"If the Saint calls you, if you have an open road, then you don't feel the fire as if it were your enemy," says one of the participants in the Anastenaria. This compelling work evokes and contrasts two forms of firewalking and religious healing: first, the Anastenaria, a northern Greek ritual in which people who are possessed by Saint Constantine dance dramatically over red-hot coals, and, second, American firewalking, one of the more spectacular activities of New Age psychology. Loring Danforth not only analyzes these rituals in light of the most recent work in medical and symbolic anthropology but also describes in detail the lives of individual firewalkers, involving the reader personally in their experiences: he views ritual therapy as a process of transformation and empowerment through which people are metaphorically moved from a state of illness to a state of health. Danforth shows that the Anastenaria and the songs accompanying it allow people to express and resolve conflict-laden family relationships that may lead to certain kinds of illnesses. He also demonstrates how women use the ritual to gain a sense of power and control over their lives without actually challenging the ideology of male dominance that pervades Greek culture. Comparing the Anastenaria with American firewalking, Danforth includes a gripping account of his own participation in a firewalk in rural Maine. Finally he examines the place of anthropology in a postmodern world in which the boundaries between cultures are becoming increasingly blurred.

As the most advanced frontier construction of its time, and as definitive evidence of the Romans' time in Scotland, the Antonine Wall is an invaluable and fascinating part of this country's varied and violent history. For a generation, from about AD 140 to 160, the Antonine Wall was the north-west frontier of the Roman Empire. Constructed by the Roman army, it ran from modern Bo'ness on the Forth to Old Kilpatrick on the Clyde and consisted of a turf rampart fronted by a wide and deep ditch. At regular intervals were forts connected by a road, while outside the fort gates clustered civil settlements. Antoninus Pius, whom the wall was named after, reigned longer than any other emperor with the exception of its founder Augustus. Yet relatively little is known about him. In this meticulously researched book, David Breeze examines this

enigmatic life and the reasons for the construction and abandonment of his Wall.

Return to the deserts of the Dark Sun world! A maverick statesman, a half-elf slave girl, and a man-dwarf gladiator band together to face off against the vile magic of a sorcerer-king who's spent a thousand years draining the world of Athas of its precious life-force. In 1991 best-selling author Troy Denning introduced the world to the post-apocalyptic world of Athas, and almost twenty years later it remains one of the most talked-about and fan-requested settings in the Dungeons & Dragons universe. These deluxe trade paperback reissues will introduce a whole new generation to the magic-blasted deserts of the Dark Sun world! From the Trade Paperback edition.

The Firefly Factastic Book of 1001 Lists is a witty compilation of 1,001 lists of useful facts and amusing trivia designed especially to appeal to younger readers. Author Russell Ash has a proven knack for knowing what will interest and entertain. Grouped by subject, from nature to science, space to sports, countries to culture, the short lists of ranked facts and statistics sit alongside longer narrative lists of the bizarre and unusual, the intriguing and surprising. Comprehensive "fact files" provide quick and easy reference on subjects from geography to history to popular culture. World records, milestones and famous "firsts" are all included as well as lists of opposites, quiz lists, and questions and answers. "Did You Know" items throughout offer perfect conversation starters and stoppers that kids will love. What are the top 10 tallest mountains in the world? Who holds the most world records for table tennis? Which animal's heart beats the fastest? What is the most popular film of all time? Which frog jumps the longest? Which is the biggest? The smallest? With 167 letters, what is the longest place name in the world? How far does a mail carrier walk in one year? All of the answers to these questions and innumerable others are found in The Firefly Factastic Book of 1001 Lists. Humorously and informatively written, and extensively researched by expert list compiler Russell Ash, this is a fascinating book

readers will never want to put down.

The Sahara: a dream-like, far away landscape of Lawrence of Arabia and Wilfred Thesiger, The English Patient and Star Wars, and home to nomadic communities whose ways of life stretch back millennia. Today it's a teeth-janglingly dangerous destination, where the threat of jihadists lurks just over the horizon. Following in the footsteps of 16th century traveller Leo Africanus, Nicholas Jubber went on a turbulent adventure to the forgotten places of North Africa and the legendary Timbuktu. Once the seat of African civilization and home to the richest man who ever lived, this mythic city is now scarred by terrorist occupation and is so remote its own inhabitants hail you with the greeting, 'Welcome to the middle of nowhere'. From the cattle markets of the Atlas, across the Western Sahara and up the Niger river, Nicholas joins the camps of the Tuareg, Fulani, Berbers, and other communities, to learn about their craft, their values and their place in the world. The Timbuktu School for Nomads is a unique look at a resilient city and how the nomads pit ancient ways of life against the challenges of the 21st century.

Designed for a one-semester undergraduate course in continuous linear systems, Continuous Signals and Systems with MATLAB®, Second Edition presents the tools required to design, analyze, and simulate dynamic systems. It thoroughly describes the process of the linearization of nonlinear systems, using MATLAB® to solve most examples and problems. With updates and revisions throughout, this edition focuses more on state-space methods, block diagrams, and complete analog filter design. New to the Second Edition • A chapter on block diagrams that covers various classical and state-space configurations • A completely revised chapter that uses MATLAB to illustrate how to design,

simulate, and implement analog filters • Numerous new examples from a variety of engineering disciplines, with an emphasis on electrical and electromechanical engineering problems Explaining the subject matter through easy-to-follow mathematical development as well as abundant examples and problems, the text covers signals, types of systems, convolution, differential equations, Fourier series and transform, the Laplace transform, state-space representations, block diagrams, system linearization, and analog filter design. Requiring no prior fluency with MATLAB, it enables students to master both the concepts of continuous linear systems and the use of MATLAB to solve problems.

This book is a compilation of direct experiences revealed in meditation over many years. Defined by the author as a mystical approach to alignment, Rooted in the Infinite offers a complete explanation and concrete exercises that enable readers to begin, continue, or enhance their meditative life for the purpose of unity with the Divine, creating the heart's desire in the physical, and cultivating a sense of balance in one's life. The novice may finally find a teaching that will prepare her for successful sitting. The hatha yoga practitioner can achieve great focus and alignment that will enhance his practice dramatically. Advanced meditators will find in this book the possibility of deepening of their practice. Cindy Saul, Publisher and Editor, "phenomeNEWS" [www.phenomenews.com](http://www.phenomenews.com) "Popular phenomeNEWS columnist Rebbie Straubing's first book is wonderful. In this easy-to-read and clearly written text, Straubing describes her system of YOFA, the yoga of alignment. She uses the analogy of a garden to describe the stages one goes through in reaching inner enlightenment, which leads to inner peace and healing. Her technique of using three points of connection, the X, Y and Z-axes which all intersect at the "root" of consciousness puts meditation into a framework that makes sense. And she includes the chakra system, combining them all together in a homogenous energetic mix of mind, body and soul connection that moves us into enhanced transcendent experience. The exercises at the end of the book compliment the information in the early chapters. Meditation is now something that everyone can align themselves with easily and effortlessly. Of course, being a big Abraham fan, I love her abundant use of their teachings throughout the book. They have obviously been a big influence in her life and in enhancing the creation of this most valuable learning tool. "Straubing uses the analogy of the garden to teach. She brings it all together in the final chapter when she writes, "The inner garden that we have been tending turns out to be the garden of the Self and it exists only at that extraordinary point where here, now and being intersect. We water this garden by pouring our uninterrupted pure consciousness on its fertile ground. We cultivate with the practices of concentration and meditation, which weed out conflicts in our vibration and bring forward the sweet fruit of our hearts' desires." I recommend this book for anyone wanting to learn meditation or to enhance their

current meditation practice and also for novices just beginning to understand universal flow. "Thanks, Rebbie, for bringing us a practical, easy-to-use technique to brighten and lighten our path."

This volume contains selected papers from a December 2006 Dumbarton Oaks symposium that complemented an exhibition of early Bible manuscripts at the Freer Gallery and Sackler Gallery of Art titled "In the Beginning: Bibles before the Year 1000." Speakers were invited to examine the use of the Greek Old Testament as a text, social practice, and cultural experience in the Byzantine Empire. Not only are reminiscences of the Old Testament ubiquitous in Byzantine literature and art, but the Byzantine people also revered and identified with Old Testament role models. The Old Testament connected Byzantium not only with its Christian neighbors but with Jewish and Muslim peoples as well. This widespread phenomenon has never received systematic investigation. The Old Testament in Byzantium considers the manifestations of the holy books in Byzantine manuscript illustration, architecture, and government, as well as in Jewish Bible translations and the construction of Muhammad's character.

A young woman finds her marriage unfulfilling and her husband's attempts to force her to become his image of a woman, frustrating Here, in a lively, anecdotal text by Enid Nemy, a feature writer for the New York Times, is the personal story of Judith Leiber--'The Bag Lady from Budapest'--spanning her roots in pre-World War II Hungary, where she was the first woman accepted into the handbag Guild, through her emigration to the United States, where, after several stints working for other handbag manufacturers, she opened her own business in 1963. Some 192 full-color photographs reveal the dazzling array of bags in all their exquisite detail.

Das Lehrbuch gibt einen einzigartigen und umfassenden Überblick über Entwicklung, Potentiale und Perspektiven des Radtourismus in Deutschland und Europa. Namhafte Experten aus Wissenschaft, Tourismuswirtschaft und dem Fahrradverband ADFC liefern fundierte Beiträge. Der Grundlagenteil ordnet den Radtourismus in das System des Tourismus ein und betrachtet wichtige Facetten von Angebot und Nachfrage. Aktuelle Fallbeispiele (z.B. Donau-Radweg, Elberadweg, Mallorca) beleuchten Raddestinationen und Wertschöpfung und veranschaulichen aktuelle Standards und die Vorgehensweise bei Planungen im Radtourismus.

Visit an extraordinary hill where the little angels are buried; discover remarkable forgotten Art Deco buildings; see a plane taking off at really close range, leftovers from the 1908 and 1922 Universal Expositions, a beautiful private palace open to visitors once a month, modernist ceramics hidden on the 15th-floor terrace of a former government building, a remarkable secret staircase; experience little-known walks and views of the city; find an Amazonian talisman at Copacabana, vestiges of the Carioca river, a rare statue of the great-grandmother of Jesus, a taxi nightclub, a work of art in a favela, a disused airship hangar ... Far from the crowds and the usual beach and carnival cliches, Rio de Janeiro has countless treasures it reveals only to residents and travellers who wander off the beaten track. An indispensable guide for all those who thought they were familiar with Rio or would like to discover the other face of the city."

The 1052km Loire cycle route starts at the source of the Loire in the Massif Central mountains of central France and finishes at the Atlantic opposite St Nazaire. It descends past extinct volcanoes, crater lakes and deep gorges before joining EuroVelo route 6 and the fully waymarked Loire a Velo, France's most popular cycle trail. Following the river downstream in 26 stages, the route is generally downhill or level often on dedicated traffic-free cycle tracks. Packed with a wealth of useful information - from practical planning advice to fascinating insights about the river and its surroundings - the guidebook features detailed route descriptions and informative mapping. Details of facilities and places to stay, and a French glossary are included. The route goes through the heart of France as the Loire becomes the royal river, bounded by extravagant chateaux, fields of Charolais cattle and vineyards. It passes through historic cities like Orleans and Tours, continuing past Angers and France's fourth largest city Nantes.
