personal gain ahead of the good of the country. These witnesses to history tell the story of him longing to deploy the military to the streets of American cities to crush the protest movement in the wake of the killing of George Floyd, all to bolster his image of strength ahead of the election. These sources saw firsthand his refusal to take the threat of the coronavirus seriously—even to the point of allowing himself and those around him to be infected. This is a story of a nation sabotaged—economically, medically, and politically—by its own leader, culminating with a groundbreaking, minute-by-minute account of exactly what went on in the Capitol building on January 6, as Trump’s supporters so easily breached the most sacred halls of American democracy, and how the president reacted. With unparalleled access, Rucker and Leonnig explain and expose exactly who enabled—and who foiled—Trump as he sought desperately to cling to power. A classic and heart-racing work of investigative reporting, this book is destined to be read and studied by citizens and historians alike for decades to come.

LooseLeaf for *Does the Center Hold? An Introduction to Western Philosophy* McGraw-Hill Education

Does the Center Hold? is an entertaining, topically-organized introductory text with more than 500 original illustrations. The ideas and issues typically covered in introductory philosophy courses are presented here in a remarkably accessible and enjoyable manner. Donald Palmer demonstrates that serious philosophical inquiry may be perplexing, but is ultimately liberating, and students will come away from the book with a comprehensive, and often delighted, understanding of philosophy.

In this revelatory, authoritative portrait of Donald J. Trump and the toxic family that made him, Mary L. Trump, a trained clinical psychologist and Donald’s only niece, shines a bright light on the dark history of their family in order to explain how her uncle became the man who now threatens the world’s health, economic security, and social fabric. Mary Trump spent much of her childhood in her grandparents’ large, imposing house in the heart of Queens, New York, where Donald and his four siblings grew up. She describes a nightmare of traumas, destructive relationships, and a tragic combination of neglect and abuse. She explains how specific events and general family patterns created the damaged man who currently occupies the Oval Office, including the strange and harmful relationship between Fred Trump and his two oldest sons, Fred Jr. and Donald. A firsthand witness to countless holiday meals and interactions, Mary brings an incisive wit and unexpected humor to sometimes grim, often confounding family events. She recounts in unsparing detail everything from her uncle Donald’s place in the family spotlight and Ivana’s penchant for regifting to her grandmother’s frequent injuries and illnesses and the appalling way Donald, Fred Trump’s favorite son, dismissed and derided him when he began to succumb to Alzheimer’s. Numerous pundits, armchair psychologists, and journalists have sought to parse Donald J. Trump’s lethal flaws. Mary L. Trump has the education, insight, and intimate familiarity needed to reveal what makes Donald, and the rest of her clan, tick. She alone can recount this fascinating, unnerving saga, not just because of her insider’s perspective but also because she is the only Trump willing to tell the truth about one of the world’s most powerful and dysfunctional families.

* Winner of the 2017 National Book Critics Circle Award * National Book Award Finalist * Time magazine Top 10 Nonfiction Book of the Year * New York Times Notable Book * Publishers Weekly Best Books of 2017 This “epic history” (The Boston Globe) from Pulitzer Prize-winning historian Frances FitzGerald is the first to tell the powerful, dramatic story of the Evangelical movement in America—from the Puritan era to the 2016 election. “We have long needed a fair-minded overview of this vitally important religious sensibility, and FitzGerald has now provided it” (The New York Times Book Review). The evangelical movement began in the revivals of the eighteenth and nineteenth centuries, known in America as the Great Awakenings. A populist rebellion against the established churches, it became the dominant religious force in the country. During the nineteenth century white evangelicals split apart, first North versus South, and then, modernist versus fundamentalist. After World War II, Billy Graham attracted enormous crowds and tried to gather all Protestants under his big tent, but the civil rights movement and the social revolution of the sixties drove them apart again. By the 1980s Jerry Falwell and other southern televangelists, such as Pat Robertson, had formed the Christian right. Protesting abortion and gay rights, they led the South into the Republican Party, and for thirty-five years they were the sole voice of evangelicals to be heard nationally. Eventually a younger generation proposed a broader agenda of issues, such as climate change, gender equality, and immigration reform. Evangelicals now constitute twenty-five percent of the American population, but they are no longer monolithic in their politics. They range from Tea Party supporters to social reformers. Still, with the decline of religious faith generally, FitzGerald suggests that evangelical churches must embrace ethnic minorities if they are to survive. “A well-written, thought-provoking, and deeply researched history that is impressive for its scope and level of detail” (The Wall Street Journal). Her “brilliant book

could not have been more timely, more well-researched, more well-written, or more necessary” (The American Scholar).

Distilled from Donald Palmer’s more than thirty years of teaching experience, this text exemplifies his very successful approach to teaching introductory philosophy. Through the use of humor and nearly 400 drawings, charts, and diagrams, serious philosophical topics come alive for the reader without compromising the importance of the subject matter. In the author’s words, “This book takes philosophy seriously, but not gravely.”

Poses arguments that high-level officials in the Bush administration were directly responsible for war crimes, in a report that draws on source documents to reveal the activities of what the authors call a "torture program" that was organized in hostile states throughout the world.

“What is Structuralism? How is it possible? And once the structures of Structuralism have been discovered, how is Poststructuralism possible?” Thus begins Don Palmer’s Structuralism and Poststructuralism For Beginners. If Nobel or Pulitzer ever made a prize for making the most difficult philosophers and ideas accessible to the greatest number of people, one of the leading candidates would certainly be Professor Don Palmer. From his Sartre For Beginners and Kierkegaard For Beginners to his Looking at Philosophy, author/illustrator Don Palmer has the magic touch when it comes to translating the most brutally difficult ideas into language and images that non-specialists can understand. “In its less dramatic versions,” writes Palmer, “structuralism is just a method of studying language, society, and the works of artists and novelists. But in its most exuberant form, it is a philosophy, an overall worldview that provides an account of reality and knowledge.” Poststructuralism is a loosely knit intellectual movement, comprised mainly of ex-structuralists, who either became dissatisfied with the theory or felt they could improve it. Structuralism and Poststructuralism For Beginners is an illustrated tour through the mysterious landscape of Structuralism and Poststructuralism. The book’s starting point is the linguistic theory of Ferdinand de Saussure. The book moves on to the anthropologist and literary critic Claude Lévi-Strauss; the semiologist and literary critic Roland Barthes; the Marxist philosopher Louis Althusser; the psychoanalyst Jacques Lacan; the deconstructionist Jacques Derrida. Learn among other things, why structuralists say Reality is composed of not Things, but Relationships Every “object” is both a presence and an absence The total system is present in each of its parts The parts are more real than the whole The book concludes by examining the postmodern obsession with language and with the radical claim of the disappearance of the individual – obsessions that unite the work of all these theorists.

Distilled from Donald Palmer’s more than thirty years of teaching experience, this text exemplifies his very successful approach to teaching introductory philosophy. Through the use of humor and nearly 400 drawings, charts, and diagrams, serious philosophical topics come alive for the reader without compromising the importance of the subject matter. In the author’s words, “This book takes philosophy seriously, but not gravely.” Instructors and students can now access their course content through the Connect digital learning platform by purchasing either standalone Connect access or a bundle of print and Connect access. McGraw-Hill Connect® is a subscription-based learning service accessible online through your personal computer or tablet. Choose this option if your instructor will require Connect to be used in the course. Your subscription to Connect includes the following: • SmartBook® - an adaptive digital version of the course textbook that personalizes your reading experience based on how well you are learning the content. • Access to your instructor’s homework assignments, quizzes, syllabus, notes, reminders, and other important files for the course. • Progress dashboards that quickly show how you are performing on your assignments and tips for improvement. • The option to purchase (for a small fee) a print version of the book. This binder-ready, loose-leaf version includes free shipping. Complete system requirements to use Connect can be found here:

From the #1 bestselling author of Too Much and Never Enough: A diagnosis of America's national trauma, and a way to heal. The Reckoning will examine America’s national trauma, rooted in our history but dramatically exacerbated by the impact of current events and the Trump administration’s corrupt and immoral policies. Our failure to acknowledge this trauma, let alone root it out, has allowed it to metastasize. Whether it manifests itself in rising levels of rage and hatred, or hopelessness and apathy, the stress of living in a country we no longer recognize has affected all of us. America is suffering from PTSD—a new leader alone cannot fix us. An enormous amount of healing must be done to rebuild our faith in leadership, and our hope for this nation. It starts with The Reckoning.

Sartre For Beginners is an accessible yet sophisticated introduction to the life and works of the famous French philosopher, Jean Paul Sartre. Sartre was a member of the French underground during WWII, a novelist, a playwright, and a major influence in French political and intellectual life. The book opens with a biographical section, introducing the significant events in the life of the man who coined the term “existentialism.” Then it examines Sartre’s early philosophical works. Ideas from Sartre’s other fictional and dramatic works are discussed, but the greatest part is the presentation of the main concepts from Sartre’s Being and Nothingness (1943). These include the topics of consciousness, freedom, responsibility, absurdity, “bad faith,” authenticity, and the hellish confrontation with other people. Finally, the book deals with Sartre’s modification of his early existentialism to compliment his conversion to a kind of “existential” Marxism. Sartre For Beginners summarizes the work of the most renowned philosopher of the 20th Century.

A masterful and eye-opening examination of Trump and the coercive control tactics he uses to build a fanatical devotion in his supporters written by “an authority on breaking away from cults...an argument that...bears consideration as the next election cycle heats up” (Kirkus Reviews). Since the 2016 election, Donald Trump’s behavior has become both more disturbing and yet increasingly familiar. He relies on phrases like, “fake news,” “build the wall,” and continues to spread the divisive mentality of us-vs.-them. He lies constantly, has no conscience, never admits when he is wrong, and projects all of his shortcomings on to others. He has become more authoritarian, more outrageous, and yet many of his followers remain blindly devoted. Scott Adams, the creator of Dilbert and a major Trump supporter, calls him one of the most persuasive people living. His need to squash alternate information and his insistence of constant ego stroking are all characteristics of other famous leaders—cult leaders. In The Cult of Trump, mind control and licensed mental health expert Steven Hassan draws parallels between our current president and people like Jim Jones, David Koresh, Ron Hubbard, and Sun Myung Moon, arguing that this presidency is in many ways like a destructive cult. He specifically details the ways in

which people are influenced through an array of social psychology methods and how they become fiercely loyal and obedient. Hassan was a former “Moonie” himself, and he presents a “thoughtful and well-researched analysis of some of the most puzzling aspects of the current presidency, including the remarkable passivity of fellow Republicans [and] the gross pandering of many members of the press” (Thomas G. Gutheil, MD and professor of psychiatry, Harvard Medical School). The Cult of Trump is an accessible and in-depth analysis of the president, showing that under the right circumstances, even sane, rational, well-adjusted people can be persuaded to believe the most outrageous ideas. “This book is a must for anyone who wants to understand the current political climate” (Judith Stevens-Long, PhD and author of Living Well, Dying Well).

Rage is an unprecedented and intimate tour de force of new reporting on the Trump presidency facing a global pandemic, economic disaster and racial unrest. Woodward, the #1 international bestselling author of Fear: Trump in the White House, has uncovered the precise moment the president was warned that the Covid-19 epidemic would be the biggest national security threat to his presidency. In dramatic detail, Woodward takes readers into the Oval Office as Trump’s head pops up when he is told in January 2020 that the pandemic could reach the scale of the 1918 Spanish Flu that killed 675,000 Americans. In 17 on-the-record interviews with Woodward over seven volatile months—an utterly vivid window into Trump’s mind—the president provides a self-portrait that is part denial and part combative interchange mixed with surprising moments of doubt as he glimpses the perils in the presidency and what he calls the “dynamite behind every door.” At key decision points, Rage shows how Trump’s responses to the crises of 2020 were rooted in the instincts, habits and style he developed during his first three years as president. Revisiting the earliest days of the Trump presidency, Rage reveals how Secretary of Defense James Mattis, Secretary of State Rex Tillerson and Director of National Intelligence Dan Coats struggled to keep the country safe as the president dismantled any semblance of collegial national security decision making. Rage draws from hundreds of hours of interviews with firsthand witnesses as well as participants’ notes, emails, diaries, calendars and confidential documents. Woodward obtained 25 never-seen personal letters exchanged between Trump and North Korean leader Kim Jong Un, who describes the bond between the two leaders as out of a “fantasy film.” Trump insists to Woodward he will triumph over Covid-19 and the economic calamity. “Don’t worry about it, Bob. Okay?” Trump told the author in July. “Don’t worry about it. We’ll get to do another book. You’ll find I was right.”

Having inspired two of the most influential philosophical systems of the last 100 years--"logical positivism" and "linguistic philosophy"--Ludwig Wittgenstein may be the most important philosopher of the 20th century. Wittgenstein for Beginners illustrates the main ideas of these two schools of philosophy and gives readers insight into the life of this undisputed man of genius. 200 illustrations.

This is the book that the leftist elites don't want you to read -- Donald Trump, Jr., exposes all the tricks that the left uses to smear conservatives and push them out of the public square, from online "shadow banning" to rampant "political correctness." In Triggered, Donald Trump, Jr. will expose all the tricks that the left uses to smear conservatives and push them out of the public square, from online "shadow banning" to fake accusations of "hate speech." No topic is spared from political correctness. This is the book that the leftist elites don't want you to read! Trump, Jr. will write about the importance of fighting back and standing up for what you believe in. From his childhood summers in Communist Czechoslovakia that began his political thought process, to working on construction sites with his father, to the major achievements of President Trump's administration, Donald Trump, Jr. spares no details and delivers a book that focuses on success and perseverance, and proves offense is the best defense.

Bill Cooper, former United States Naval Intelligence Briefing Team member, reveals information that remains hidden from the public eye. This information has been kept in Top Secret government files since the 1940s. His audiences hear the truth unfold as he writes about the assassination of John F. Kennedy, the war on drugs, the Secret Government and UFOs. Bill is a lucid, rational and powerful speaker who intent is to inform and to empower his audience. Standing room only is normal. His presentation and information transcend partisan affiliations as he clearly addresses issues in a way that has a striking impact on listeners of all backgrounds and interests. He has spoken to many groups throughout the United States and has appeared regularly on many radio talk shows and on television. In 1988 Bill decided to "talk" due to events then taking place worldwide, events which he had seen plans for back in the early '70s. Since Bill has been "talking," he has correctly predicted the lowering of the Iron Curtain, the fall of the Berlin Wall and the invasion of Panama. All Bill's predictions were on record well before the events occurred. Bill is not a psychic. His information comes from Top Secret documents that he read while with the Intelligence Briefing Team and from over 17 years of thorough research. "Bill Cooper is the world's leading expert on UFOs." -- Billy Goodman, KVEG, Las Vegas. "The onlt man in America who has all the pieces to the puzzle that has troubled so many for so long." -- Anthony Hilder, Radio Free America "William Cooper may be one of America's greatest heros, and this story may be the biggest story in the history of the world." -- Mills Crenshaw, KTALK, Salt Lake City. "Like it or not, everything is changing. The result will be the most wonderful experience in the history of man or the most horrible enslavement that you can imagine. Be active or abdicate, the future is in your hands." -- William Cooper, October 24, 1989.

Does the Center Hold? is an entertaining, topically-organized introductory program with more than 500 original illustrations. The ideas and issues typically covered in introductory philosophy courses are presented here in a remarkably accessible and enjoyable manner. Donald Palmer demonstrates that serious philosophical inquiry may be perplexing, but is ultimately liberating, and students will come away from the book with a comprehensive, and often delighted, understanding of philosophy. The Connect course for this offering includes SmartBook, an adaptive reading and study experience which guides students to master, recall, and apply key concepts while providing automatically-graded assessments. Does the Center Hold? is an entertaining, topically-organized introductory program with more than 500 original illustrations. The ideas and issues typically covered in introductory philosophy courses are presented here in a remarkably accessible and enjoyable manner. With the help of small questions used to tackle the boarder inquiry, students learn to appreciate the details and walk away with an appreciation of philosophy. Donald Palmer demonstrates that serious philosophical inquiry may be perplexing, but is ultimately liberating, and students will come away from the book with a comprehensive, and often delighted, understanding of philosophy. One of the strengths of this book is found in the connections it makes between philosophy and other fields in which students are interested, especially art, literature, physics, sociology, psychology, and psychoanalysis. Students will realize that there is a certain kind of philosophical analysis and form of argumentation whose skills can be learned and applied in other areas of their lives, both personal and professional.

"I don't take responsibility at all." Those words of Donald Trump at a March 13, 2020, press conference are likely to be history's epitaph on his presidency. A huge swath of Americans has put their faith in Trump, and Trump only, because they see the rest of the country building a future that doesn't have a place for them. If they would risk their lives for Trump in a pandemic, they will certainly risk the stability of American democracy. They brought the Trumpocalypse upon the country, and a post-Trumpocalypse country will have to find a way either to reconcile them to democracy - or to protect democracy from them. In Trumpocalypse, David Frum looks at what happens when a third of the electorate refuses to abandon Donald Trump, no matter what he does. Those voters aren't looking for policy wins. They're seeking cultural revenge. It is not enough to defeat Donald Trump on election day 2020. Even if Trump peacefully departs office, the trauma he inflicted will distort American and world politics for years to come. Americans must start from where they are, build from what they have, to repair the damage Trump inflicted on the country, to amend the wrongs that, under Trump, they inflicted upon each other. Americans can do better. David Frum shows how—and inspires all readers of all points of view to believe again in the possibilities of American life. Trumpocalypse is both a warning of danger and a guide to reform that will be read and discussed for years to come.

NEW YORK TIMES BESTSELLER • “Comprehensive, enlightening, and terrifyingly timely.”—The New York Times Book Review (Editors' Choice) WINNER OF THE GOLDSMITH BOOK PRIZE • SHORTLISTED FOR THE LIONEL GELBER PRIZE • NAMED ONE OF THE BEST BOOKS OF THE YEAR BY The Washington Post • Time • Foreign Affairs • WBUR • Paste Donald Trump's presidency has raised a question that many of us never thought we'd be asking: Is our democracy in danger? Harvard professors Steven Levitsky and Daniel Ziblatt have spent more than twenty years studying the breakdown of democracies in Europe and Latin America, and they believe the answer is yes. Democracy no longer ends with a bang—in a revolution or military coup—but with a whimper: the slow, steady weakening of critical institutions, such as the judiciary and the press, and the gradual erosion of long-standing political norms. The good news is that there are several exit ramps on the road to authoritarianism. The bad news is that, by electing Trump, we have already passed the first one. Drawing on decades of research and a wide range of historical and global examples, from 1930s Europe to contemporary Hungary, Turkey, and Venezuela, Levitsky and Ziblatt show how democracies die—and how ours can be saved. Praise for How Democracies Die “What we desperately need is a sober, dispassionate look at the current state of affairs. Steven Levitsky and Daniel Ziblatt, two of the most respected scholars in the field of democracy studies, offer just that.”—The Washington Post “Where Levitsky and Ziblatt make their mark is in weaving together political science and historical analysis of both domestic and international democratic crises; in doing so, they expand the conversation beyond Trump and before him, to other countries and to the deep structure of American democracy and politics.”—Ezra Klein, Vox “If you only read one book for the rest of the year, read How Democracies Die. . . . This is not a book for just Democrats or Republicans. It is a book for all Americans. It is nonpartisan. It is fact based. It is deeply rooted in history. . . . The best commentary on our politics, no contest.”—Michael Morrell, former Acting Director of the Central Intelligence Agency (via Twitter) “A smart and deeply informed book about the ways in which democracy is being undermined in dozens of countries around the world, and in ways that are perfectly legal.”—Fareed Zakaria, CNN

The Danish philosopher Soren Kierkegaard was one of the most original thinkers of the 19th Century – and one of the most enigmatic men who ever walked the Earth. Philosophically, Kierkegaard was the “bridge” that led from Hegel to Existentialism. Kierkegaard abhorred Hegel's abstract, Know-it-all idealism that tried to capture reality in a few words. Kierkegaard's attack on social and religious complacency and his single-handed assault on traditional Western philosophy generated a crisis that produced a radically new way of philosophizing and made him the founder of the school that would later be called Existentialism. To Kierkegaard, reality was personal, subjective – it began and ended with the individual – and philosophy was not something one merely talked about, it was the way you lived. For such a brilliant thinker, the way Kierkegaard lived was... somewhat too interesting? His “abstract” love affair? His obsession with death? His “leap of Faith,” his cynicism, his marvelous sense of humor – how do you put all that into one man? For starters, you read Kierkegaard For Beginners. It explains, plainly and simply, the great Danish thinker's obsession with the particularity of human existence as well as his demonstration of how the creation of an authentic new kind of individual is possible

This is a somewhat unconventional introduction to philosophy, with over 400 cartoons by the author designed to make teaching and learning more fun. Organized by individual theory, this lighthearted book can be used as a core text, or might supplement separate paperbacks or an anthology.

THE INSTANT NEW YORK TIMES BESTSELLER "Sims's vivid portrait of Trump shrewdly balances admiration with misgivings, and his intricate, engrossing accounts of White

House vendettas and power plays have a good mix of immersion and perspective. The result is one of the best of the recent flood of Trump tell-alls." —Publishers Weekly The first honest insider's account of the Trump administration. If you hate Trump you need the truth; if you love Trump you need the truth. After standing at Donald Trump's side on Election Night, Cliff Sims joined him in the West Wing as Special Assistant to the President and Director of White House Message Strategy. He soon found himself pulled into the President's inner circle as a confidante, an errand boy, an advisor, a punching bag, and a friend. Sometimes all in the same conversation. As a result, Sims gained unprecedented access to the President, sitting in on private meetings with key Congressional officials, world leaders, and top White House advisors. He saw how Trump handled the challenges of the office, and he learned from Trump himself how he saw the world. For five hundred days, Sims also witnessed first-hand the infighting and leaking, the anger, joy, and recriminations. He had a role in some of the President's biggest successes, and he shared the blame for some of his administration's worst disasters. He gained key, often surprising insights into the players of the Trump West Wing, from Jared Kushner and John Kelly to Steve Bannon and Kellyanne Conway. He even helped Trump craft his enemies list, knowing who was loyal and who was not. And he took notes. Hundreds of pages of notes. In real-time. Sims stood with the President in the eye of the storm raging around him, and now he tells the story that no one else has written—because no one else could. The story of what it was really like in the West Wing as a member of the President's team. The story of power and palace intrigue, backstabbing and bold victories, as well as painful moral compromises, occasionally with yourself. *Team of Vipers* tells the full story, as only a true insider could.

#1 NEW YORK TIMES BESTSELLER • OPRAH'S BOOK CLUB PICK The heartrending story of a midcentury American family with twelve children, six of them diagnosed with schizophrenia, that became science's great hope in the quest to understand the disease. "Reads like a medical detective journey and sheds light on a topic so many of us face: mental illness." —Oprah Winfrey Don and Mimi Galvin seemed to be living the American dream. After World War II, Don's work with the Air Force brought them to Colorado, where their twelve children perfectly spanned the baby boom: the oldest born in 1945, the youngest in 1965. In those years, there was an established script for a family like the Galvins--aspiration, hard work, upward mobility, domestic harmony--and they worked hard to play their parts. But behind the scenes was a different story: psychological breakdown, sudden shocking violence, hidden abuse. By the mid-1970s, six of the ten Galvin boys, one after another, were diagnosed as schizophrenic. How could all this happen to one family? What took place inside the house on Hidden Valley Road was so extraordinary that the Galvins became one of the first families to be studied by the National Institute of Mental Health. Their story offers a shadow history of the science of schizophrenia, from the era of institutionalization, lobotomy, and the schizophrenogenic mother to the search for genetic markers for the disease, always amid profound disagreements about the nature of the illness itself. And unbeknownst to the Galvins, samples of their DNA informed decades of genetic research that continues today, offering paths to treatment, prediction, and even eradication of the disease for future generations. With clarity and compassion, bestselling and award-winning author Robert Kolker uncovers one family's unforgettable legacy of suffering, love, and hope.

An effective supplement to any standard sociology text, this broad and comprehensive sociological description of five diverse contemporary societies with wide geographic distribution - Japan, Mexico, Egypt, Germany, and the Bushmen of Namibia - is organized around basic sociological topics: culture, social structure, group life, socialization, deviance, social institutions, social stratification, and social change. Fictional vignettes of individuals in each country help students experience first-person viewpoints on life in five very different societies. By comparing other societies with their own, students read about the range of social variation, learn what makes their own society distinctive, and gain a unique and fascinating vantage point on what sociology offers in a world of rapid social change. The fifth edition has been fully updated to reflect recent economic and political changes. New and updated data is included in each chapter. Current concerns such as crime, drug trafficking, ethnic diversity, gender, income inequality, political Islam and social change in traditional societies are addressed throughout the book. The impact of and response to global economic changes is a continuing theme in every chapter.

The Instant New York Times Bestseller "A book historians will relish." —Peggy Noonan, *Wall Street Journal* "Must read. I've read every book about the Trump presidency. This is the best." —Bill Press An account like no other, from the White House reporter who has known President Donald Trump for more than 25 years. We have never seen a president like this...norm-breaking, rule-busting, dangerously reckless to some and an overdue force for change to others. One thing is clear: We are witnessing the reshaping of the presidency. Jonathan Karl brings us into the White House in a powerful book unlike any other on the Trump administration. He's known and covered Donald Trump longer than any other White House reporter. With extraordinary access to Trump during the campaign and at 1600 Pennsylvania Avenue, Karl delivers essential new reporting and surprising insights. These are the behind-the-scenes moments that define Trump's presidency—an extraordinary look at the president, the person, and those closest to him. This is the real story of Trump's unlikely rise; of the struggles and battles of those who work in the administration and those who report on it; of the plots and schemes of a senior staff enduring stunning and unprecedented unpredictability. Karl takes us from a TV set turned campaign office to the strange quiet of Trump's White House on Inauguration Day to a high-powered reelection campaign set to change the country's course. He shows us an administration rewriting the role of the president on the fly and a press corps that has never been more vital. Above all, this book is only possible because of the surprisingly open relationship Donald Trump has had with Jonathan Karl, a reporter he has praised, fought, and branded an enemy of the people. This is *Front Row at the Trump Show*.

The transition from President Donald J. Trump to President Joseph R. Biden Jr. stands as one of the most dangerous periods in American history. But as # 1 internationally bestselling author Bob Woodward and acclaimed reporter Robert Costa reveal for the first time, it was far more than just a domestic political crisis. Woodward and Costa

interviewed more than 200 people at the center of the turmoil, resulting in more than 6,000 pages of transcripts—and a spellbinding and definitive portrait of a nation on the brink. This classic study of Washington takes readers deep inside the Trump White House, the Biden White House, the 2020 campaign, and the Pentagon and Congress, with vivid, eyewitness accounts of what really happened. *Peril* is supplemented throughout with never-before-seen material from secret orders, transcripts of confidential calls, diaries, emails, meeting notes and other personal and government records, making for an unparalleled history. It is also the first inside look at Biden's presidency as he faces the challenges of a lifetime: the continuing deadly pandemic and millions of Americans facing soul-crushing economic pain, all the while navigating a bitter and disabling partisan divide, a world rife with threats, and the hovering, dark shadow of the former president. "We have much to do in this winter of peril," Biden declared at his inauguration, an event marked by a nerve-wracking security alert and the threat of domestic terrorism. *Peril* is the extraordinary story of the end of one presidency and the beginning of another, and represents the culmination of Bob Woodward's news-making trilogy on the Trump presidency, along with *Fear and Rage*. And it is the beginning of a collaboration with fellow Washington Post reporter Robert Costa that will remind readers of Woodward's coverage, with Carl Bernstein, of President Richard M. Nixon's final days.

In this new edition of *The Amish and the State* Donald Kraybill brings together legal scholars and social scientists to explore the unique series of conflicts between a traditional religious minority and the modern state. In the process, the authors trace the preservation—and the erosion—of religious liberty in American life. Kraybill begins with an overview of the Amish in North America and describes the "negotiation model" used throughout the book to interpret a variety of legal conflicts. Subsequent chapters deal with specific aspects of religious freedom over which the Amish and the state have clashed. Focusing on the period from 1925 to 2001 in the United States, the authors examine conflicts over military service and conscription, Social Security and taxes, education, health care, land use and zoning, regulation of slow-moving vehicles, and other first amendment issues. New concluding chapters, by constitutional expert William Ball, who defended the Amish before the Supreme Court in 1972 in the landmark *Wisconsin v. Yoder* case, and law professor Garret Epps, assess the Amish contribution to preserving religious liberty in the United States.

The long-awaited autobiography from Georgetown University's legendary coach, whose life on and off the basketball court threw America's unresolved struggle with racial justice into sharp relief. John Thompson was never just a basketball coach and *I Came As A Shadow* is categorically not just a basketball autobiography. After five decades at the center of race and sports in America, Thompson—the iconic NCAA champion, Black activist, and educator—was ready to make the private public at last, and he completed this autobiography shortly before his death in the historically tumultuous summer of 2020. Chockful of stories and moving beyond mere stats (three Final Fours, four-time national coach of the year, seven Big East championships, 97 percent graduation rate), Thompson's book drives us through his childhood under Jim Crow segregation to our current moment of racial reckoning. We experience riding shotgun with Celtics icon Red Auerbach and coaching NBA Hall of Famers like Patrick Ewing and Allen Iverson. What were the origins of the phrase "Hoya Paranoia"? You'll see. And parting his veil of secrecy, Thompson brings us into his negotiation with a D.C. drug kingpin in his players' orbit in the 1980s, as well as behind the scenes of his years on the Nike board. Thompson's mother was a teacher who had to clean houses because of racism in the nation's capital. His father could not read or write. Their son grew up to be a man with his own larger-than-life statue in a building that bears his family's name on a campus once kept afloat by the selling of 272 enslaved Black people. This is a great American story, and John Thompson's experience sheds light on many of the issues roiling our nation. In these pages, he proves himself to be the elder statesman whose final words college basketball and the country need to hear. *I Came As A Shadow* is not a swan song, but a bullhorn blast from one of America's most prominent sons.

"An impressive combination of diligence and verve, deploying Ackerman's deep stores of knowledge as a national security journalist to full effect. The result is a narrative of the last 20 years that is upsetting, discerning and brilliantly argued." —The New York Times "One of the most illuminating books to come out of the Trump era." —New York Magazine An examination of the profound impact that the War on Terror had in pushing American politics and society in an authoritarian direction For an entire generation, at home and abroad, the United States has waged an endless conflict known as the War on Terror. In addition to multiple ground wars, it has pioneered drone strikes and industrial-scale digital surveillance, as well as detaining people indefinitely and torturing them. These conflicts have yielded neither peace nor victory, but they have transformed America. What began as the persecution of Muslims and immigrants has become a normalized, paranoid feature of American politics and security, expanding the possibilities for applying similar or worse measures against other targets at home. A politically divided country turned the War on Terror into a cultural and then tribal struggle, first on the ideological fringes and ultimately expanding to conquer the Republican Party, often with the timid acquiescence of the Democratic Party. Today's nativist resurgence walked through a door opened by the 9/11 era. *Reign of Terror* will show how these policies created a foundation for American authoritarianism and, though it is not a book about Donald Trump, it will provide a critical explanation of his rise to power and the sources of his political strength. It will show that Barack Obama squandered an opportunity to dismantle the War on Terror after killing Osama bin Laden. That mistake turns out to have been portentous. By the end of his tenure, the war metastasized into a broader and bitter culture struggle in search of a demagogue like Trump to lead it. A union of journalism and intellectual history, *Reign of Terror* will be a pathbreaking and definitive book with the power to transform how America understands its national security policies and their catastrophic impact on its civic life.

Does the Center Hold? is an entertaining, topically-organized introductory text with more than 500 original illustrations. The ideas and issues typically covered in introductory philosophy courses are presented here in a remarkably accessible and enjoyable manner. Donald Palmer demonstrates that serious philosophical inquiry may be perplexing, but

is ultimately liberating, and students will come away from the book with a comprehensive, and often delighted, understanding of philosophy. McGraw-Hill Connect® is a subscription-based learning service accessible online through your personal computer or tablet. Choose this option if your instructor will require Connect to be used in the course. Your subscription to Connect includes the following:

- SmartBook® - an adaptive digital version of the course textbook that personalizes your reading experience based on how well you are learning the content.
- Access to your instructor's homework assignments, quizzes, syllabus, notes, reminders, and other important files for the course.
- Progress dashboards that quickly show how you are performing on your assignments and tips for improvement.
- The option to purchase (for a small fee) a print version of the book. This binder-ready, loose-leaf version includes free shipping.

Complete system requirements to use Connect can be found here:

President Donald J. Trump lays out his professional and personal worldview in this classic work—a firsthand account of the rise of America's foremost deal-maker. "I like thinking big. I always have. To me it's very simple: If you're going to be thinking anyway, you might as well think big."—Donald J. Trump Here is Trump in action—how he runs his organization and how he runs his life—as he meets the people he needs to meet, chats with family and friends, clashes with enemies, and challenges conventional thinking. But even a maverick plays by rules, and Trump has formulated time-tested guidelines for success. He isolates the common elements in his greatest accomplishments; he shatters myths; he names names, spells out the zeros, and fully reveals the deal-maker's art. And throughout, Trump talks—really talks—about how he does it. Trump: The Art of the Deal is an unguarded look at the mind of a brilliant entrepreneur—the ultimate read for anyone interested in the man behind the spotlight. Praise for Trump: The Art of the Deal "Trump makes one believe for a moment in the American dream again."—The New York Times "Donald Trump is a deal maker. He is a deal maker the way lions are carnivores and water is wet."—Chicago Tribune "Fascinating . . . wholly absorbing . . . conveys Trump's larger-than-life demeanor so vibrantly that the reader's attention is instantly and fully claimed."—Boston Herald "A chatty, generous, chutzpa-filled autobiography."—New York Post

NEW YORK TIMES BESTSELLER "I come from a family forged by tragedies and bound by a remarkable, unbreakable love," Hunter Biden writes in this deeply moving memoir of addiction, loss, and survival. When he was two years old, Hunter Biden was badly injured in a car accident that killed his mother and baby sister. In 2015, he suffered the devastating loss of his beloved big brother, Beau, who died of brain cancer at the age of forty-six. These hardships were compounded by the collapse of his marriage and a years-long battle with drug and alcohol addiction. In Beautiful Things, Hunter recounts his descent into substance abuse and his tortuous path to sobriety. The story ends with where Hunter is today—a sober married man with a new baby, finally able to appreciate the beautiful things in life. Ambition will fuel him. Competition will drive him. But power has its price. It is the morning of the reaping that will kick off the tenth annual Hunger Games. In the Capitol, eighteen-year-old Coriolanus Snow is preparing for his one shot at glory as a mentor in the Games. The once-mighty house of Snow has fallen on hard times, its fate hanging on the slender chance that Coriolanus will be able to outcharm, outwit, and outmaneuver his fellow students to mentor the winning tribute. The odds are against him. He's been given the humiliating assignment of mentoring the female tribute from District 12, the lowest of the low. Their fates are now completely intertwined - every choice Coriolanus makes could lead to favor or failure, triumph or ruin. Inside the arena, it will be a fight to the death. Outside the arena, Coriolanus starts to feel for his doomed tribute . . . and must weigh his need to follow the rules against his desire to survive no matter what it takes.

"A personal look behind the scenes" (Publishers Weekly) of the presidency of Gerald Ford as seen through the eyes of Donald Rumsfeld—New York Times bestselling author and Ford's former Secretary of Defense, Chief of Staff, and longtime personal confidant. In the wake of Richard Nixon's Watergate scandal, it seemed the United States was coming apart. America had experienced a decade of horrifying assassinations; the unprecedented resignation of first a vice president and then a president of the United States; intense cultural and social change; and a new mood of cynicism sweeping the country—a mood that, in some ways, lingers today. Into that divided atmosphere stepped an unexpected, unelected, and largely unknown American—Gerald R. Ford. In contrast to every other individual who had ever occupied the Oval Office, he had never appeared on any ballot either for the presidency or the vice presidency. Ford simply and humbly performed his duty to the best of his considerable ability. By the end of his 895 days as president, he would in fact have restored balance to our country, steadied the ship of state, and led his fellow Americans out of the national trauma of Watergate. And yet, Gerald Ford remains one of the least studied and least understood individuals to have held the office of the President of the United States. In turn, his legacy also remains severely underappreciated. In When the Center Held, Ford's Secretary of Defense Donald Rumsfeld candidly shares his personal observations of the man himself, providing a sweeping examination of his crucial years in office. It is a rare and fascinating look behind the closed doors of the Oval Office, including never-before-seen photos, memos, and anecdotes, from a unique insider's perspective—"engrossing and informative" (Kirkus Reviews) reading for any fan of presidential history.
