"Enjoy The Experience is the largest collection of American private press vinyl ever amassed and presented, featuring over one thousand cover reproductions from 1958-1992 ... The subjects of Enjoy The Experience range from Lesbian Folk singers to Psychedelic Disco bands; Awkward Teen Pop combos to Pizza Parlor Organists; Religious Cult Leaders to Swank Sinatra Imitators. But this is not a novelty freak show: also profiled and discussed are some of the most highly regarded rock, soul, jazz, funk and singer/songwriter albums from the latter half of the twentieth century. From the awkward-yet-talented to the genius-yet-bizarre, one thing unites all musicians presented here: they sincerely hoped to become stars, they committed themselves to record, and they left themselves vulnerable to an industry not understanding of nuance, not appreciative of character"--Publisher's website.

"If there's one thing Reusing understands, it's the power of a remarkable ingredient." – O Magazine "[A] must-have title for both new and experienced cooks." --Publisher's Weekly (Starred Review) "Her enthusiasm is infectious, her approach, inviting."—BookPage Top Pick and Cookbook of the Month "I love Andrea Reusing's Lantern in Chapel Hill. And her recipes in Cooking in the Moment are so approachable and her stories so insightful that they blaze a path toward great home cooking." —David Chang "I've had the pleasure of enjoying many fine meals at Lantern. Andrea Reusing's food is always fresh, seasonal, and as local as possible. Her recipes are creative and downright delicious." —John Grisham For Andrea Reusing—an award-winning chef, a leader in the sustainable agriculture movement, and a working mother—"cooking in the moment" simply means focusing on one meal at a time. Tender spring broccoli given a smoky char on the grill, a summer berry pudding with cold cream, or a cider-braised pork shoulder served with pan-fried apples on a frosty night—cooking and eating this way allows food in season to become the foundation of a full life. Cooking in the Moment is a rich, absorbing journey through a year in Reusing's home kitchen as she cooks for family and friends using ingredients grown nearby. When seasonality is reimagined as a grocery list rather than a limitation, everyday meals become cause for celebration—a whole week of fresh sweet corn; a blue moon autumn asparagus harvest; a rich, spicy soup made with the last few sweet potatoes of winter. Reusing seamlessly blends down-to-earth kitchen advice with delicious, doable recipes, including childhood favorites (chicken and dumplings), simple one-pot dinners (shrimp, pea, and rice stew), as well as feasts to satisfy a crowd (roast fresh ham with cracklings). And while the action takes place in North Carolina, the kinds of producers and places that animate these pages—farmers, ranchers, cheesemakers, butchers, bakers, orchards, backyard henhouses, and fishing holes—can be found all over, producing the flavors that we crave. With gorgeous photography throughout and more than 130 recipes, Cooking in the Moment will inspire cooks everywhere to embrace the flavors and bounty of each season.

the world of Twilight with the highly anticipated companion, *Midnight Sun*: the iconic love story of Bella and Edward told from the vampire's point of view. This revolutionary book empowers its readers by exploring enduring, challenging, and timely philosophical issues in new essays written by expert women philosophers. The book will inspire and entice these philosophers' younger counterparts, curious readers of all genders, and all who support equity in philosophy. If asked to envision a philosopher, people might imagine a bearded man, probably Greek, perhaps in a toga, pontificating about abstract ideas. Or they might think of that same man in the Enlightenment, gripping a quill pen and pouring universal truths onto a page. They may even call to mind a much more modern man, wearing a black sweater and smoking a cigarette in a Paris café, expressing existential angst in a new novel or essay. What people are unlikely to picture, though, is a woman. Women have historically been excluded from the discipline of philosophy and remain largely marginalized in contemporary textbooks and anthologies. The under-representation of women in secondary and post-secondary curricula makes it harder for young women to see themselves as future philosophers. In fact, it makes it harder for all people to engage the valuable contributions that women have made and continue to make to intellectual thought. While some progress has been made in building a more inclusive world of philosophy, especially in the last fifty years, important work remains to be done. *Philosophy for Girls* helps correct the pervasive and problematic omission of women from philosophy. Divided into four sections that connect to major, primary fields in philosophy (metaphysics, epistemology, social and political philosophy, and ethics), this anthology is unique: chapters are all written by women, and each chapter opens with an anecdote about a girl or woman from mythology, history, art, literature, or science to introduce chapter topics. Further, nearly all primary and secondary sources used in the chapters are written by women philosophers. The book is written in a rigorous, academic spirit but in lively and engaging prose, making serious philosophical insights accessible to readers who are new to philosophy. This book appeals to a wide audience. Individual readers will find value in these pages--especially girls and women ages 16-24, as well as university and high school educators and students who want a change from standard anthologies that include few or no women. The book's contributors both represent and map the diverse landscape of philosophy, highlighting its engagement with themes of gender and equity. In doing so, they encourage philosophers current and future philosophers to explore new territory and further develop the topography of the field. *Philosophy for Girls* is a rigorous yet accessible entry-point to philosophical contemplation designed to inspire a new generation of philosophers.

The *Cannibal's Cookbook* fiercely consumes the body of past cyclopean constructions. It assembles, re-packages, and offers this latent knowledge for your contemporary consumption. It is a manual for the hungry, for those who are not satiated by the careless building practices of the present. With one foot in the past and another in the present, the cookbook bridges the realities of our ancestors and ourselves. We propose a series of architectural "recipes" after dining on this body of past expertise. The recipes are deciphered from ancient cyclopean masonry systems, but with a contemporary twist. They cannibalize leftover debris--building

rubble that typically stuffs our landfills--to construct new buildings

"A book so gripping it can scarcely be put down. . . . Superb."— New York Times Book Review "WESTWARD HO! FOR OREGON AND CALIFORNIA!" In the eerily warm spring of 1846, George Donner placed this advertisement in a local newspaper as he and a restless caravan prepared for what they hoped would be the most rewarding journey of a lifetime. But in eagerly pursuing what would a century later become known as the "American dream," this optimistic-yet-motley crew of emigrants was met with a chilling nightmare; in the following months, their jingoistic excitement would be replaced by desperate cries for help that would fall silent in the deadly snow-covered mountains of the Sierra Nevada. We know these early pioneers as the Donner Party, a name that has elicited horror since the late 1840s. With *The Best Land Under Heaven*, Wallis has penned what critics agree is "destined to become the standard account" (Washington Post) of the notorious saga. Cutting through 160 years of myth-making, the "expert storyteller" (True West) compellingly recounts how the unlikely band of early pioneers met their fate. Interweaving information from hundreds of newly uncovered documents, Wallis illuminates how a combination of greed and recklessness led to one of America's most calamitous and sensationalized catastrophes. The result is a "fascinating, horrifying, and inspiring" (Oklahoman) examination of the darkest side of Manifest Destiny.

Death Row Confessions - Execution Chamber Last Statements from the Files of the Texas Department of Criminal Justice. When a person accused of a crime is convicted and sentenced to capital punishment, the person can make a final statement, or express their "last words", before being executed. Much of the time, the last word is an apology to their family, family of the victim, friends, or God. Sometimes though, a final statement includes words of hatred, disgust, or defiance. You are about to read the touching last statements of 162 convicted criminals from 1984 to the present. The statements you are about to read were either read aloud by the convicted prisoner or read from a pre-prepared written statement. All these statements were spoken in the death chamber while the condemned was being prepared for execution. 'I'm not ready to go, but I have no choice; I sent several letters to my family; they'll be very moving when you get them. I want to say goodbye again to my boys. I know I'm missing somebody, but if there's anything I have left to say, it would be that I wish I had a Shakespearean vocabulary, but since I was raised in TDC, I missed out on some of my vocabulary.' 'If my words can persuade you to discontinue this practice of executing people, please do so. If the citizens don't do away with the death penalty, Texas won't be a safe place to be. I have no revenge because hate won't solve anything.' 'You all brought me here to be executed, not to make a speech. That's it.'

The Gospel of Blood is the autobiography of Nico Claux, a French morgue attendant whose morbid obsessions led him to grave robbery, cannibalism and murder in the early 1990s. It is a bone-chilling chronicle of a real-life vampire who prowled the Gothic cemeteries of Paris, unearthing coffins and mutilating the bodies inside. A practicing Satanist, Claux escalated to murder after working for a year in several morgues, receiving orders to kill from the corpses he had autopsied. The Gospel of Blood provides a rare insight into a killer's tortured mind, as he relates the graphic details of his crimes, including never-before revealed confessions. It is a fascinating look inside the thoughts of a psychotic murderer who has found redemption in prison through art.

From the author of *Lost Souls*, *Drawing Blood*, and *Wormwood* comes a thrilling and chilling novel that bestselling author Peter Straub says serves as a “guidebook to hell.” To serial slayer Andrew Compton, murder is an art, the most intimate art. After feigning his own death to escape from prison, Compton makes his way to the United States with the sole ambition of bringing his “art” to new heights. Tortured by his own perverse desires, and drawn to possess and destroy young boys, Compton inadvertently joins forces with Jay Byrne, a dissolute playboy who has pushed his “art” to limits even Compton hadn’t previously imagined. Together, Compton and Byrne set their sights on an exquisite young Vietnamese-American runaway, Tran, whom they deem to be the perfect victim. Swiftly moving from the grimy streets of London’s Piccadilly Circus to the decadence of the New Orleans French Quarter, Poppy Z. Brite dissects the landscape of torture and invites us into the mind of a killer. *Exquisite Corpse* confirms Brite as a writer who defies categorization. It is a novel for those who dare trespass where the sacred and profane become one.

This, the first in a series of themed collections from Nexus, is a paean to the delights of discipline, one that mixes extracts from hard-to-find genre classics with new material.

The definitive history of Katrina: an epic of citymaking, revealing how engineers and oil executives, politicians and musicians, and neighbors black and white built New Orleans, then watched it sink under the weight of their competing ambitions. Hurricane Katrina made landfall in New Orleans on August 29, 2005, but the decisions that caused the disaster extend across the twentieth century. After the city weathered a major hurricane in 1915, its Sewerage and Water Board believed that developers could safely build housing away from the high ground near the Mississippi. And so New Orleans grew in lowlands that relied on significant government subsidies to stay dry. When the flawed levee system surrounding the city and its suburbs failed, these were the neighborhoods that were devastated. The homes that flooded belonged to Louisianans black and white, rich and poor. Katrina’s flood washed over the twentieth-century city. The flood line tells one important story about Katrina, but it is not the only story that matters. Andy Horowitz investigates the response to the flood, when policymakers reapportioned the challenges the water posed, making it easier for white New Orleanians to return home than it was for African Americans. And he explores how the profits and liabilities created by Louisiana’s oil industry have been distributed unevenly among the state’s citizens for a century, prompting both dreams of abundance—and a catastrophic land loss crisis that continues today. Laying bare the relationship between structural inequality and physical infrastructure—a relationship that has shaped all American cities—Katrina offers a chilling glimpse of the future disasters we are already creating.

William Marston was an unusual man—a psychologist, a soft-porn pulp novelist, more than a bit of a carny, and the (self-declared) inventor of the lie detector. He was also the creator of Wonder Woman, the comic that he used to express two of his greatest passions: feminism and women in bondage. Comics expert Noah Berlatsky takes us on a wild ride through the Wonder Woman comics of the 1940s, vividly illustrating how Marston's many quirks and contradictions, along with the odd disproportionate composition created by illustrator Harry Peter, produced a comic that was radically ahead of its time in terms of its bold presentation of female power and sexuality. Himself a committed polyamorist, Marston created a universe that was friendly to queer sexualities and lifestyles, from kink to lesbianism to cross-dressing. Written with a deep affection for the fantastically pulpy elements of the early Wonder Woman comics, from invisible jets to giant multi-lunged space kangaroos, the book also reveals how the comic addressed serious, even taboo issues like rape and incest. Wonder Woman: Bondage and Feminism in the Marston/Peter Comics 1941-1948 reveals how illustrator and writer came together to create a unique, visionary work of art, filled with bizarre ambition, revolutionary fervor, and love, far different from the action hero symbol of the feminist movement many of us recall from television.
