Cameron Sanders can't believe his good luck. Struggling financially, he's thrilled to find out some random, ancient aunt he hardly knew died and left him an inheritance that'll help take the money monkey off his back. It's become commonplace in contemporary culture for critics to proclaim the death of poetry. Poetry, they say, is no longer relevant to the modern world, mortally wounded by the emergence of new media technologies. In *Poetry Unbound*, Mike Chasar rebuts claims that poetry has become a marginal art form, exploring how it has played a vibrant and culturally significant role by adapting to and shaping new media technologies in complex, unexpected, and powerful ways. Beginning with the magic lantern and continuing through the dominance of the internet, Chasar follows poetry's travels off the page into new media formats, including silent film, sound film, and television. Mass and nonprint media have not stolen poetry's audience, he contends, but have instead given people even more ways to experience poetry. Examining the use of canonical as well as religious and popular verse forms in a variety of genres, Chasar also traces how poetry has helped negotiate and legitimize the cultural status of emergent media. Ranging from *Citizen Kane* to *Leave It to Beaver* to best-selling Instapoet Rupi Kaur, this book reveals poetry's ability to find new audiences and meanings in media forms with which it has often been thought to be incompatible. Illuminating poetry's surprising multimedia history, *Poetry Unbound* offers a new paradigm for understanding poetry's still evolving place in American culture.

A compact, comprehensive, and very silly field guide featuring more than 200 of the rudest birds on earth. Effin' Birds is the most eagerly anticipated new volume in the grand and noble profession of nature writing and bird identification. Sitting proudly alongside Sibley, Kaufman, and Peterson, this book contains more than 150 pages crammed full of classic, monochrome plumage art paired with the delightful but dirty aphorisms (think "I'm going to need more booze to deal with this week") that made the Effin' Birds Twitter feed a household name. Also included in its full, Technicolor glory is John James Audubon's most beautiful work matched with modern life advice. Including never-before-seen birds, insults, and field notes, this guide is a must-have for any effin' fan or birder.

Cesar Millan—nationally recognized dog expert—helps you see the world through the eyes of your dog so you can finally eliminate problem behaviors. From his appearances on The Oprah Winfrey Show to his roster of celebrity clients to his reality television series, Cesar Millan is America's most sought-after dog-behavior expert. But Cesar is not a trainer in the traditional sense—his expertise lies in his unique ability to comprehend dog psychology. Tracing his own amazing

journey from a clay-walled farm in Mexico to the celebrity palaces of Los Angeles, Cesar recounts how he learned what makes dogs tick. In *Cesar's Way*, he shares this wisdom, laying the groundwork for you to have stronger, more satisfying relationships with your canine companions.

Cesar's formula for a contented and balanced dog seems impossibly simple: exercise, discipline, and affection, in that order. Taking readers through the basics of dog psychology and behavior, Cesar shares the inside details of some of his most fascinating cases, using them to illustrate how common behavior issues develop and, more important, how they can be corrected. You'll learn:

- What your dog really needs may not be what you're giving him
- Why a dog's natural pack instincts are the key to your happy relationship
- How to relate to your dog on a canine level
- There are no "problem breeds," just problem owners
- How to choose a dog who's right for you and your family
- The difference between discipline and punishment
- And much more!

Filled with fascinating anecdotes about Cesar's longtime clients, and including forewords by the president of the International Association of Canine Professionals and Jada Pinkett Smith, this is the only book you'll need to forge a stronger, more rewarding connection with your four-legged companion.

This book brings together authoritative information about the child/dog bond as it is manifested with family dogs, visiting therapy dogs, and service dogs trained to assist children with disabilities. Despite the widely accepted view that participating in a dog's care and interacting with dogs in behaviorally healthy ways is a route to becoming responsible and compassionate, research on this complex dynamic is difficult to design, time-consuming to collect, and challenging to analyze. This volume synthesizes theory, research, and practice, bringing all to bear upon child/dog interactions in homes, schools, libraries, and the community at large.

Children, Dogs and Education serves as a handbook for a diverse group of adults who seek to build positive relationships between children and dogs—parents/families, professional dog trainers, teachers, librarians, mental health professionals, health care professionals, and university faculty. The study of interactions between human and nonhuman animals has captured the imagination of an international community of researchers from many different fields and professions. Even though dogs are ubiquitous in the lives of most children, studies of children's interactions with dogs in families and communities are lacking. Most of the previous research on the human-canine bond has focused on adolescents and adults or, even when younger children are the focus, it has tended to rely on parents to speak for children. There are three features of this book that make it unique. First, it goes beyond exploring the child/dog bond to examine additional important issues, including: children's concepts of responsible care, their ability to interpret dogs' behavioral cues, and their ideas about canine behavioral issues/training. Second, unlike most other work to date, it represents children's voices through cases, interviews, and drawings. Finally, the contributors to this edited work use their collective wisdom to draw educational implications and suggest direction in preparing the next generation of dog guardians.

A big, inside look at the shocking lack of regulation within the pet food industry, and how readers can dramatically improve the quality of their dogs' lives through diet.

What's really going into commercial dog food? The answer is horrifying. Big Kibble is big business: \$75 billion globally. A handful of multi-national corporations dominate the industry and together own as many as 80% of all brands. This comes as a surprise to most people, but what's even more shocking is how lax the regulations and guidelines are around these products.

The guidelines—or lack thereof—for pet food allow producers to include ever-cheaper ingredients, and create ever-larger earnings. For example, “legal” ingredients in kibble include poultry feces, saw dust, expired food, and diseased meat, among other horrors. Many vets still don't know that kibble is not the best food for dogs because Big Kibble funds the nutrition research. So far, these corporations have been able to cut corners and still market and promote feed-grade food as if it were healthful and beneficial—until now. Just as you are what you eat, so is your dog. Once you stop feeding your dog the junk that's in kibble or cans, you have taken the first steps to improving your dog's health, behavior and happiness. You know the unsavory side of Big Tobacco and Big Pharma. Now Shawn Buckley, Dr. Oscar

Liminality is not typically associated with tourism, even though it can be viewed as an intrinsic element of the

social/cultural experiences of tourism. Liminality in Tourism: Spatial and Temporal Considerations aims to build upon the tradition of liminality as expounded in social and anthropological disciplines, elaborating on the theoretical principles and concepts found within certain aspects of the tourist journey and tourist product. The emergence of post-modern society has impelled a change in the tourist gaze towards a more experiential and adventuresome globalised experience. An important aspect of the tourist phenomenon of liminality is where a transformative experience is triggered by entering a liminoid tourist space, leaving the tourist permanently psychologically transformed, before returning to normalised society. The narrative provides a new perspective on the tourist experience with a provocative examination into the multidimensional aspects of tourism, by exploring tourism within the spatial and temporal aspects of liminal landscapes. Covid-19 has further changed the rubric of tourism. Until the current pandemic, tourism has basically been a fun experience. In a post pandemic world, however, the tourist is now facing an unknown future which will almost certainly affect tourism liminality. This book presents the reader with a wealth of examples and case studies closely illustrating the association between tourism and liminal experiences. The geographical perspectives explore the more subconscious outcomes of destination and tourist product consumption. The book should be a useful reader to tourism geography where the theory of liminality can be synthesized into tourist experiences. The chapters in this book were originally published as a

others' expectations and start trusting the voice deep within us. NAMED ONE OF THE BEST BOOKS OF THE YEAR BY O: The Oprah Magazine • The Washington Post • Cosmopolitan • Marie Claire • Bloomberg • Parade • "Untamed will liberate women—emotionally, spiritually, and physically. It is phenomenal."—Elizabeth Gilbert, author of *City of Girls* and *Eat Pray Love* This is how you find yourself. There is a voice of longing inside each woman. We strive so mightily to be good: good partners, daughters, mothers, employees, and friends. We hope all this striving will make us feel alive. Instead, it leaves us feeling weary, stuck, overwhelmed, and underwhelmed. We look at our lives and wonder: Wasn't it all supposed to be more beautiful than this? We quickly silence that question, telling ourselves to be grateful, hiding our discontent—even from ourselves. For many years, Glennon Doyle denied her own discontent. Then, while speaking at a conference, she looked at a woman across the room and fell instantly in love. Three words flooded her mind: There She Is. At first, Glennon assumed these words came to her from on high. But she soon realized they had come to her from within. This was her own voice—the one she had buried beneath decades of numbing addictions, cultural conditioning, and institutional allegiances. This was the voice of the girl she had been before the world told her who to be. Glennon decided to quit

abandoning herself and to instead abandon the world's expectations of her. She quit being good so she could be free. She quit pleasing and started living. Soulful and uproarious, forceful and tender, *Untamed* is both an intimate memoir and a galvanizing wake-up call. It is the story of how one woman learned that a responsible mother is not one who slowly dies for her children, but one who shows them how to fully live. It is the story of navigating divorce, forming a new blended family, and discovering that the brokenness or wholeness of a family depends not on its structure but on each member's ability to bring her full self to the table. And it is the story of how each of us can begin to trust ourselves enough to set boundaries, make peace with our bodies, honor our anger and heartbreak, and unleash our truest, wildest instincts so that we become women who can finally look at ourselves and say: *There She Is*. *Untamed* shows us how to be brave. As Glennon insists: The braver we are, the luckier we get.

In this New York Times bestseller, Ijeoma Oluo offers a hard-hitting but user-friendly examination of race in America

Widespread reporting on aspects of white supremacy -- from police brutality to the mass incarceration of Black Americans -- has put a media spotlight on racism in our society. Still, it is a difficult subject to talk about. How do you tell your roommate her jokes are racist? Why did your sister-in-law take umbrage when you asked to touch her hair -- and how do you make it right? How do you explain white privilege to your white, privileged friend? In *So You Want to Talk About Race*, Ijeoma Oluo guides readers of all races through subjects ranging from intersectionality and affirmative action to "model minorities" in an attempt to make the seemingly impossible possible: honest conversations about race and racism, and how they infect almost every aspect of American life. "Oluo gives us -- both white people and people of color -- that language to engage in clear, constructive, and confident dialogue with each other about how to deal with racial prejudices and biases." -- National Book Review "Generous and empathetic, yet usefully blunt . . . it's for anyone who wants to be smarter and more empathetic about matters of race and engage in more productive anti-racist action." -- Salon (Required Reading)

For decades, pit bulls have been demonized by society and portrayed as hellhounds. They've become the most feared, hated, and abused of all companion animals. Some cities and even entire countries ban them, while the media persist in associating them with viciousness. This unjust reputation has sealed the fate of millions of dogs, who face prejudice around the world and languish in shelters, where they are the most euthanized. In America alone, hundreds of thousands of pit bulls are put to sleep every year. Since 2014, French photographer Sophie Gamand has been composing portraits of adoptable pit bulls from more than thirty shelters and rescues throughout the United States. Many had been waiting for years for a home. Adorning her models with handmade

flower-crowns, Gamand tells each dog's story and celebrates their inherent personality, vulnerability, and individuality. Posted and shared widely on social media, the portraits--at once charming, candid, and deeply affecting--have not only led to hundreds of dogs finding loving, forever homes, but have also spurred efforts to destigmatize an animal whose reputation for violence says more about us than it does the character of the dogs themselves. Full of moving, honest, and inspiring stories of individual dogs and their lives (and deaths), Pit Bull Flower Power presents a vivid, beautifully composed cross-section of Gamand's extraordinary work. The book also serves as a testament to the caring people who work in animal rescue, the passion and dedication of those who provide homes for these animals, and the dignity, forbearance, and love of these dogs, who are at the mercy of humans.

A beautiful, heartfelt, funny, and inspiring collection of photos and stories that maps the relationship between canine New Yorkers and their human counterparts. New York is a city of five boroughs, more than 250 distinct neighborhoods, 8.5 million people, and more than 600,000 dogs, who are as much a part of the social fabric as the people who follow them on the other end of the leash. *City of Dogs* maps this relationship with incredible four-color photos highlighting the scene. From the Bronx to Brooklyn and along the streets of Harlem and Manhattan, Ken Foster and Traer Scott explore the unique relationships between dogs and their human counterparts. We meet Alex Nuckel, living on disability and finding joy and purpose in caring for his two pit bulls, Lucy and Rocky. And Majora Carter, a community activist who has received a MacArthur grant, living and working with two stray shepherds she rescued in her own neighborhood. *City of Dogs* also takes us to a Midtown Manhattan law office, where staff are encouraged to bring their adopted dogs to work, and to the JFK airport, where we meet dogs who help screen at security. And then on to Brooklyn, where we meet award-winning author Jacqueline Woodson and her dogs, Toffee and Shadow. These are just a few of the amazing animals and their people featured in this perfect gift book for any dog
