Winner of the 2018 Christian Book Award for Bible of the Year. The Swindoll Study Bible offers the best of Chuck Swindoll's wit, charm, pastoral insight, and wise biblical study directly to you as you study God's Word. Chuck's warm, personal style comes across on every page, and his informed, practical insights get straight to the heart of the Bible's message for the world today. Reading each part of this study Bible is like hearing Chuck speak God's Word directly to your heart. It will both encourage readers' faith and draw them deeper into the study of God's Word. In Chuck's own words: "This study Bible was designed with you in mind. As you read the Scriptures, imagine my sitting beside you and sharing personal stories, important insights, and hard-earned lessons that will encourage you to walk more closely with Jesus Christ. You'll discover the who, what, where, when, why, and how of the Bible: Who wrote it and when? What does it mean, and where did its events occur? Why should I trust it? And most importantly, how can I apply it today? "It's that last question more than any other that has fed my passion to publish this Bible. My primary focus in ministry has been teaching biblical insight for living . . . for genuine life change. After all, that's why God has communicated His Word to us--so that we may become like His Son, Jesus Christ, the central figure of this Book." Free app with purchase! The hormones of the menstrual cycle profoundly influence our energy, mood and behaviour, but all too often we're taught that our hormones make us unreliable, moody bitches, or that it's our lot in life to put up with 'women's problems'. Maisie Hill, a women's health practitioner, knows the power of working with the menstrual cycle and refuses to accept this theory. Instead, Maisie believes that our hormones are there to serve us and, if utilized correctly, can be used to help you get what you want out of life. Yes, we are hormonal, and that's a very good thing. This revolutionary book reveals everything you need to know about taking control of your menstrual cycle and outlines *The Cycle Strategy* to help us perform at our best, throughout our cycle. A thoughtfully curated and gloriously illustrated retrospective of the band's studio releases, *Queen*, comes just in time for the 45th anniversary of their debut LP and biopic. Formed in 1970, Queen went on to become one of the most popular—and most successful—rock bands of all time. Even following the untimely death of beloved and magnetic frontman Freddie Mercury, and nearly 50 years after their formation, interest in the band has continued, evidenced by scores of reissues, arena tours with surviving members, and a feature-film biopic. In this new installment in Voyageur Press's *Album by Album* series, rock journo Martin Popoff convenes a cast of 19 Queen experts and superfans to discuss all 15 of the band's studio albums (including their soundtrack for the 1980 film *Flash Gordon*).

Panelists include Queen experts, rock journalists, musicians, and record industry figures. The results are freewheeling discussions delving into the individual songs, the circumstances that surrounded the recording of each album, the band and contemporary rock contexts into which they were released, and more. The engaging text of this beautifully designed book is illustrated throughout with rare live performance and candid offstage photography, as well as scads of rare Queen

From a stunning new voice, a debut novel that, like Zadie Smith's *White Teeth* and Monica Ali's *Brick Lane*, confronts the multi-racial realities of modern Britain with humour, grace, and lyrical intensity. Identical twins Georgia and Bessi live in the loft of 26 Waifer Avenue in Neasden, London. It is their place, one of strawberry-scented beanbag chair, a view of the apple trees, and very important decisions, and all visitors must knock on the door marked 26a before entering. Downstairs is a less harmonious world: Ida, the twins' Nigerian mother, puts cayenne pepper on Yorkshire pudding and can only assuage her bouts of desperate homesickness with five-hour baths and long conversations in Edo with her own absent mother; Aubrey, their Derbyshire-born father, shouts "Haddock!" in frustration with his house full of women, and angrily roams the streets of Neasden to

escape his demons. Older sister Bel discovers sex, high heels, and organic hairdressing, and baby sister Kemy is obsessed with Michael Jackson. The twins plan their own flapjack empire as the ticket to a shining future for two. But as Georgia and Bessi grow up, discovering the temptations and dangers of London in the 1980s and 90s, the realities of separateness and of solitude crowd in. Each must decide on her own path to adulthood and pursue it — and discover if she can face the future as only one. Wickedly funny and devastatingly moving, 26a is part fairytale, part nightmare. It moves from the mundane to the magical, the particular to the universal with exceptional flair and imagination. It is for everyone who remembers their childhood, and anyone who knows what it is to lose it. On the outside of their front door Georgia and Bessi had written in chalk '26a,' and on the inside 'G&B,' at eye level, just above the handle. This was the extra dimension. The one after sight, sound, smell, touch and taste where the world multiplied and exploded because it was the sum of two people. Bright was twice as bright. All the colours were extra. Girls with umbrellas skipped across the wallpaper and Georgia and Bessi could hear them laughing. —Excerpt from 26a

Presents scholars, students and general readers with the major fiction for adults, much of the best of juvenile fiction, and a selection of the educational and occasional writings of Maria Edgeworth. MARIA EDGEWORTH was born in 1768. Her first novel, *Castle Rackrent* (1800) was also her first Irish tale. The next such tale was *Ennui* (1809), after which came *The Absentee*, which began life as an unstaged play and was then published (in prose) in *Tales of Fashionable Life* (1812), as were several of her other stories. They were followed in 1817 by the last of her Irish tales, *Ormond*. Maria Edgeworth died in 1849. Edited with an introduction and notes by Marilyn Butler.

There is, after all, a whole world out there just waiting to be discovered. So, before he gets on to torque steer and active suspension, he takes time out to consider:

- The madness of Galapagos tortoises
- The similarities between Jeremy Paxman and AC/DC's bass guitarist
- The problems and perils of being English
- God's dumbest creation

Then there are the cars: whether it's the poxiest little runabout or an exotic, firebreathing supercar, no one does cars like
