Javier Cercas is one of the most enjoyable and innovative novelists at work today. Well known among English-language readers as the author of *Soldiers of Salamis* (winner of the Independent Foreign Fiction Prize), *The Anatomy of a Moment* and *The Impostor*, Cercas is also Professor of Spanish Literature at the University of Girona. In 2015, following in the footsteps of George Steiner, Mario Vargas Llosa and Umberto Eco, as Weidenfeld Visiting Professor in Comparative European Literature at St Anne's College, Oxford, Cercas gave a series of five

lectures on the novel today, which have since been revised and are now published in English for the first time as *The Blind Spot*. Starting with Don Quixote and his own experience as a writer, Cercas launches out into a consideration of the most challenging fiction of the last hundred years, from Kafka, Borges, Perec, Calvino and Kundera, to Sebald, Coetzee, Barnes, Foster Wallace and Knausgård. First, he defines and celebrates certain aspects of the novel in the twenty-first century which are also features of Cervantes' masterpiece: its essential irony and ambiguity, its total commitment to innovation, its natural, joyful and omnivorous desire to cram the whole world within its pages, and its intricate concern with fiction and reality. Then he moves on to consider the actual meaning of the novel, the uncertain and discredited role of the writer as intellectual, and the role of the reader in the creation of a form whose aim is to tell the truth by telling lies. The result is a dazzling short book which provides a new interpretation of novel from Cervantes and Melville to the present, and which will be as stimulating for readers and writers of literature in the twenty-first century as E. M. Forster's *Aspects of the Novel* or Milan Kundera's *The Art of the Novel* were in the last.

E4574E4620 - Intermediate Reproducible Coloring Book for home or classroom use. As President Trump's National Security Advisor, John Bolton spent many of his 453 days in the room where it happened, and the facts speak for themselves. The result is a White House memoir that is the most comprehensive and substantial account of the Trump Administration, and one of the few to date by a top-level official. With almost daily access to the President, John Bolton has produced a precise rendering of his days in and around the Oval Office. What Bolton saw astonished him: a President for whom getting reelected was the only thing that mattered, even if it meant endangering or weakening the nation. "I am hard-pressed to identify any significant Trump decision during my tenure that wasn't driven by reelection calculations," he writes. In fact, he argues that the House committed impeachment malpractice by keeping their prosecution focused narrowly on Ukraine when Trump's Ukraine-like transgressions existed across the full range of his foreign policy—and Bolton documents exactly what those were, and attempts by him and others in the Administration to raise alarms about

them. He shows a President addicted to chaos, who embraced our enemies and spurned our friends, and was deeply suspicious of his own government. In Bolton's telling, all this helped put Trump on the bizarre road to impeachment. "The differences between this presidency and previous ones I had served were stunning," writes Bolton, who worked for Reagan, Bush 41, and Bush 43. He discovered a President who thought foreign policy is like closing a real estate deal—about personal relationships, made-for-TV showmanship, and advancing his own interests. As a result, the US lost an opportunity to confront its deepening threats, and in cases like China, Russia, Iran, and North Korea ended up in a more vulnerable place. Bolton's account starts with his long march to the West Wing as Trump and others woo him for the National Security job. The minute he lands, he has to deal with Syria's chemical attack on the city of Douma, and the crises after that never stop. As he writes in the opening pages, "If you don't like turmoil, uncertainty, and risk—all the while being constantly overwhelmed with information, decisions to be made, and sheer amount of work—and enlivened by international and domestic personality and ego conflicts beyond description, try something else." The turmoil, conflicts, and egos are all there—from the upheaval in Venezuela, to the erratic and manipulative moves of North Korea's Kim Jong Un, to the showdowns at the G7 summits, the calculated warmongering by Iran, the crazy plan to bring the Taliban to Camp David, and the placating of an authoritarian China that ultimately exposed the world to its lethal lies. But this seasoned public servant also has a great eye for the Washington inside game, and his story is full of wit and wry humor about how he saw it played.
