Discusses and provides tips to prevent lateness and procrastination.

Fans of DIY projects and crafts will conquer their fear of failure and create their own masterpieces using this fun and inspiring handbook. Get Crafty. Make Great Stuff. Be Creative! The number one fear of all creative types—crafters, DIYers, makers, artists—is that failure lurks right around the corner. Crafty blogger and creativity guru Kim Piper Werker urges everyone to pick up their pen or paintbrush or scissors and make something mighty ugly: get that “failure” out of the way. This friendly book offers up a multi-pronged approach to overcoming creative fears through inspiring essays and anecdotes, interviews, exercises and prompts, and sage advice from all over the creative spectrum to help individuals slay their creative demons.

Trained by the experts at CERT (Civilian Emergency Response Team) to understand how to prepare for and survive disasters, and a leader in the area of Disaster Recovery, Richard Lowe lays out how to make you, your family, and your friends ready for any disaster, large or small. Based upon specialized training, interviews with experts and personal experience, Lowe answers the big question: what is the secret to improving the odds of survival even after a big disaster?

What happens when Americans lose their jobs? In this illuminating story of ruin and reinvention, Pulitzer Prize-winning journalist Farah Stockman gives an up-close look at the profound role work plays in our sense of identity and belonging, as she follows three workers whose lives unravel when the factory they have dedicated so much to closes down. "With humor, breathtaking honesty, and a historian's satellite view, Stockman illuminates the fault lines ripping America apart."--Beth Macy, author of *Factory Man* and *Dopesick* Shannon, Wally, and John built their lives around their place of work. Shannon, a white single mother, became the first woman to run the dangerous furnaces at the Rexnord manufacturing plant in Indianapolis, Indiana, and was proud of producing one of the world's top brands of steel bearings. Wally, a black man known for his initiative and kindness, was promoted to chairman of efficiency, one of the most coveted posts on the factory floor, and dreamed of starting his own barbecue business one day. John, a white machine operator, came from a multigenerational union family and clashed with a work environment that was increasingly hostile to organized labor. The Rexnord factory had served as one of the economic engines for the surrounding community. When it closed, hundreds of people lost their jobs. What had life been like for Shannon, Wally, and John, before the plant shut down? And what became of them after the jobs moved to Mexico and Texas? *American Made* is the story of a community struggling to reinvent itself. It is also a story about race, class, and American values, and how jobs serve as a bedrock of people's lives and drive powerful social justice movements. This revealing book shines a light on a crucial political moment, when joblessness and anxiety about the future of work have made themselves heard at a national level. Most of all, it is a story about people: who we consider to be one of us and how the dignity of work lies at the heart of who we are.

"A lively and inspiring guidebook for anyone who wants to make the jump from normal to extraordinary." —Tony Robbins, #1 New York Times bestselling author of *Unshakeable* and *MONEY: Master the Game* An inspirational book that lays out the “Jump Curve”—four steps to wholeheartedly pursuing the career of your dreams—through experiences from a variety of people who have jumped and never looked back When Mike Lewis was twenty-four and working in a prestigious corporate job, he eagerly wanted to leave and pursue his dream of becoming a professional squash player. But he had questions: When is the right time to move from work that is comfortable to a career you have only dared to dream of? How have other people made such a jump? What did they feel when making that jump—and afterward? Mike sought guidance from others who had “jumped,” and the responses he got—from a banker who started a brewery, a publicist who became a Bishop, a garbage collector who became a furniture designer, and on and on—were so clear-eyed and inspiring that Mike wanted to share what he had learned with others who might be helped by those stories. First, though, he started playing squash professionally. The right book at the right time, *When to Jump* offers more than forty heartening stories (from the founder of Bonobos, the author of *The Big Short*, the designer of the Lyft logo, the *Humans of New York* creator, and many more) and takeaways that will inspire, instruct, and reassure, including the ingenious four-phase Jump Curve.

From the Nobel Prize-winning author of *Thinking, Fast and Slow* and the coauthor of *Nudge*, a revolutionary exploration of why people make bad judgments and how to make better ones--"a tour de force" (New York Times). Imagine that two doctors in the same city give different diagnoses to identical patients—or that two judges in the same courthouse give markedly different sentences to people who have committed the same crime. Suppose that different interviewers at the same firm make different decisions about indistinguishable job applicants—or that when a company is handling customer complaints, the resolution depends on who happens to answer the phone. Now imagine that the same doctor, the same judge, the same interviewer, or the same customer service agent makes different decisions depending on whether it is morning or afternoon, or Monday rather than Wednesday. These are examples of noise: variability in judgments that should be identical. In *Noise*, Daniel Kahneman, Olivier Sibony, and Cass R. Sunstein show the detrimental effects of noise in many fields, including medicine, law, economic forecasting, forensic science, bail, child protection, strategy, performance reviews, and personnel selection. Wherever there is judgment, there is noise. Yet, most of the time, individuals and organizations alike are unaware of it. They neglect noise. With a few simple remedies, people can reduce both noise and bias, and so make far better decisions. Packed with original ideas, and offering the same kinds of research-based insights that made *Thinking, Fast and Slow* and *Nudge* groundbreaking New York Times bestsellers, *Noise* explains how and why humans are so susceptible to noise in judgment—and what we can do about it.

INSTANT NEW YORK TIMES BESTSELLER A laugh-out-loud funny look at pop culture and social media stardom from one of the most popular funemployed millennials today, perfect for fans of *Next Level Basic* and *The Betches*. As the creator of the breakout Instagram account @GirlWithNoJob, Claudia Oshry has turned not wanting an ordinary career into a thriving media company and pop culture-focused podcast and morning show. The origins of her pop culture obsessions can be traced back to household debates over boy bands, and her flair for the dramatic to her young emulation of Blair Waldorf. When she started @GirlWithNoJob, Claudia entered that world herself as a social media influencer, sharing her unbelievable—and unbelievably awkward—encounters with some of her favorite A-listers as she navigates her incredible access. Now, in this juicy, behind-the-scenes look at the life of an Instagram sensation, Claudia leaves nothing out as she contemplates staying true to yourself while hustling in today's digital culture. Sometimes the best lessons are learned the hard way, and her journey hasn't been without its punch-in-the-face doses of humility. But, like anyone with a relentless desire to be popular, she dusts herself off and finds a new, better way forward. With humor and unique insights, Claudia examines the nature of social media celebrity, the many sides of fandom, and cancel culture. If there's one thing she knows for sure, she was born thirsty, and she's here for another round!

This business classic features straight-talking advice you'll never hear in school. Featuring a new foreword by Ariel Emanuel and Patrick Whitesell Mark H. McCormack, one of the most successful entrepreneurs in American business, is widely credited as the founder of the modern-day sports marketing industry. On a handshake with Arnold Palmer and less than a thousand dollars, he started International Management Group and, over a four-decade period, built the company into a multimillion-dollar enterprise with offices in more than forty countries. To this day, McCormack's business classic remains a must-read for executives and managers at every level. Relating his proven method of “applied people sense” in key chapters on sales, negotiation, reading others and yourself, and executive time management, McCormack presents powerful real-world guidance on • the secret life of a deal • management philosophies that don't work (and one that does) • the key to running a meeting—and how to attend one • the positive use of negative reinforcement • proven ways to observe aggressively and take the edge • and much more Praise for *What They Don't Teach You at Harvard Business School* “Incisive, intelligent, and witty, *What They Don't Teach You at Harvard Business School* is a sure winner—like the author himself. Reading it has taught me a lot.”—Rupert Murdoch, executive chairman, News Corp, chairman and CEO, 21st Century Fox “Clear, concise, and informative . . . Like a good mentor, this book will be a valuable aid throughout your business career.”—Herbert J. Siegel, chairman, Chris-Craft Industries, Inc. “Mark McCormack describes the approach I have personally seen him adopt, which has not only contributed to the growth of his business, but mine as well.”—Arnold Palmer “There have been what we love to call dynasties in every sport. IMG has been different. What this one brilliant man, Mark McCormack, created is the only dynasty ever over all sport.”—Frank Deford, senior contributing writer, *Sports Illustrated*

- make meaningful connections with the people around you
- learn to say no--so you can fill your days with things that matter to you most
- recharge when you need it
- spread the positive charge to others to make the world a happier, healthier place

Going beyond platitudes and shallow Insta-inspiration, this inspiring and empowering book provides a blueprint for feeling less stressed and genuinely making the most of your every day.

From bestselling writer David Graeber—“a master of opening up thought and stimulating debate” (Slate)—a powerful argument against the rise of meaningless, unfulfilling jobs...and their consequences. Does your job make a meaningful contribution to the world? In the spring of 2013, David Graeber asked this question in a playful, provocative essay titled “On the Phenomenon of Bullshit Jobs.” It went viral. After one million online views in seventeen different languages, people all over the world are still debating the answer. There are hordes of people—HR consultants, communication coordinators, telemarketing researchers, corporate lawyers—whose jobs are useless, and, tragically, they know it. These people are caught in bullshit jobs. Graeber explores one of society's most vexing and deeply felt concerns, indicting among other villains a particular strain of finance capitalism that betrays ideals shared by thinkers ranging from Keynes to Lincoln. “Clever and charismatic” (The New Yorker), *Bullshit Jobs* gives individuals, corporations, and societies permission to undergo a shift in values, placing creative and caring work at the center of our culture. This book is for everyone who wants to turn their vocation back into an avocation and “a thought-provoking examination of our working lives” (Financial Times).

“A timely and smart discussion of how different cities and regions have made a changing economy work for them – and how policymakers can learn from that to lift the circumstances of working Americans everywhere.”—Barack Obama

We're used to thinking of the United States in opposing terms: red versus blue, haves versus have-nots. But today there are three Americas. At one extreme are the brain hubs—cities like San Francisco, Boston, and Durham—with workers who are among the most productive, creative, and best paid on the planet. At the other extreme are former manufacturing capitals, which are rapidly losing jobs and residents. The rest of America could go either way. For the past thirty years, the three Americas have been growing apart at an accelerating rate. This divergence is one of the most important developments in the history of the United States and is reshaping the very fabric of our society, affecting all aspects of our lives, from health and education to family stability and political engagement. But the winners and losers aren't necessarily who you'd expect. Enrico Moretti's groundbreaking research shows that you don't have to be a scientist or an engineer to thrive in one of the brain hubs. Carpenters, taxi-drivers, teachers, nurses, and other local service jobs are created at a ratio of five-to-one in the brain hubs, raising salaries and standard of living for all. Dealing with this split—supporting growth in the hubs while arresting the decline elsewhere—is the challenge of the century, and *The New Geography of Jobs* lights the way.

Do you feel stuck in life, not knowing how to make it more successful? Do you wish to become more popular? Are you craving to earn more? Published to instant acclaim in 2005, our best selling *How to Be a Graphic Designer without Losing Your Soul* has become a trusted resource for graphic designers around the world, combining practical advice with philosophical guidance to help young professionals embark on their careers. This new, expanded edition brings this essential text up to date with new chapters on professional skills, the creative process, and global trends that include social responsibility, ethics, and the rise of digital culture. *How to Be a Graphic Designer* offers clear, concise guidance along with focused, no-nonsense strategies for setting up, running, and promoting a studio; finding work; and collaborating with clients. The book also includes inspiring new interviews with leading designers, including Jonathan Barnbrook, Sara De Bondt, Stephen Doyle, Ben Drury, Paul Sahre, Dmitri Siegel, Sophie Thomas, and Magnus Vol Mathiassen

Our bestselling introduction to graphic design is now available in a revised and updated edition. In *Graphic Design: The New Basics*, bestselling author Ellen Lupton (*Thinking with Type*, *Type on Screen*) and design educator Jennifer Cole Phillips explain the key concepts of visual language that inform any work of design, from logo or letterhead to a complex website. Through visual demonstrations and concise commentary, students and professionals explore the formal elements of twodimensional design, such as point, line, plane, scale, hierarchy, layers, and transparency. This revised edition replaces sixty-four pages of the original publication with new content, including new chapters on visualizing data, typography, modes of representation, and Gestalt principles, and adds sixteen pages of new student and professional work covering such topics as working with grids and designing with color.

Read the Wall Street Journal Bestseller for "cultivating intense focus" for fast, powerful performance results for achieving success and true meaning in one's professional life (Adam Grant, author of *Give and Take*). Deep work is the ability to focus without distraction on a cognitively demanding task. It's a skill that allows you to quickly master complicated information and produce better results in less time. Deep Work will make you better at what you do and provide the sense of true fulfillment that comes from craftsmanship. In short, deep work is like a super power in our increasingly competitive twenty-first century economy. And yet, most people have lost the ability to go deep—spending their days instead in a frantic blur of e-mail and social media, not even realizing there's a better way. In *Deep Work*, author and professor Cal Newport flips the narrative on impact in a connected age. Instead of arguing distraction is bad, he instead celebrates the power of its opposite. Dividing this book into two parts, he first makes the case that in almost any profession, cultivating a deep work ethic will produce massive benefits. He then presents a rigorous training regimen, presented as a series of four "rules," for transforming your mind and habits to support this skill. 1. Work Deeply 2. Embrace Boredom 3. Quit Social Media 4. Drain the Shallows A mix of cultural criticism and actionable advice, *Deep Work* takes the reader on a journey through memorable stories—from Carl Jung building a stone tower in the woods to focus his mind, to a social media pioneer buying a round-trip business class ticket to Tokyo to write a book free from distraction in the air—and no-nonsense advice, such as the claim that most serious professionals should quit social media and that you should practice being bored. *Deep Work* is an indispensable guide to anyone seeking focused success in a distracted world. "*Time to Make It Stop*" is a simple, easy to read and fun guide to relieving the stress and anxiety of today's hectic modern life. Each page comes alive with deceptively simple cartoon illustrations that delight the eye and open the mind to the timeless world of "Now" and the gift called the Present. It is written by Jim George, who combines a thirty-year career in animation and children's books with a private hypnotherapy and counseling practice to create a one-of-a-kind "Dr. Seuss of Self Help" experience.

This trio of sharp-witted essays takes irony to a new level. In *How to Write About Africa*, Wainaina dissects the African clichés and preconceptions dear to western writers and readers with a ruthless precision. In the same fashion, *My Clan KC* undresses the layers of meaning shrouding the identity of the infamous Kenya Cowboy. And in *Power of Love*, we start with a bemused recollection of the advent of the celebrities-for-Africa phenomenon, heralded by the mid-eighties hit song *We Are The World*. It's a short step from there to the speculation, many years later, that a \$9-dollar-a-day cow from Japan could very well head a humanitarian NGO in Kenya, whose dollar-a-day people continue to fascinate the \$5-dollar-a-day, 25-year-old backpackers who came and loved and compassioned and are now the beneficiaries of \$5000 a month consulting for the United Nations.

"If you want to create your dream job, this is a must read. Filled with inspiring stories, practical tools, and strategies, this is your roadmap." —Ellen Latham, Founder and CEO of Orange Theory Is work WORKING for you? If you experience the "Sunday night scaries," count down the days to the weekend, or dread the thought of another day at work, maybe you can only see two options to escape your current misery: quit your job or stay and suffer. There is another option. In *Own It. Love It. Make It Work.*, one of America's top productivity consultants, reveals why you don't have to rely on your company, nor your boss, for your professional fulfillment. Instead, you can take ownership of your career, your life, and your happiness—right now. Tate begins with a powerful premise: that "it takes two" to cultivate engagement—that both you and your employer need to have an equal voice in the process. She then outlines five fundamental strategies and tools to make your job work for you, including how to: Be recognized and rewarded for your knowledge, skills, and contributions Align your job to your strengths so you can focus on what you love to do Shape your work in a way that meets both your professional and personal needs and goals Build meaningful, impactful relationships so you can advance your career Develop new skills and knowledge so you can increase your value and impact Design your job to find meaning in your work Packed with actionable steps and inspiring, results-driven stories from Carson's consulting work, *Own It. Love It. Make It Work.* equips you with a complete toolkit for making a living and enjoying your life.

Do you ever feel sick of your job? Do you ever envy those people who seem to positively love what they do? While those people head off to work with a sense of joy and purpose, for the rest of us trudging back to the office on Monday morning or to the factory for the graveyard shift or to the job site on a hundred-degree day can be an exercise in soul crushing desperation. "If only we could change jobs," we tell ourselves, "that would make it better." But we don't have the right education . . . or we don't have enough experience . . . or the economy isn't right . . . or we can't afford the risk right now. So we keep going back to the same old unsatisfying jobs. The wonderful truth, though, is that almost any kind of occupation can offer any one of us a sense of calling. Regardless of where we are in our careers, we can

all find joy and meaning in the work we do, from the construction zone flagger who keeps his crew safe to the corporate executive who believes that her company's products will change the world. In *Make Your Job a Calling* authors Bryan J. Dik and Ryan D. Duffy explore this powerful idea and help the reader navigate the many challenges—both internal and external—that may arise along the pathway to a sense of calling at work. Over the course of four sections, the authors define the idea of calling, review cutting-edge research on the subject, provide practical guidelines for discerning a calling at all stages of work and life, and explore what calling will look like as workplace norms continue to evolve. They also take pains to present a realistic view of the subject by unpacking the perils and challenges of pursuing one's higher purpose, especially in an uncertain economy. The lessons presented will resound with anyone in any line of work and will show how the power of calling can beneficially shape individuals, organizations, and society as a whole.

From the creator of the popular website *Ask a Manager* and New York's work-advice columnist comes a witty, practical guide to 200 difficult professional conversations—featuring all-new advice! There's a reason Alison Green has been called “the Dear Abby of the work world.” Ten years as a workplace-advice columnist have taught her that people avoid awkward conversations in the office because they simply don't know what to say. Thankfully, Green does—and in this incredibly helpful book, she tackles the tough discussions you may need to have during your career. You'll learn what to say when • coworkers push their work on you—then take credit for it • you accidentally trash-talk someone in an email then hit “reply all” • you're being micromanaged—or not being managed at all • you catch a colleague in a lie • your boss seems unhappy with your work • your cubemate's loud speakerphone is making you homicidal • you got drunk at the holiday party Praise for *Ask a Manager* “A must-read for anyone who works . . . [Alison Green's] advice boils down to the idea that you should be professional (even when others are not) and that communicating in a straightforward manner with candor and kindness will get you far, no matter where you work.”—Booklist (starred review) “The author's friendly, warm, no-nonsense writing is a pleasure to read, and her advice can be widely applied to relationships in all areas of readers' lives. Ideal for anyone new to the job market or new to management, or anyone hoping to improve their work experience.”—Library Journal (starred review) “I am a huge fan of Alison Green's *Ask a Manager* column. This book is even better. It teaches us how to deal with many of the most vexing big and little problems in our workplaces—and to do so with grace, confidence, and a sense of humor.”—Robert Sutton, Stanford professor and author of *The No Asshole Rule* and *The Asshole Survival Guide* “*Ask a Manager* is the ultimate playbook for navigating the traditional workforce in a diplomatic but firm way.”—Erin Lowry, author of *Broke Millennial: Stop Scraping By and Get Your Financial Life Together*

The bestselling motivational guide that *TheAtlantic.com* calls “a rallying cry for women to get the money they deserve.” Why are women so often overlooked and underpaid? What are the real reasons men get raises more often than women? How can women ask for—and actually get—the money, the job, the recognition they deserve? Prompted by her own experience as cohost of *Morning Joe*, Mika Brzezinski asked a wide range of successful women to share the critical lessons they learned while moving up in their fields. Power players such as Facebook's Sheryl Sandberg, Senator Elizabeth Warren, Harvard's Victoria Budson, comedian Susie Essman, and many more shared their surprising personal stories. They spoke candidly about why women are paid less and the pitfalls women face—and play into. Now expanded to address gender dynamics in the #MeToo era, *Know Your Value* blends compelling personal stories with the latest research on why many women don't negotiate their compensation, why negotiating aggressively usually backfires, and what can be done about it. For any woman who has ever wondered if her desire to be liked can be a liability (yes), if there is a way to reclaim her contribution after it's been co-opted in a meeting (yes), and if there are strategies men use to get ahead that women should too (yes!), *Know Your Value* provides vital advice to help women be their own best advocates. In *The Entrepreneurial Artist: Lessons from Highly Successful Creatives*, Aaron Dworkin offers an engaging, practical guide to achieving artistic fulfillment, both personally and professionally. Based on the accomplishments of Shakespeare, Mozart, and several contemporary creatives, these lessons will help you realize your goals—no matter your medium. Among those Dworkin personally interviewed for this book are Emmy-winning actor Jeff Daniels, Tony-award winning choreographer Bill T. Jones, Grammy award-winning musician Wynton Marsalis, and Pulitzer Prize winner Lin-Manuel Miranda, among others. The stories of these twelve remarkable individuals come alive with lessons of love, loss, despair, sacrifice, perseverance, and triumph. Some of the artist-entrepreneur takeaways explored in this book include: Build partnerships—with peers, patrons, and sponsors Embrace diversity Expand your focus Allow your work to mature Whether one is an aspiring student artist in search of practical tools to build a sustainable career, or a veteran seeking reinvention, *The Entrepreneurial Artist* offers insights—well-tested, unusual, or innovative—that are meaningful for every kind of creative.

The Resume Coloring Book is a DIY formula for a successful, professional resume template. This template has gotten my clients interviews faster and more successfully than when they were writing a résumé on their own and not getting any results! And it's simple! Using a color-based, easy to follow method, you will create your DIY resume that looks like it was created by a professional, has a 60% better chance of being read, and greatly increases your chances of getting more interviews! *The Resume Coloring Book* will teach you how to identify and take credit for the skills you have, and, how to turn them into powerful credentials for your resume that will attract the employers you want to work for!

High school and the difficult terrain of sexuality and gender identity are brilliantly explored in this smart, incisive ethnography. Based on eighteen months of fieldwork in a racially diverse working-class high school, *Dude, You're a Fag* sheds new light on masculinity both as a field of meaning and as a set of social practices. C. J. Pascoe's unorthodox approach analyzes masculinity as not only a gendered process but also a sexual one. She demonstrates how the “specter of the fag” becomes a disciplinary mechanism for regulating heterosexual as well as homosexual boys and how the “fag discourse” is as much tied to gender as it is to sexuality.

Danielle Evans is widely acclaimed for her blisteringly smart voice and X-ray insights into complex human relationships. With *The Office of Historical Corrections*, Evans zooms in on particular moments and relationships in her characters' lives in a way that allows them to speak to larger issues of race, culture, and history. She introduces us to Black and multiracial characters who are experiencing the universal confusions of lust and love, and getting walloped by grief—all while exploring how history haunts us, personally and collectively. Ultimately, she provokes us to think about the truths of American history—about who gets to tell them, and the cost of setting the record straight. In “Boys Go to Jupiter,” a white college student tries to reinvent herself after a photo of her in a Confederate-flag bikini goes viral. In “Richard of York Gave Battle in Vain,” a photojournalist is forced to confront her own losses while attending an old friend's unexpectedly dramatic wedding. And in the eye-opening title novella, a black scholar from Washington, DC, is drawn into a complex historical mystery that spans generations and puts her job, her love life, and her oldest friendship at risk.

The Business of Design debunks the myth that business sense and creative talent are mutually exclusive, showing design professionals that they can pursue their passion and turn a profit. For nearly thirty

years, consultant Keith Granet has helped designers create successful businesses, from branding to billing and everything in between. Unlike other business books, *The Business of Design* is written and illustrated to speak to a visually thinking audience. The book covers all aspects of running a successful design business, including human resources, client management, product development, marketing, and licensing. This timely update on the tenth anniversary of the first edition includes new content on social media, working from home, and understanding and working with different generations, essential tools in today's ultracompetitive marketplace.

Too often a design or architecture degree is seen as a means to an end (a job in an established practice). But imagine for one moment that there are no employers, no firms to send your resumé to, no interviews to be had—what would you do? How would you forge your own path after graduation? The current economic climate has seen many graduates chasing a finite number of positions. The most ingenious and driven designers have found weird and wonderful ways of making opportunities for themselves, often by applying their skills across the creative disciplines of art, design, architecture, and interiors. Knowing what you want from your design career and being able to adapt your strategy to suit is basic and vital—just like in the wild, designers need to evolve. The book celebrates the various strategies that students and graduates are taking to gain exposure, while also including interviews and inspirational advice from those who are now enjoying success as a result of their creative approach to employment.

"This book is a message from autistic people to their parents, friends, teachers, coworkers and doctors showing what life is like on the spectrum. It's also my love letter to autistic people. For too long, we have been forced to navigate a world where all the road signs are written in another language." With a reporter's eye and an insider's perspective, Eric Garcia shows what it's like to be autistic across America. Garcia began writing about autism because he was frustrated by the media's coverage of it; the myths that the disorder is caused by vaccines, the narrow portrayals of autistic people as white men working in Silicon Valley. His own life as an autistic person didn't look anything like that. He is Latino, a graduate of the University of North Carolina, and works as a journalist covering politics in Washington D.C. Garcia realized he needed to put into writing what so many autistic people have been saying for years; autism is a part of their identity, they don't need to be fixed. In *We're Not Broken*, Garcia uses his own life as a springboard to discuss the social and policy gaps that exist in supporting those on the spectrum. From education to healthcare, he explores how autistic people wrestle with systems that were not built with them in mind. At the same time, he shares the experiences of all types of autistic people, from those with higher support needs, to autistic people of color, to those in the LGBTQ community. In doing so, Garcia gives his community a platform to articulate their own needs, rather than having others speak for them, which has been the standard for far too long.

From legendary playwright August Wilson comes the powerful, stunning dramatic bestseller that won him critical acclaim, including the Tony Award for Best Play and the Pulitzer Prize. Troy Maxson is a strong man, a hard man. He has had to be to survive. Troy Maxson has gone through life in an America where to be proud and black is to face pressures that could crush a man, body and soul. But the 1950s are yielding to the new spirit of liberation in the 1960s, a spirit that is changing the world Troy Maxson has learned to deal with the only way he can, a spirit that is making him a stranger, angry and afraid, in a world he never knew and to a wife and son he understands less and less. This is a modern classic, a book that deals with the impossibly difficult themes of race in America, set during the Civil Rights Movement of the 1950s and 60s. Now an Academy Award-winning film directed by and starring Denzel Washington, along with Academy Award and Golden Globe winner Viola Davis.
