Jay Black,Chris Roberts

Doing Ethics Lewis Vaughn,2024-01-07 Discover the #1 introductory ethics textbook

Doing Ethics Lewis Vaughn,2013 The most accessible and practical introduction to ethical theory, moral issues, and moral reasoning.

Doing Ethics: Moral Reasoning and Contemporary Issues Vaughn, Lewis,2015-09-24 *Doing Ethics* emphasizes that moral decision making is an active process - something one does. The Fourth Edition provides students with the theoretical and logical tools that a morally mature person must bring to that process, and offers a wealth of readings and case studies for them to consider and discuss. Streamlined prose, real-world relevance, and practical pedagogy - all at an affordable price - make *Doing Ethics* the leading applied ethics text.

Contemporary Moral Arguments Lewis Vaughn,2012-12-20 Taking a unique approach that emphasizes careful reasoning, this cutting-edge reader is structured around twenty-seven landmark arguments that have provoked heated debates on current ethical issues.

Doing Ethics Lewis Vaughn,2018-10-15 Teaches students how to actively apply moral reasoning.

Doing Ethics in Media Jay Black,Chris Roberts,2011-04-19 *Doing Ethics in Media: Theories and Practical Applications* is an accessible, comprehensive introduction to media ethics. Its theoretical framework and grounded discussions engage students to think clearly and systematically about dilemmas in the rapidly changing media environment. The 13-chapter text is organized around six decision-making questions— the 5Ws and H of media ethics. The questions encourage students to articulate the issues; apply codes, policies or laws; consider the needs of stakeholders; sift and sort through conflicting values; integrate philosophic principles; and pose a test of publicity. Specifically, the questions ask: • What's your problem? • Why not follow the rules? • Who wins, who loses? • What's it worth? • Who's whispering in your ear? • How's your decision going to look? As they progress through the text, students are encouraged to resolve dozens of practical applications and increasingly complex case studies relating to journalism, new media, advertising, public relations, and entertainment. Other distinctive features include: • Comprehensive materials on classic moral theory and current issues such as truth telling and

deception, values, persuasion and propaganda, privacy, diversity, and loyalty. • A user-friendly approach that challenges students to think for themselves rather than imposing answers on them. • Consistent connections between theories and the decision-making challenges posed in the practical applications and case studies. • A companion website with online resources for students, including additional readings and chapter overviews, as well as instructor materials with a test bank, instructor's manual, sample syllabi and more. www.routledge.com/textbooks/black • A second website with continuously updated examples, case studies, and student writing - www.doingmediaethics.com. *Doing Ethics in Media* is aimed at undergraduates and graduate students studying media ethics in mass media, journalism, and media studies. It also serves students in rhetoric, popular culture, communication studies, and interdisciplinary social sciences.

Bioethics Lewis Vaughn, 2010 Vaughn offers a hybrid of text, readings, and cases to fill a need left for a current, accessible introduction to the philosophical, medical, scientific, social, and legal aspects of key bioethics issues. It offers a balance between basic ethical theories and current controversies. Its case-driven approach and a very robust set of pedagogical features introduce issues in a way that engages students in decision making. Hot topics include paternalism and patient autonomy, truth telling, informed consent, abortion, in vitro fertilization, cloning, impaired infants, embryonic stem-cell dilemmas, genetic engineering, euthanasia, physician-assisted suicide, human and animal research, inequities in access to medical treatment, HIV/AIDS in Africa, and health-care costs.

Doing Environmental Ethics Robert Traer, 2018-04-17 *Doing Environmental Ethics* faces our ecological crisis by drawing on environmental science, economic theory, international law, and religious teachings, as well as philosophical arguments. It engages students in constructing ethical presumptions based on arguments for duty, character, relationships, and rights, and then tests these moral presumptions by predicting the likely consequences of acting on them. Students apply what they learn to policy issues discussed in the final part of the book: sustainable consumption, environmental policy, clean air and water, agriculture, managing public lands, urban ecology, and climate change. Questions after each chapter and a worksheet aid readers in deciding how to live more responsibly. The second edition has been updated to reflect the latest developments in environmental ethics, including sustainable practices of corporations, environmental NGO actions, and rainforest certification programs. This edition also gives greater emphasis to environmental justice, Rawls, and ecofeminism. Revised study questions concern application and analysis, and new 'Decisions' inserts invite students to analyze evaluate current environmental issues.

Doing Philosophy: An Introduction Through Thought Experiments Lewis Vaughn, Theodore Schick, Jr., 2012-09-04 Now in its fifth successful edition, *Doing Philosophy* helps students understand the nature and purpose of philosophical inquiry by explaining what philosophical problems are, how they can be solved, and why searching for solutions is important. The book traces the historical development of philosophical thinking on a number of central problems and shows how philosophical

theories have evolved in response to criticism. By introducing students to philosophical theorizing and encouraging them to formulate their own views, Doing Philosophy inspires active learning and helps students become more accomplished critical thinkers. Basic Ethics Michael Boylan, 2020-12-29 *Basic Ethics* presents for a wide range of students and other interested readers the questions raised in thinking about ethical problems, the answers offered by moral philosophy, and the means to better integrate into both the reader's world and personal life. It takes up what the author calls a worldview theory, which shows readers how to begin with the values and understanding of the world that they already possess in order to transition from there to new levels of increasing ethical awareness. Updates to the third edition include the more thorough integration of feminist ethics into the principal theoretical traditions, a new chapter on the ethical responsibility to be well informed of current events, expanded coverage of human rights, and additional opportunities on how to use ethical reasoning in thinking about one's own life and about public policy. Key Features: Links personal values to a philosophical treatment of the major ethical theories Presents ethics in the context of social/political issues that face our nation and the world Challenges the student to react to the presented material through critical exercises that may be used as weekly assignments and can form the basis of class discussion and evaluation. Engages the student to think about underlying issues first (in the basic questions) before presenting the most popular solutions (in the basic answers) Invites the reader to make up her own mind on how to formulate an ethical theory that will help her in her own life Offers a 16-chapter format to fit into most college-semester calendars Presents an overall structure that establishes foundational problems in ethical theory in the first section of the book that are variously addressed by the different ethical theories in the second section of the book Highlights key terms to help the reader grapple with issues raised (which are reviewed and defined in a final Glossary) Includes a final chapter designed to help students comprehend the book in its entirety. Updates to the Third Edition: Highlights new research on human rights and their relevance to ethical thinking and contemporary moral issues Integrates feminist ethics

into the principal theoretical traditions: virtue ethics, ethical intuitionism, and some versions of deontology Provides new coverage of fake news and the moral responsibility to be well and accurately informed of current events Expands opportunities to use ethical reasoning in thinking about one's own life and about public policy.

The Power of Critical Thinking Lewis Vaughn,Chris MacDonald,2019-03 Provides the broadest range of tools, enabling students to think critically about their lives and the world around themThis comprehensive and engaging introduction to critical analysis delivers clear, step-by-step guidelines that provide students with the tools they need to systematically and rationally evaluate arguments, claims, and evidence. Fully up-to-date with examples from contemporary culture, politics, andmedia, this text helps students develop the skills they need to engage meaningfully with the world around them.

The Ethics Challenge in Public Service Carol W. Lewis,Stuart C. Gilman,2005-03-11 Since it was first published in 1991, The Ethics Challenge in Public Service has become a classic text used by public managers and in public management programs across the country. This second edition is filled with practical tools and techniques for making ethical choices in the ambiguous, pressured world of public service. It explores the day-to-day ethical dilemmas managers face in their work, including what to do when rules recommend one action and compassion another, and whether it is ethical to dissent from agency policy. This essential text explores managers' accountability to different stakeholders and how to balance the often competing responsibilities.

The Moral Life Louis P. Pojman,Lewis Vaughn,2007 Featuring new selections chosen by coeditor Lewis Vaughn, the third edition of Louis P. Pojman's *The Moral Life: An Introductory Reader in Ethics and Literature* brings together an extensive and varied collection of ninety-one classical and contemporary readings on ethical theory and practice. Integrating literature with philosophy in an innovative way, the book uses literary works to enliven and make concrete the ethical theory or applied issues addressed in each chapter. Literary works by Camus, Hawthorne, Hugo, Huxley, Ibsen, Le Guin, Melville, Orwell, Styron, Tolstoy, and many others lead students into such philosophical concepts and issues as relativism; utilitarianism; virtue ethics; the meaning of life; freedom and autonomy; sex, love, and marriage; animal rights; and terrorism. Once introduced, these topics are developed further through readings by philosophers including Plato, Aristotle, Kant, Nozick, Singer, and Sartre. This unique anthology emphasizes the personal dimension of ethics, which is often ignored or minimized in ethics texts. It also incorporates chapter introductions, study questions, suggestions for further reading, and biographical sketches of the writers. The third edition brings the collection up-to-date, adding selections by Jane English, William Frankena, Don Marquis, John Stuart Mill, Mary Midgley, Thomas Nagel, Judith Jarvis Thomson, and J.O. Urmson. It also features a new chapter on euthanasia with essays by Dan W. Brock, J. Gay-Williams, and James Rachels. Ideal for introductory ethics courses, *The Moral Life, Third Edition*, also provides an engaging gateway into personal and social ethics

for general readers.

Ethics and Morality in Sport Management Joy Theresa DeSensi, Danny Rosenberg (Ph. D.), 2010 The third edition continues to examine the ethical concepts, principles and issues in the administration and organisation of sport that made the first two editions of this textbook so widely adopted. The book approaches the topics from four directions: ethical theory, personal and professional ethics, ethics applied, and future moral and ethical issues. Joy T DeSensi and Danny Rosenberg have enhanced the text by adding two new chapters that help to frame the content in a globalised context. In addition, the references, examples, scenarios, and analyses have been updated throughout the book.

Bioethics Lewis Vaughn, 2017 Integrating eighty-nine readings--twelve of them new to this edition--numerous classic bioethical cases, and abundant pedagogical tools, *Bioethics: Principles, Issues, and Cases, Third Edition*, addresses the most provocative and controversial topics in bioethics--back cover.

The Second-Person Standpoint Stephen Darwall, 2009-09-30 Why should we avoid doing moral wrong? The inability of philosophy to answer this question in a compelling manner—along with the moral skepticism and ethical confusion that ensue—result, Stephen Darwall argues, from our failure to appreciate the essentially interpersonal character of moral obligation. After showing how attempts to vindicate morality have tended to change the subject—falling back on non-moral values or practical, first-person considerations—Darwall elaborates the interpersonal nature of moral obligations: their inherent link to our responsibilities to one another as members of the moral community. As Darwall defines it, the concept of moral obligation has an irreducibly second-person aspect; it presupposes our authority to make claims and demands on one another. And so too do many other central notions, including those of rights, the dignity of and respect for persons, and the very concept of person itself. The result is nothing less than a fundamental reorientation of moral theory that enables it at last to account for morality's supreme authority—an account that Darwall carries from the realm of theory to the practical world of second-person attitudes, emotions, and actions.

Beginning Ethics Lewis Vaughn, 2015 The most accessible, practical, and affordable introduction to ethical theory and moral reasoning.

Moral Choices Scott Rae, 2009-12-15 With its unique union of theory and application and its well-organized, easy-to-use design, *Moral Choices* has earned its place as the standard text for college ethics courses. This third edition offers extensive updates, revisions, and brand new material, all designed to help students develop a sound and current basis for making ethical decisions in today's complex postmodern culture. *Moral Choices* outlines the distinctive elements of Christian ethics while avoiding undue dogmatism. The book also introduces other ethical systems and their key proponents, including Plato, Aristotle, Augustine, Aquinas, and Kant. After describing a seven-step procedure for tackling ethical dilemmas, author Scott Rae uses case studies to help students think critically and biblically about ? Abortion ? Reproductive Technologies ?

Euthanasia ? Capital Punishment ? Sexual Ethics ? The Morality of War ? Genetic Technologies and Human Cloning ? NEW: Ethics and Economics New features include online resources for instructors; a chapter covering global capitalism, environmental ethics, and business ethics; new material on bioethics and on stem cell and embryo research; discussion questions at the end of each chapter; and sidebars with case studies.

The Ethics of Care Virginia Held,2006 The author assesses the ethics of care as a promising alternative to the familiar moral theories that serve so inadequately to guide our lives. Held examines what we mean by care and focuses on caring relationships. She also looks at the potential of care for dealing with social issues and global problems.

[The Role of Moral Reasoning on Socioscientific Issues and Discourse in Science Education](#) Dana L. Zeidler,2007-04-29 This is the first book to address moral reasoning and socioscientific discourse. It provides a theoretical framework to reconsider what a functional view of scientific literacy entails, by examining how nature of science issues, classroom discourse issues, cultural issues, and science-technology-society-environment case-based issues contribute to habits of mind about socioscientific content. The text covers philosophical, psychological and pedagogical considerations underpinning moral reasoning, as well as the status of socioscientific issues in science education.
